### Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Advanced

### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

# CLASSIFIED QUICK TIPS WRITING A SUCCESSFUL AD

**Prepare.** Know what is important to readers shopping in your classified category.

**Make Your Copy Complete.**

Use ad copy effectively to thoroughly communicate to potential buyer(s).

Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

**Be Creative Descriptive.**

List major selling points (price, color, size, features or options).

**Be Factual. Be Helpful.**

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

**Make Your Ad Easily Recognizable.**

Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

**Maximize The Amount Of Prospective Buyers/Readers.** Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

**Urge The Reader To Act Now!**

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

**The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.**

# ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a question about antifreeze. I have not owned a car more than 7 years until now and I would like to know if I need to do something with my coolant. The shop I have gone to for the past two years has been trying to get me to flush the system, but they are not really giving me a reason other than it's time due to miles and age. I did have it checked to make sure it won't freeze up in the winter and it looks clean so why would I need to change it?

Thank you,  
Devon in Larchwood Iowa

Dear Devon,

We are so glad you asked this question because many people are unaware of how to take care of their cooling systems and that can lead to very expensive repairs. The antifreeze serves several purposes. It is there to prevent freeze-up, boil-over, and to assist in the prevention of extremely damaging rust and corrosion in the cooling system. Even though coolant looks good and passes a freeze test it may fail a PH test. If the coolant does not have the proper PH rust and corrosion can damage gaskets, the radiator, and heater core, or scale can form in the passages. Test strips used during yearly checkups at a shop will verify the PH and need for changing which usually falls somewhere in the two-to-five-year range. Changing it can save you money.

Take care,  
the Motor Medics

Dear Motor Medics,

I'm ready to buy a new car and I could do it at any time, I'm kind of an impulse buyer. My car is about 8 years old and needs a little work and I have the cash so I may stop by a lot and just buy something that catches my eye. I will likely look for something in the two-year-old or so range with 50k miles or a little more to keep the cost down which probably means no warranty. Since I usually buy on impulse, I'm not likely to get a pre-purchase inspection done and I know you guys strongly suggest one. What can I do to make sure I get a good car?

Thank you,  
Tanner in Garretson, South Dakota

Dear Tanner,

Without the inspection you have no guaranty as to what you are buying. While no inspection can guaranty a trouble-free car, it can eliminate many commonly found money robbing issues that consumers could possibly get stuck with when buying a used car. I would suggest that if you don't get the inspection try to buy from a reputable lot that may offer at least a short-term warranty or sale contingent on a passing inspection. Also look for lots offering pre inspected cars. Many of the credible lots do an outstanding job of pre-inspecting vehicles to keep their customer satisfaction high and will be able to tell you what they have checked over.

Take care,  
the Motor Medics

Dear Motor Medics,

It has been a crazy winter. We saw snow deeper than I have ever seen in my thirty years of living here and colder temps than we have ever seen for this long. My car and many friends' cars would not start after sitting at work all day. Once we got out of work, we had to plow through snow bumper deep to get home. I made it about four miles and my car started to overheat. The temp was about 5 degrees. I had let my car run for about five minutes before I left work, but I had no heat all the way to it overheating. I sat along the side of the road for about ten minutes for it to cool then the car ran fine and had great heat and the coolant is full. What could be wrong?

Thank you,  
Lucinda in Longview Texas

Dear Lucinda,

Coolant. If the coolant strength is too weak in a vehicle the coolant will freeze partially but not hard enough to damage the block but may restrict flow. Once the engine runs for a short time and the coolant thaws, it may work fine. Once you pulled over the coolant may have had time to thaw a bit from the heat built up by the running engine. Have the engine checked and describe exactly how it failed and have the coolant checked. Hopefully, it just needs a good complete coolant flush.

Take care,  
the Motor Medics

Dear Motor Medics,

I have been having issues with my car battery. I have a 2010 Buick Lucerne with a V6 engine and every few days the battery will die. This usually occurs after the car sits overnight or more than one day. If I leave the door open or radio on for more than ten minutes, it will also go dead. I have been jump starting it using other cars to get going then I go into my shop and they tell me it is a little low, but it is still a good battery even though its seven years old. I am thinking about buying one of those little jump starters to carry in the glove box, so I don't keep getting stuck. Which one is best to buy?

Thank you,  
Dale in Idaho Falls Idaho

Dear Dale,

It sounds like it's something wrong with the battery and here's why. If you can leave a door open for a short while and the battery goes dead, it is a sure sign that the battery has no reserve capacity left. Reserve capacity is a measure of how long a battery can maintain a state of discharge before going dead. Yours is too short. A shop may have checked it, but you may want a second opinion. Being 7 years old is also a sign of a bad battery as they don't tend to last much more than that but purchasing a jump starter is still a good safety item.

Take care,  
the Motor Medics

# CLASSIFIED QUICK TIPS

**Prepare.** Know what is important to readers shopping in your classified category.

**Make Your Copy Complete.**

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

**Be Creative Descriptive.**

List major selling points (price, color, size, features or options).

**Be Factual. Be Helpful.**

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

**Make Your Ad Easily**

**Recognizable.** Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

**Maximize The Amount Of Prospective Buyers/Readers.**

Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

**Urge The Reader To Act Now!**

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

**The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.**
