Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

		8						
		7	1	5				
		1			4		3

Level: Intermediate

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ Still A Plan ~

I've heard some people say that they have known God but they really haven't been going to church or really haven't been serving God. Well, then they aren't a Christian. Only someone who knows God, has a relationship with God, even though they may stumble if they keep turning back to God, He will help them. 2nd Timothy 2:19 says this; "The firm foundation of God which He has laid stands unshaken despite attacks. The Lord knows who are His and let everyone who names the name of the Lord stand apart from wickedness and withdraw from wrongdoing." You are either one side of the fence or the other. You can't be in the middle with Jesus.

In the book of Jude verses 3 and 4 the scripture tells us to fight for the defense of the faith that belongs to the saints, that was given to all believers. For there are those who try to sneak in, ungodly people to distort the grace of God, viewing it as an opportunity to do what ever they want and live in a way that denies Christ as master. The way of the cross is the only way to heaven. Are you carrying that cross daily or denying it by how you live?

Know that God is greatly concerned about you, working all things together to those who love God who are called according to His plan and purpose. You see, God created you for a reason and His plan for you has never changed whether you've done it or not, God's plan is still a part of your life.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I'm about ready to start hauling my trailer for the season and will be using more than one vehicle. What kind of things should I be thinking about before heading out with a trailer?

Thank you,
Mike in Decorah Iowa

Dear Mike,

I'm glad that you're thinking ahead. Too many people just assume the vehicle they have is ready just because it has a hitch on the back. The first place to start is to make sure what you are pulling can safely be towed without overloading your vehicle, once that is done a safety inspection is in order. All of the items that the vehicle needs to operate such as steering, brakes, cooling, etc. will now be done for two so if it can't handle itself how will it handle towing? Have the vehicle raised on a hoist to check the suspension and brakes, replace worn parts for safety. Check the tires and make sure they are properly inflated and not cracked. Also check their load rating. Check the condition of the hitch and light wiring and inspect your engine and transmission cooling systems. Dirt and debris should be rinsed away from the cores with low pressure water. If you do not have a transmission cooler ask your mechanic about one, it may save you from having a transmission replaced prematurely. Don't forget to check the trailer for safety as well. Be sure to ask your mechanic about further towing preparations.

Take care,
the Motor Medics

Dear Motor Medics,

Last year I spent almost \$2000.00 on air conditioning repairs to my 2006 Dodge Caravan. They just said it had a complete failure and that's the way it is. They did not offer any maintenance advice. We usually keep our vehicles just until the warranty is about to expire then trade, but with a budget minded focus lately we have decided to keep our vehicles longer. That money covers several payments but we still feel it's cheaper in the long run to keep the vehicles a few more years. Is there anything we could have done to have possibly avoided this?

Thank you,
Darrin in Nashville Tennessee

Dear Darrin,

Many people have decided to keep their vehicles longer and we think this is a good idea to save money. To make sure you avoid unexpected repairs as much as possible, find a good mechanic you can trust and get on a regular maintenance schedule. In our own shop we see many vehicles fail that would not have if the driver would have done some simple low cost upkeep. In the case of air conditioning it is important to inspect the system for visible oil leaks and repair them before further use of the system. It is also important to service cabin air filters and have the condenser cleaned as needed. Any leaks in the system or overheating due to dirt can be catastrophic. These simple checks can help you avoid costly repairs.

Take care,
the Motor Medics

Dear Motor Medics,

I'm addicted to my seat heaters. Every car I have ever purchased has had them and it has even been a deal breaker for me when shopping for a car if it did not have them. I use my heaters year-round unless it is too warm out. My driver side seat heater just failed on my Cadillac and of course it is 2 months out of factory warranty. They would love to replace it for me at a charge of \$800.00 and that's just not going to happen. I am not ready to purchase a new car, but I want my seat heater to work. Is there anything I can do to get it going again?

Thank you,
Joe in Detroit Lakes Minnesota

Dear Joe,

I too enjoy my heated seats and when they fail, I would never think of spending \$800 just to keep my rear end warm. Good thing that there are alternatives out there. You could check with your local recycled parts place, AKA Salvage Yard, and they may have an entire working seat for you that will match your interior, or you could look into an aftermarket heater. Seat heaters are a great accessory for anyone who has a seat to sit on. Cars, trucks, tractors, they all can be equipped with heaters usually at a much lower price than a replacement factory unit. Check your local car stereo shops or accessory installation dealer to see if they offer them.

Take care,
the Motor Medics

Dear Motor Medics,

I had the air conditioning system fail on my Land cruiser two years ago due to a large leak in the rear refrigerant lines that run under the vehicle. Where the lines run, they are susceptible to damage from road debris and those concrete stops they put at the front of parking spaces. You know, the ones with the metal stakes holding them that my teenage daughter thinks is ok to drive over instead of backing up. So, after the cloud of refrigerant smoke cleared, I took it to both the dealer and an independent shop for a repair quote. Both places were over \$1000.00 to replace the lines. They said the lines come as a set and take many hours to replace. Is there anything I can do that won't cost me so much money?

Thank you,
Rich in Attica Indiana

Dear Rich,

Ouch! You have a few choices. You can do without air conditioning, you can spend the money for new lines, you could block off the rear lines and just use the front a/c, or you can repair the lines you have. There are a/c line repair kits out in the market that not all shops have but the ones that do will be able to cut out the damaged section and splice in a new one. You can also have a rear delete kit installed. Either one will be a large savings over having the entire line set replaced.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete. Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive. List major selling points (price, color, size, features or options).

Be Factual. Be Helpful. Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now! Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
