*~ It's a Miserable Life ~*

Now I know that doesn't sound too encouraging, but just follow me. We all know the movie that plays around Christmastime called "It's a Wonderful Life." This is a look at what happens when a person tries to live in two different worlds: the world God sent them into by creating them, and then how they decide to walk out their journey while here.

You see, we are all made for a purpose. There is a very good reason we are on this planet. The Bible says God saw us before we ever entered our mother's womb and that He has established all of our days here. So it is with everyone. All of our abilities, many or few, have been selected for us to use for God.

The problem begins when we try to live in both of the two worlds around us: the one God made us for and also the one where we want to live- chasing after our desires within the world we live in yet not really doing what God brought us here for.

So people become depressed and discouraged, seeming to always struggle with one issue or another and never really finding out how to be who God made them to be, having bouts of a miserable life and not understanding why.

Just let God have control. Make His Son, Jesus, the center of everything you do. Follow God's plan. It is all in the Bible.

#### Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

**Here's How It Works:**  
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
