~ Powerful ~

God's Word is powerful, and those that put all their trust in it, learn from it and live by it are among the most blessed people of the earth. Those that obey it, heed its teachings and show respect to its holiness will experience a more satisfying life than all others who try to live their lives within themselves.

The times we live in are warning us of what's coming and why only the ones that believe God's Word will see this. God will miraculously use His true followers and then suddenly remove them from the population, allowing His judgments to turn to wrath.

Just listen to a few words from the Bible book of the prophet Isaiah as he warns of the impending judgement of God against a sinful people like today. "Woe! Judgement is coming to those who drag along wickedness. Woe! Judgement is coming to those who call evil good and good evil, who substitute darkness for light and light for darkness. Woe! Judgement is coming to those who are wise in their own eyes, who justify the wicked and take away the rights of those who are in the right."

Well, there it is. The day is here, and God is going to shake this world. Where do you stand with God in all that is going on? The Bible says that His people perish because they lack His word. Do you know God's Word?

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

My vehicle is starting to rust under the hood on my strut towers and under the back on the rear axle mounts and my shop tells me that in their opinion it is no longer safe to drive. It's a 2005 Dodge Caravan and other than the rust it looks great and only has 105k miles on it so I'm reluctant to part with it. How dangerous can it be and can it be repaired for a reasonable price. If I don't fix it what are my options?

Thank you,
James in Bartlesville Oklahoma

Dear James,

Up here in our home market we see a lot of these vehicles rusting as you describe but don't hear much about them in your condition down by you because there is less road salt and milder temps. When they get so bad that a shop feels that it's dangerous to drive it's time to take a serious look at the van. The strut towers do rust through and if they give way, and they can, you can lose control of the van. The same goes for an axle which breaks its mounts due to rust. Repairs can run thousands of dollars and we don't see many performed. Get the advice of someone local but if it turns out that it is time to remove it from the road for safety, a local auto recycler will be able to help you through the process of recycling your van.

Take care,
the Motor Medics

Dear Motor Medics,

I've got an issue with my fuel gauge in my 2008 Chevy Tahoe. All the other gauges work great, and the fuel gage does for the most part but ever since I had the instrument cluster replaced due to a failed speedometer and oil gauge. The gauge reads one eighth tank, but it runs out of gas at almost the exact time that the low fuel light comes on. I mean I have run out of fuel and ten seconds after the light appears. Once I was driving and saw the light pop on and just a few seconds later it died. I thought when I got the new instrument cluster, I would be done with the gauge issues. It used to turn the light on when I still had one quarter tank left.

Thank you,
Mark in Fort Morgan Colorado

Dear Mark,

The first thing we would do is to not let the tank go below half full. It seems obvious but it would solve the running out of fuel issue. As for the gauge issue we can solve that too. these vehicles have had a history of failed instrument clusters needing to be replaced. They are mass remanufactured and the quality, while very good, is not perfect. It sounds like they got the needle of the fuel gauge installed too high so that it reads fuller than it is. Your mechanic may be able to adjust it down a bit.

Take care,
the Motor Medics

Dear Motor Medics,

There are so many new things on cars today. How do you keep up with them all? I just bought a new car to me; a 2011 Ford Focus and it has a ton of new stuff on it that I have never heard of, being that I just got out of a much older vehicle. This car has no gas cap on it. I mean it's not supposed to, but I have a message on the dash that says "Check gas cap" so now what?

Thank you,
Seth in Vandalia Missouri

Dear Seth,

Ok Seth, now were on question overload, but we can handle it. 1st, we don't know how we keep up with it all, we just do. That's our number one asked question on our radio show Under The Hood. We have great memories and see a lot of vehicles in our shop which helps. As for the new features, they are coming out of the woodwork for sure. Your car is one of those with the new no fuel cap feature. At least you can't lose the fuel cap. The filler tube now just has a valve and spring to seal the filler neck and if it gets dirty and damaged it can trip the light you have on now. It is very important to keep the area clean, we use a damp cloth, not soaking wet, to clean the area on a regular basis. Good luck with the new car.

Take care,
the Motor Medics

Dear Motor Medics,

I have a question about your radio show. You have helped me with car repairs on four different occasions and I was able to fix it myself 3 times and saved money and the 4th time you were talking about a recall I didn't even know existed and I was able to have my problem at no charge at my local dealership. I want to know how you know so much about cars and how you guys started doing the show and this column.

Thank you,
Mark in Inwood Iowa

Dear Mark,

We're happy to help and it gives us great pleasure to know we are helping others save money and keep their automotive stress levels down. Mark, we work on cars every day in our own repair shop doing everything you hear on the show and that is a great learning center for us. Russ also has a crazy memory that never lets anything go so he keeps all that knowledge and passes it on to our listeners. Neither Russ nor Shannon uses a computer to answer the questions on the air. We started the show back in 1990 as a half-hour show, never dreaming, we would have a worldwide audience 33 years later. At one point we were answering over 300 emails a day with many being similar, so we started this column to help multiple folks at once with one answer. We are blessed to have such great folks listening.

Take care,
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

NEED SOMETHING? Let us help you. You can advertise that you are looking for a special item.
Call 417-624-4100 for more information.

There's a better way to get noticed.

Keep life simple. Take out an ad.

ADVERTISE YOUR Flea Market or Antique Store in the Antique & Flea Market Directory. Call Billie for more information and special pricing.
417-624-4100.

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete. Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive. List major selling points (price, color, size, features or options).

Be Factual. Be Helpful. Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now! Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
