~ Our Greatest Duty ~

The Bible explains that God's people must not forsake the assembling of themselves, that where 2 or 3 are gathered, that God says He will be there also.

Jesus asked His disciples to pray and said, "Can you not tarry in prayer one hour?" The Bible tells us that the wise person seeks the wisdom of God, that God speaks to those that are His, as a friend.

When David found himself in a tough place, he prayed and when David wanted to speak with God, he wrote to Him with prayers we call the Psalms. Hanna asked God in prayer for a child and God answered by giving her a baby son who became the great prophet, Samuel.

God answered prayer then and God still answers prayers today. And do we here in America need for God to show up? And as we pray, He does.

What must happen that shows us in that our nation is in serious trouble and headed for very difficult times? It is all up to the Christians on how the direction of all of what is coming will be played out. We, As American Christians, must pray.

1st Chronicles 5:20 says, "For they cried out to God in the battle. He heard their prayer because they put their trust I Him."

God does hear and God will answer if we will not give up on prayer. There is a great enemy at work to destroy our nation, our world, but prayer from God's people can make all the difference.

-PUZZLE- SODOKU -OCTOBER- WEEK 2

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a 2011 Honda Civic and it specifies that I use a fully synthetic oil of very low weight. I have never seen oil with this low of a weight rating, so I worry about protection and it's also very expensive as compared to regular conventional oil. My question is this, can I use conventional oil and go with a heavier weight like a 5w30 and get the same protection at a lower cost? I want to protect my engine but also be as economical as possible..

Thank you,
Brad in Williamsport Pennsylvania

Dear Brad,

No, that's about as easy as I can put it. The manufactures have gone to lower weight oil to increase fuel mileage through less drag and reduce emissions due to stricter government standards and a demand for better fuel economy. When they changed to the lower weight oil, they also engineered the engine to run with it. This means that the engine will not lubricate properly with heavier weight oil. As for the synthetic part there are many reasons that it is required, some of which are reduced friction for the mileage and emissions, better stability to protect at the lower weight ratings, and less sludge buildup in the engine. If you were to switch to higher weight oil or use non-synthetic oil, you could risk damage to the engine that would not be covered by the warrantee. Always use the manufactures recommended oils in your engine.

Take care,
the Motor Medics

Dear Motor Medics,

I drive a 2004 Buick Regal with 110,000 miles and it felt just broke-in, but lately my feelings about the car are leaning more towards just plain broken. I have not had to do much more than general maintenance to the car, oil, coolant, transmission fluid changes and tires are about it. In the last six months it's been bigger things like starters, alternators, and wiper motors. I'm beginning to wonder where it will all stop. The latest failing item that has me writing to you because I can't duplicate it for my local shop is smoke that comes from my steering column by the steering wheel. It has happened three times at random. I am worried that the car may catch fire. Do you have any ideas, or should I just sell it?

Thank you,
Karen in Bennington, Vermont

Dear Karen,

We can help. Older cars can be great if they've been well maintained, but eventually all will need something. It sounds like you are just in a spell of breakdowns that hopefully will pass. As for the smoke I suspect that you have an issue with the turn signal switch. This was a common area for a breakdown of the contacts that causes a hotter than normal condition resulting in the grease that coats the contacts smoking. I have never seen one catch fire, but you need to have it and the wiring checked right away. I hope this helps you out.

Take care,
the Motor Medics

Dear Motor Medics,

We have a 2008 Chevrolet Tahoe and when it was just a year old, we got a new puppy. The first time we left it alone while we went inside a restaurant to eat, she decided to eat the Tahoe. She chewed the back of the rear seat and the corner off of the plastic trim too. The vehicle is in great shape with 70,000 miles and we want to sell it, but with a large hole in the seat and the damage to the plastic side trim it's making the sale very difficult. We checked with the dealer and they are telling us they can repair it at a cost of over \$3500.00 parts and labor and our insurance will not cover repairs. Can you suggest anything that we can do in the way of a repair to save some money?

Thank you,
David in Watertown, SD.

Dear David,

New interior parts can be very expensive so many people leave their vehicles unrepaired. What's wrong with a seat and trim from another Tahoe of the same year that has no damage? Look into certified used parts. Ask your dealer if they can find these parts so you can get a repair that makes more financial sense. With the hundreds of reliable used parts sources in the country they should be able to find a match for a late model vehicle like yours and make the repair affordable. There is always a way.

Take care,
the Motor Medics

Dear Motor Medics,

We have a 2012 Hyundai Santa Fe that has been having the check brake light come on periodically. The fluid tank slowly drains so we fill the brake fluid and it works fine for a while then comes on again. We had a mechanic look at it and tell us we would have to replace the HCU in the brake system and that the part alone is about \$1600.00. Is this a common problem and does this sound reasonable? Is there anything else we can do? I'm a little hesitant to spend so much on a repair on a 10-year-old vehicle, when the value is maybe a little more than twice the cost to repair the problem.

Thank you,
Kay in Nebraska

Dear Kay,

The HCU is the Hydraulic Control Unit and it's the main component of the antilock brake system. The units don't tend to leak fluid but rather fail electrically so I would take a very close look at the lines going to the unit which are more common to fail. Shop around for brakes. A second opinion never hurts if you have any question and by asking us, we assume that you do. When you have an older vehicle or any vehicle for that matter it is important to keep repairs economical but it's also important to be safe. Brakes are not an area to cut corners on but there are always ways to save money when repairing them.

Take care,
the Motor Medics

Online Bidding starts at 10 am on select items @ circleeaauction.com

Concessions available including homemade pies and baked goods, biscuits & gravy!

Auctioneer's Note: We will have a very nice line of items to sell. Almost every item is right off the farm. Something for everyone. Most of the items will sell with No Reserve. At our last auction, we sold over 90% of items consigned. Since sale bills are printed 3 weeks in advance, we usually have a lot more items than listed. We will be selling in two rings at the same time, so bring a friend. Because we rely on the word of others, ALL items are subject to prior sale and/or no show. If driving a distance for a single item, please call. NOTE: 9.25% Sales Tax will be added to all items that are not used for agriculture. All dealers must bring a copy of your resale sales tax license. If you have items to sell, you can still consign to this auction! We are open 8:00-5:00 Monday-Friday and on Saturday by appointment only to check-in and unload your items. We are always closed on Sunday! To have your equipment available for online bidding, your equipment MUST be on our lot by Tuesday, October 18th @ 5:00 pm. NO consignments taken after 5:00 pm Thursday, October 20 2022! For questions or to consign call Ervin at 417-310-0812 or Merlin 417-310-3324 or e-mail us at circleeaauction@gmail.com View pictures @ circleeaauction.com. Everything must be removed in 14 days. After 14 days there will be a storage fee of \$25 per item, per day. Any items left after 30 days will be considered abandoned and will become the property of Circle E Auction. Remember We Are ALWAYS Closed On Sunday. Everything must be removed in 14 days. After 14 days there will be a storage fee of \$25 per item, per day. Any items left after 30 days will be considered abandoned and will become the property of Circle E Auction.

Terms: Cash or Good Check with Photo ID - All Buyers Unknown to Circle E Auction MUST Furnish a Current Bank Letter of Credit if Paying by Check. Not Responsible in Case of Accident or Sickness on Premises. Everything Sells AS IS-WHERE IS with No Warranty Actual or Implied. Not Responsible for Stolen Items or Loss of Items. Nothing Removed Until Settled For. All Announcements Day of Sale Supersede Any Printed Material.

QUICK TIPS**

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers.

Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
