**~ Chapter 18 ~**

Today, many people are beginning to wonder where is God as they watch all kinds of difficulties plaguing our land. And they seem to just continue to grow. If your real trust, faith and hope is in God, then you can be assured that He is watching over it all.

As for God, His throne is everlasting. God is still all-powerful. God has no limitations. The devil cannot claim this, nor can any earthly ruler, and not the antichrist who thinks he will take the world over. God is omnipotent. Everything belongs to God alone. God's love is still everlasting. God's purposes cannot be thwarted, no matter how the nations or forces of evil seek to foil God's plans. God's will is all-powerful. It is the mightiest power in the universe. God holds kingship over the solar system. He lives, He reigns, and God's throne is intact. It can never be shaken. Jesus came as the Savior of the world, and many have been saved. But the tables are now turning as Jesus Christ is going to descend as the Warrior Judge to commence His task of final judgement.

As the book of Revelation unfolds upon humanity, it increasingly seems that America could be the property of Revelation chapter 18. And if it is, you should be very concerned. Before it's too late, put your life daily into the hands of the God that can handle everything.

# ASK THE MOTOR MEDICS®

*Automotive Advice from the Under The Hood® Show*

Dear Motor Medics,  
I want to know about Cabin Air Filters.

Thank you,  
Dan in Larchwood Iowa

Dear Dan,

It's good to know if your car or truck is equipped with a Cabin Air filter. A large majority of cars and trucks made in recent years have one and you need to find out if yours is equipped. A Cabin Filter in your vehicle is much like your home's air handling system. Most of them are a paper medium and as incoming air passes through the dirt gets trapped in the filter where it can be removed with regular scheduled changing. These filters do much more than just filter the air coming into your cabin, they protect the sensors and mechanical parts of the system and that's why we started to see these in vehicles about the time that multiple sensors started appearing in the HVAC systems. So, what happens when one gets really dirty? Your airflow slows down and you won't have as much heat or A/C and the windows could fog easily. Don't be tempted to remove one and leave it out for convenience. If you do, there's a high risk of damaging the expensive parts of the system when they become contaminated with dirt. Filters are readily available and most take about 5 minutes or so to install. Average prices range from \$10.00 to \$20.00 with service intervals on average of one year but some may dirty quicker depending on where you drive.

Take care,  
the Motor Medics

Dear Motor Medics,

I love to take care of my own car doing all the maintenance and inspections that I can and keeping it all up to date but recently I bought a used 2013 Malibu and there is no transmission dipstick. the manual says go to the dealership to have it checked. Are they for real? What were they thinking?

Thank you,  
Mark in Omaha Nebraska

Dear Mark,

As the operator of a repair shop as well as the hosts of the Under The Hood radio show we like to see things made easy for our customers and listeners. By the way if you can't check it easily at home, we can't check it easily at the shop. Several years back the manufacturers started to remove transmission dipsticks sighting that the transmission fluid is not an item that needs to be checked nearly as often as the engine oil or brake fluid and that it should be checked as part of a regular maintenance program done at your dealership. We agree that it is not a fluid that typically is found low on a regular basis but even at our shop to check the fluid it must be on a hoist.

If there is no leakage it's not the end of the world but if you ever do develop a small leak and want to check the level before driving to the repair shop it's not something you will be able to do at home.

Take care,  
the Motor Medics

Dear Motor Medics,

We're getting ready to send our daughter to college and are shopping for a car that will get her through the next four years. We don't know what we are going to choose but it will likely be 3-4 years old and probably out of warranty or very near it. We know that we will take care of the car we buy but how can we be sure it was taken care of before we bought it? We have heard of vehicle history reporting agencies that can do background checks, but we don't know how they work or what they cover. What do you suggest when purchasing a used car that will help us the most?

Thank you,  
Connie in Henderson Texas

Dear Connie,

Purchasing a used car can be a fun experience if it turns out to be what you expect, but It can be hard to tell how the car was treated before you owned it. I would strongly recommend that you don't purchase a vehicle without having an independent source inspect it. Take it to the mechanic you trust and give it a good check, this can often catch things that would cost you a lot of money. When I purchase a car, I always use a vehicle history reporting agency to give me more insight as to the cars past. While these agencies have some good reports, they are not complete maintenance records so never go without an independent inspection.

Take care,  
the Motor Medics

Dear Motor Medics,

I may have a ghost? I have one in my 1999 Caravan. When I'm driving it does things by itself like honk the horn, the cruise will just shut off by itself, and the air bag light will come on and then go back off. There's no pattern to this but it seems to happen at the worst times. I was driving through a parking lot, and everyone thought I was honking at them. Once my horn started honking by itself at 2am and woke up my neighbors. Can you help me bust this ghost?

Thank you,  
Clarence in Sheldon Iowa

Dear Clarence,,

Ghosts scare me so you're on your own! Kidding aside, I think I can help and maybe with a free repair. The first thing I would have you do is to contact your local Dodge dealer and give them your vehicle identification number found at the base of the windshield on the driver's side. Ask them if there is a clock spring recall on your van. If there is one that has not been done, then the repair may be free. If not, you'll have to pay for the repair, but it is likely what's causing the problems you are describing. The clock spring is what makes the connection between the steering wheel electronics and the column. When you turn the wheel, the wires coil up and with age can break or short causing your issues. Hopefully this busts your ghost.

Take care,  
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

CLASSIFIED  
QUICK TIPS

**Prepare.** Know what is important to readers shopping in your classified category.

**Make Your Copy Complete.** Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

**Be Creative Descriptive.** List major selling points (price, color, size, features or options).

**Be Factual. Be Helpful.** Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

**Make Your Ad Easily Recognizable.** Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

**Maximize The Amount Of Prospective Buyers/Readers.** Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

**Urge The Reader To Act Now!** Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

**The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.**
