~ Our Greatest Duty ~

The Bible explains that God's people must not forsake the assembling of themselves; that where two or three are gathered, that God says He will be there also.

Jesus asked His disciples to pray and said, "Can you not tarry in prayer one hour?" The Bible tells us that the wise person seeks the wisdom of God, that God speaks to those that are His as a friend. When David found himself in a tough place, he prayed; and when David wanted to speak with God, he wrote to Him with prayers we call the Psalms. Hannah asked God in prayer for a child, and God answered by giving her a baby son who became the great prophet Samuel. God answered prayer then, and God still answers prayers today. And do we here in America need God to show up? As we pray, He does.

What must happen that will show us that our nation is in serious trouble and headed for very difficult times? It is all up to the Christians. We must pray.

1 Chronicles 5:20 says, "For they cried out to God in the battle. He heard their prayer because they put their trust in Him."

God does hear, and God will answer if we will not give up on prayer. There is a great enemy at work, but prayer from God's people can make all the difference.

ASK THE MOTORMEDICS
Automotive Advice from the Under The Hood Show

Dear Motor Medics,
I have been reading your column for a few months now and just last week found your radio show and tuned in. I must say, for someone like me who knows nothing about cars and never really cared to, I find the show and the column hard to miss. Each week I learn something new and have been able to use your advice to save money. Guys I have a 2003 Dodge Grand Caravan with a 3.8 engine. I have put about 110,000 miles on this van and have never done anything other than change the oil until I found you guys. I have now had the transmission flushed and a complete inspection done and it all came back with a good bill of health. At this point they say I need to have the fuel injection cleaned and that will help boost my mpg. It will cost \$120.00 for the service. Is this a good price? I can buy a can for \$10.00 and pour it in the tank. Won't that work just as well? .

Thank you,
Karen in Livonia Michigan

Dear Karen,
Having the fuel system cleaned regularly will keep your mileage at its best. It is also like cleaning your teeth. You brush twice a day to help maintain them but you need to see the dentist for regular cleanings. You can pour the can in the tank every so often but you need a regular cleaning professionally on a regular basis.

Take care,
the Motor Medics

Dear Motor Medics,
I am a regular listener to the show and have a family of eight and we all drive. Do eight cars qualify for fleet repair discounts? Our vehicles range from a 1997 Grand Prix to a 2006 Impala. None are in warrantee and with so many cars and kids in college we need to be as economical as possible. We are strong subscribers to your call guy Chris Carter's "wait until it's broke to fix it" policy. We are having a problem on three of our cars that we think has been caused by the same thing, daughter number three. The rear defrosters do not work any longer. This has been caused by the wire being knocked off somehow on all three of the cars while she was using them. We've passed them down the line as someone new has started to drive. The wires are knocked off where the tab attaches to the glass on both ends. We have tried glue but it won't stick well and the defrosters don't work that way. Can you give us some advice short of replacing the glass?

Thank you,
Doug in Chicago

Dear Doug,
We can help. There is a product available at most parts stores to glue the tab back on the glass. It is conductive glass glue that is a permanent fix if you follow the directions well. Regular glue will not hold and can get very hot due to the poor connection.

Take care,
the Motor Medics
