~ HISTORY REPEATS ~

They say history always repeats itself. The scripture explains in 1 Peter: 1; "The word of the Lord is living and its everlasting. The flowers fade away, the word of the Lord endures forever."

Only people that are spiritually asleep can not see that God is getting ready to do something to America for its rebellious attitude. Coming to the point of where God's being forced to deal with a people who mostly are going to do what they want to.

God's response to the wickedness of this day is to declare His judgment and it is happening right now. God is declaring His judgment for America's wicked behaviors that are basically going unchecked without being challenged and so the stage is set for what's coming.

Often the only way to understand the reality of our life is to go through the judgment process. And if you are willing to humble yourself and make the proper response, you will then fully experience God's grace. He will remove your burdens and restore your life.

Even in the midst of the most terrible judgment the mercy and grace of the Lord is still available to a repentant people. If God's judgment will lead some to a restored relationship with Him, then God will try. And that is what God is doing right now. He's making a last effort to get people to turn their hearts to Him before the coming disasters start.

ASK THE MOTOR MEDICS[®]

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I'm having a problem with my lights on my 2000 Ford Taurus. Both the front and rear lights have water in them. The rear looks like a bathroom mirror after a hot shower on both sides and the front has water collected towards the bottom of the driver side headlight. When the weather is dry for long periods they will clear up, but if I wash the car or it rains once they fog right back up. The bulbs themselves seem to be working ok and this has gone on for a couple of years. What can I do to fix this? I just don't like the way it looks.

Thank you,
Doug in Clarksville Tennessee

Dear Doug,

Many vehicles have this issue. The moisture comes from the seal around the plastic lens leaking where it's bonded to the inside light reflector housing. During hot sunny days the heat generated by the sun will break down the seal and moisture will occur. In some cases, the lens will separate completely from the reflector. We have seen people try many things to repair their existing lights but usually the most effective fix is to replace the assembly. Check several places for the best deal. Auto recycling facilities, the dealer, and auto parts stores usually carry the assemblies. Once you find a good light at a reasonable cost, you could possibly install them yourself. You will want to have the front aimed by a professional though.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2001 Ford F150 and I would like to know more about using synthetic oils in order to extend the life of the truck and increase fuel mileage. Am I on the right track here? Can I expect to see a big increase in mileage if I switch to all synthetics and is there a risk that I might damage something by switching now after 150,000 miles using regular oils? I have changed the fluids according to the manuals severe service ratings on time ever since I purchased the truck new.

Thank you,
Mark in Fargo North Dakota

Dear Mark,

You can switch all the fluids over to synthetics but don't expect a huge gain in mileage. If you have all conventional oils now and were to change everything in the drivetrain over, you may see a slight increase in the highway mileage, and you will help extend the life of any parts that are not already worn severely. The oil itself should not hurt your vehicle but you must stick with the factory approved type. On some older vehicles changing may result in leaks. Consult with your dealer to be sure. Synthetics don't break down as fast as conventional oils and they hold their viscosity more consistently which is the main boost for the mileage. Changing over to synthetics can be expensive so if you do it you may want to change one at a time when that service comes due.

Take care,
the Motor Medics

Dear Motor Medics,

On occasion my 2006 Chevy Colorado vehicle won't turn over. When I turn the key, there is no sound and all the lights on the dash stay bright. I have found one thing that is different when this happens and that is a symbol of a padlock on the dash that flashes when the key is on. When the vehicle cranks normally the light comes on then goes off right away. I have had it in for service several times with no luck as they can't duplicate the problem. They have told me that the symbol is for the anti-theft pass lock system and that it can't be the problem because it shuts off fuel to prevent theft and does not control the starter. They think it may be the starter and want to replace it but at a cost of over \$500.00 I want a second opinion and value yours.

Thank you,
Brandon in Cloquet MN

Dear Brandon,

A second opinion is always good when the price gets high. We don't want to criticize others repair knowledge since we make our own mistakes but... If they were to look under GM's description and operation of the pass lock system in the manual they would see clearly that the theft system does control the starter. We see this issue often and almost always it is a problem with the lock cylinder sensor. This would be a good area to investigate before changing a starter.

Take care,
the Motor Medics

Dear Motor Medics,

I just moved from Florida with my 2004 Chevy Trailblazer which has never seen temps below 40 degrees. I lived here in the 80s and remember how hard it was to keep my car going. What should I do to help my vehicle?

Thank you,
Carson in Mora

Dear Carson,

What you need depends on how well you have taken care of your vehicle. If you have been following the recommended maintenance schedule you will be closer to ready. Consult with a local mechanic for a complete list but here are a few things that can catch you off guard. A battery that has been worn down by summer heat may fail when very cold. A capacitance test will reveal its true condition. Poor heating or engine freeze-up caused by lack of regular cooling system care. Flush the system and the heater core on a scheduled basis to keep it in good shape. Don't forget to inspect belts and hoses; the cold is very hard on them. Tires will drop pressure when cold as well so adjust as needed. Follow the manufacturers recommended oil viscosity ratings when changing your oil. Don't use thinner oil unless it is allowed by the manufacturer or you could cause engine damage. For easier starting fully synthetic oil can help on very cold days. There are other items as well so get to your mechanic before it gets too cold and don't forget a good winter survival kit.

Take care,
the Motor Medics

AUCTIONEER'S NOTE:

After the passing of their stepfather, the children helped their mother move to an assisted living home and put her house up for sale. Never dreaming it would sell the first week it was listed, so the family had to start packing and moving everything into storage. So we went through a few boxes to make a shortlist, but there are acres of unlisted items to be unpacked. This will be a large auction with lots of surprises, hope you can make it. We will start the auction with coins and sell all of them first.

AUCTIONEERS:

Bud Armstrong - 918-541-8006
Cody Ross - 417-529-4416

Cashier - Earl Reynolds
Clerk - Ellen Lauber
Ringman - Mike Lauber

Auctioneer's Note: We will have a very nice line of items to sell. Almost every item is right off the farm. Something for everyone. Most of the items will sell with No Reserve. At our last auction, we sold over 90% of items consigned. Since sale bills are printed 3 weeks in advance, we usually have a lot more items than listed. We will be selling in several rings at the same time, so bring a friend. Because we rely on the word of others, all items are subject to No Show. All items are subject to prior sale. If driving a distance for a single item, please call. **NOTE:** 9.25% Sales Tax will be added to all items that are not used for agriculture. All dealers must bring a copy of your resale sales tax license. **If you have items to sell, you can still consign to this auction!** We are open 8:00-5:00 Monday-Friday to check-in and unload your items. To have your equipment available for online bidding, your equipment **MUST** be on our lot by Tuesday, October 26th @ 5:00 pm. No consignments taken after 5:00 pm Thursday October 28, 2021. For questions or to consign call Ervin at 417-310-0812 or Merlin at 417-310-3324 or e-mail us at circleeallc@gmail.com View pictures @ circleeauction.com. **Remember We Are ALWAYS Closed On Sunday.**

Concessions available including homemade pies and baked goods, biscuits & gravy.
Online Bidding Available on select items @ circleeauction.com

Terms: Cash or Good Check with Photo ID - All Buyers Unknown to Circle E Auction MUST Furnish a Current Bank Letter of Credit If Paying by Check.
