-JUST WHAT DO YOU KNOW?-

Do you really know God? Or do you just know about God? Are you a true follower of Jesus Christ? Or just know about Jesus? Have you actually made Jesus the Lord of your life? Or just a part of your life? Are you actually a disciple of Jesus Christ or just a member of a group that professes His name only?

You will answer those questions daily with your life by how you choose to live in the world around you. Your life is a testimony of who you say you are and how you live before others who can see who you are. I remember the man who told me he couldn't believe his neighbor was a preacher when I told him because he told me about what he heard out of that man's mouth toward his family through the windows of their house that he would have never expected that this man was even a Christian.

It's a sad reality but it is true sometimes among those who profess Christ. Jesus said that those who believe in Me, and those who continue to keep My word will be My disciples. So, are you one of these that just believe in Jesus, or daily keep His word and obey His will and bring about it by living a life as one of the genuine follower?

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete. Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive. List major selling points (price, color, size, features or options).

Be Factual. Be Helpful. Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a question about mufflers. Let me start by saying I am 72 years young and drive a 2003 GMC ¾ ton diesel truck. This thing is mint, and I have about every gadget known to man installed on it. What I have not done is modify the exhaust. I deliver RV trailers cross country with it and I wonder if adding a different exhaust may help with mileage.

I see so many muffler systems on the road and some are so loud that I can hear them as they drive by with my windows up and air and radio on. I don't want to have a muffler that overpowers me. Is there such a thing as a performance muffler system that is also quiet?

Thank you,
Dan in Fargo North Dakota

Dear Dan,

Yes there are mufflers that are quiet and add performance. With a diesel, a free-flowing exhaust system can make a difference in both power and mileage especially if used in conjunction with a power programmer which we will talk about often on our talk radio show. An exhaust system alone can also give you a boost and bigger and louder is not always king. Check on the diesel truck forums and see what is working for others with the same model truck. You will find many systems that provide both the added power you desire while keeping the noise level you want inside as well.

Take care,
the Motor Medics

Dear Motor Medics,

I found myself in a strange situation at my house late at night with no one to help me. I had driven to work earlier and when I tried to turn my car off, I thought I felt the key hang up a bit like it was going to stick and not turn off, but it did. I went to lunch and no problem but when I got home it did stick and would not turn off past the accessory position. I did not know what to do so I left my key in the car overnight and I was uncomfortable with that. I took it to a shop where they were able to fix it for me, but it was not in my budget at this time. Is there anything I could have done to at least get the key out?

Thank you,
Susan in Denver Colorado

Dear Megan,

Yes, there is a way to get the keys out of most cars when the ignition won't turn off like yours did. It can be as simple as pressing a hidden button in the bottom of the steering column or on the console. Other cars require removing a panel to access the button and most can be accessed quickly. The internet has some great articles about how to access the hidden buttons. Look up how to do it and if you have this problem again, you'll be able to get the key out.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2012 Dodge Ram 3500 truck with a diesel engine. Recently I had my catalytic converter and particulate filter stolen from the truck. This is the third time that this has happened to me. I have been told that the filter is almost worth nothing on the used market for scrap and that the converter is about worthless too because it is a diesel. The first two times the insurance covered the cost which was near 7k dollars labor and tax included but this time although they are covering it, they say they are going to raise my rates because I am now what they call high risk due to three thefts of the same parts in three years. I live in an apartment complex that otherwise seems to be safe. What can I do and why do they keep stealing worthless parts?

Thank you,
Mel in Branson Missouri

Dear Mel,

Crooks are not usually super smart. We doubt that they research what vehicles have the most valuable parts to steal and then make a list like in the movies. Many are just following the latest trends and think that all converters are valuable. If they get caught, they will likely get hung with multiple thefts and be looking at a long time behind bars. Hopefully, they will catch your thieves. Look into catalytic converter lock cables on the internet. This or welded log chain has been a major deterrent for theft

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2014 Promaster van with the diesel engine. Lately I have been having issues with my headlights. For about the past year my lights have blown fuses on both the left and right side and the last time it happened I replaced them, but the low beams no longer work. I replaced the headlamp switch and checked all the wires but cannot find the problem. When the fuses would blow, sometimes it would be the left alone then the right several weeks later or both may blow the same day but at different times. This happened at least ten times over the years' time.

Thank you,
Troy in Dearborn Heights Michigan

Dear Troy,

If this van was blowing fuses that often we must wonder if the bulbs are not the load that the factory has specified the vehicle to use, or they are somehow damaged. You do not say in your email to us, but we have to ask, have you removed the bulbs to inspect them. It sounds like a first place to start but it seems like every month we have at least one vehicle comes in with failed headlamps or tail lamps and the fix was to simply replace the bulbs. The customers just thought that there is no way that both could go at the same time, but they can. And, if someone changed them to high powered bulbs, they could pull too much current and blow fuses.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.
Make Your Copy Complete. Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.
Be Creative Descriptive. List major selling points (price, color, size, features or options).
Be Factual. Be Helpful. Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.
Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.
Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.
Urge The Reader To Act Now! Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".
