### ~ LOSING OUR MIND ~

We are watching this unfold daily all around us. Just as the Bible tells what happens when a people or a nation continue to put God out of its society. It is no wonder there is a continual drive to remove Christianity from our culture and as this is being done so.

The Bible speaks of this several times, in Deuteronomy 32: 28-29, it tells of what happens when people continue to reject God out of all forms of living. Listen to what it says, "For they are a nation void of counsel nor is there any understanding in them. Oh, that they were wise, that they understand this, that they would consider their latter end."

God tells us what will happen when He is kicked out of Christmas, thrown out of our public schools, made politically correct by our universities, removed from our business practices and all legally endorsed and enforced by the government.

Proverbs 12:11 tells us that "they who follow foolishness are devoid of understanding." The result of this is showing up everywhere more and more. And America and this world are in trouble. We have become a people who want to make their own laws without God's word.

It is obvious today to many that something is terribly wrong in America and around the world. The more people take control away from the principles God set for them, the more the country will fall into depravity and bring destruction ways until it crumbles.

Mankind cannot save the world, only destroy it and only Jesus Christ can save it.

**NEED SOMETHING?** Let us help you. You can advertise that you are looking for a special item. **Call 417-624-4100 for more information.**

**HAVING A garage sale or rummage sale?** Call us for special pricing. 417-624-4100.

### HELP WANTED

**EXECUTIVE DIRECTOR:** Small, diverse, Missouri housing authorities seek a qualified Director. The Executive Director is over three separate authorities with the main office being in Anderson. Each housing authority is an entity of its own. The Executive Director plans and oversees daily operations and is responsible to a dedicated, active Board of Commissioners. The ED manages an experienced two-person administrative and maintenance staff, with 100 units of public housing altogether. Training of HUD regulations, procedures and reporting will be required within one year. Skills in computerized accounting and community relations are a plus. Salary is commensurate with experience and credentials. EOE. Please send a letter of interest with a resume to: Board of Commissioners, Housing Authority of the cities of Anderson, Lanagan, Pineville, PO Box 396, Anderson, MO 64831-0396 or fax to 417-845-7057 or email: lapvan@olemac.net Deadline to receive applications is 5pm, Friday, October 15, 2021. For additional information, call the Office 417-845-6351.

### OTR & DRIVER OPPORTUNITIES

**DRIVING JOB AVAILABLE.** We are a small family owned company, based out of Purdy MO, hauling grain and commodities throughout the 4 state area, MO, OK, AR and KS. We travel within a 300 mile radius. Drivers are home every weekend, leaving out Monday morning, returning Friday evening. We also have a few other dedicated freight lanes moving throughout the Midwest. We have later model trucks and trailers that are well maintained. Pay is based off of percentage, safety bonus at the end of year, paid vacation and paid holidays as well. Please call 417-442-3741.

## MANUFACTURED HOMES

FOR SALE. 1985 Sunrizon Mobile Home. This is a cute little house that would be perfect as a fixer upper. Two bedrooms, two bathrooms, kitchen, living room, and small utility room. It has a very nice buffet and linen closet. It needs plumbing work as well as siding. The floor in one of the rooms needs to be rebuilt. Buyer would have the expense of taking the mobile home out of its current location. Price is \$3000 for the mobile home as is, plus plan on spending around \$3000 to move it. Or make an "As Is" offer. Call Paul at 417-793-4356 or 417-423-9023.

NEED SOMETHING? Let us help you. You can advertise that you are looking for a special item. **Call 417-624-4100 for more information.**

# ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a general question about air bag safety. I heard you talking on a recent episode of Under The Hood about the testing of air bags and how they were tested differently in America and Overseas markets. The difference was in America they are tested with the use of a seat belt and Overseas sometimes without. I have never had an airbag deploy in my vehicle and I don't look forward to ever having it occur, but I want to know what to expect if it does and what I can do to prevent injury. Personally, I would rather not have airbags in my cars, but it doesn't look like they are going away. What is your take on people who ride with their feet on the dash or a pet in their laps?

Thank you,  
Mike in Sweetwater Texas

Dear Mike,

Air bags are great inventions that have saved many lives but if misused can cause severe injury. Every car made has a guide for proper air bag use printed in the owner's manual and it needs to be followed. Proper distance between you and the airbag is crucial as well as seat belt use. Follow the guidelines in the manual and never place anything between you and the airbag. Anything placed in this zone will become a projectile, including a pet and is extremely dangerous. As for feet on the dash, an inflating air bag can cause irreparable damage to them.

Take care,  
the Motor Medics

Dear Motor Medics,

My car has been overheating and the shop I have been going to can't seem to find the cause. It only seems to overheat when I drive it and I can't seem to find a pattern with it that I can use to have the shop duplicate the problem. On occasion I will find the heater stops blowing hot air and at the same time the temp gauge increases into the red zone. If I pull over and let the engine idle for a while it will cool down and the heat will come back. It has also done this at idle before. They want to replace head gaskets, but they aren't sure if they are bad. Is there anything I can do to find out for sure before we tear it apart and possibly don't find anything wrong with it?

Thank you,  
Jeff in Branson Missouri

Dear Jeff,

You never want to guess with head gaskets as they are very expensive to replace but what you are describing is a failure symptom. When coolant flow is disrupted by a head gasket leak, it is the presence of exhaust gasses in the coolant that is the cause. A simple test can be done to check for these gases and if any traces are found you know there is an issue with a gasket or something more severe. Once gases are detected a tear down is necessary to determine the exact cause, gasket, block, head, etc.

Take care,  
the Motor Medics

Dear Motor Medics,

I drive a 2011 Ford F150 and I am having trouble with the in-dash tv screen which controls the radio and the air conditioning. I like the way it has worked until now that I can not see the screen and there is no way to control the vent system or radio. My radio is stuck on a station I do not want to hear, and the blower is in the full cold position. I need to roll down my windows at times to warm up. I have always feared something like this would happen but was assured when I purchased the truck that it was an unlikely scenario. What must be done to repair it, and can I get around it until then?

Thank you,  
Michael in Redwood Falls Minnesota

Dear Michael,

The modern features in today's vehicles are convenient and give us a feel of luxury even in the least expensive of car models. The dash screen in many models now controls several systems and some of them are designed with knobs which are plain old switches so that in the event of a failure in the screen they can still be controlled. With the touch screen you are out of luck. A shop will have to diagnose and repair it. Many times, it is just the monitor screen but sometimes is also the module behind it. Many people have had great luck with used parts when the cost of news is remarkably high.

Take care,  
the Motor Medics

Dear Motor Medics,

My 2011 Chevy Suburban with 225K has a check engine light on most of the time. The vehicle also has a slight noise in the engine that has become louder over the past couple of months. It seems to run well other than the noise and check engine light other than a little loss of fuel mileage. I took it to the dealership, and they tell me it needs an entire engine and will cost several thousand dollars. They say it has something to do with the camshaft and lifters and something called active fuel management. How can it run so well and need an entire engine?

Thank you,  
Bill in Madison South Dakota

Dear Bill,

If the diagnosis is correct, then the symptoms you are having are aligned with the problem. Active fuel management works by deactivating certain valve lifters which effectively shut off their corresponding cylinders. The engine computer handles this operation based on engine load. When this system starts to have problems do to wear or lack of oil system care, you can have several symptoms all the way down to total engine failure. Your engine has lasted a long time. We see a number of these in our shop which have failed camshafts and lifters with fewer miles, and in a few cases the engine can be torn down and repaired but many times the engines need to be replaced. Metal contamination in the oil system and cylinder wear necessitate larger repairs.

Take care,  
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

## REAL ESTATE AND PERSONAL PROPERTY AUCTION

Saturday, October 2nd, 10 A.M.  
70 East Main Street, Peoria, Okla

We have the pleasure of conducting the sale of Real Estate and Personnel Property for Ms. Eula Ludlum, a long time resident and former Mayor of Peoria, Ok. There will be 2 parcels at auction on this date.

### TRACT 1:

The home consists of 1596 +/-sq ft of living space, 3 bedrooms and 2 baths. There is a combination of new carpeting, parquet flooring and hardwood flooring in the majority of the home. The construction to the home consists of wood framing, conventional foundation, vinyl siding and a good metal roof. An addition to the property is a metal framed 60' X 30' building with 4 overhead doors, concrete pad and metal roof. There is an alley to the rear of the home and shop building for added access. The building is wired with electricity and lights. The County Assessor shows 1800 +/-sq.ft. of work space. The size of the lot that the improvements are on is 150' X 125'.

### TRACT 2:

This tract consists of 23+/-acres of land which is 90% timber, some large and some small. The land is locate on the north edge of Peoria with utilities available but not on the property. If your a hunter, this tract has lots of deer and other wild life on it. Several nice deer were seen on the property recently.

TERMS: Financing must be prearranged, financing is not a condition of the auction. 5% down day of auction with balance due at closing in 30 days or less. Land and home sell "where is, as is" in its current condition. If buyer desires to inspect, it must be done

prior to auction. Regardless of inspection outcome, home sells "where is, as is." Contact auction company for full details and terms and conditions. See website for additional information and pictures: [www.ucpostproperties.com](http://www.ucpostproperties.com)
