Determine the code to reveal the answer

Solve the code to discover words related to spring.  
Each number corresponds to a letter.  
(Hint: **9 = O**)

- A. 23 8 9 9 4 14**  
*Clue: Flowers*
- B. 24 8 9 1 25 5**  
*Clue: Petaled part of plant*
- C. 1 2 5 4**  
*Clue: Pleasant temperature*
- D. 5 2 21 13**  
*Clue: Precipitation*

## WORD SCRAMBLE

Rearrange the letters to spell something pertaining to spring.

# NUSYN

--	--	--	--	--

*Answer: Sunny*

### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

YOU DREAM IT, WE BUILD IT!

~ Real Knowledge ~

Many people live within boundaries of their self-constructed comfort zone of ideas, putting themselves in a narrowminded view of who Jesus is and needs to be in their lives. To have a real knowledge of Jesus, you must read the Scriptures for yourself. One day Jesus asked a man, "Do you love Me?" The man's reply was, "Yes." Then Jesus said, "Feed My lambs." In other words, "Help My people know Me." Then Jesus said to the man again, "Do you love Me with total commitment and devotion?" The man replied, "Yes, Lord." So, Jesus said, "Shepherd My sheep." In other words, "Tend to the needs of God's people, leading them in spiritual understanding." And again, a third time, Jesus asked, "Do you love Me with a deep personal affection for Me?" And again, the man said, "You know I love you because you know all things." So Jesus said to him, "Then feed My sheep." In other words, "Teach My people what is right according to My words." Jesus went on once more and said this: "Then follow Me, walk the path of life that I walk." So if you call yourself a Christian, do you help? Do you shepherd? Do you feed His sheep? And do you walk the path of life each day letting Him lead you? God has created you for His own reasons and plans. Are you doing what He has asked of you?

# ASK THE MOTOR MEDICS®

*Automotive Advice from the Under The Hood® Show*

Dear Motor Medics,

Please help me out with Cabin Air Filters. I have a 2009 Honda Accord with one and I have to replace it about every six months when the air starts to blow slowly because it gets so clogged with dirt from my gravel road and being parked outside. Do I really need one? None of my cars over the past 30 years had one and they were just fine.

Thank you,  
Gale in Ozarks Missouri

Dear Gale,

Yes, if your vehicle was equipped with one when it was made. Sure, we have seen some people come into our repair shop with a missing filter and their air is working just fine but we have also had some in for repairs that cost as much as \$1000.00 because they decided to run without one. When a system is designed it's either made for one or not. If it's not designed for one, then the sensitive components like air temp sensors and even the moving air doors are made differently so they can handle the dirt load. Adding a bunch of dirt to the system by not having a filter in place just invites trouble so make sure you keep a filter that's clean in place. It's cheap insurance for an expensive system. For others that don't know if they have a filter make sure to find out. A good indication you have one and it's dirty is a foul smell or reduced air flow.

Take care,  
the Motor Medics

Dear Motor Medics,

I have a 2020 Chevy and a 2018 Honda, and both have recalls on them. Both cars are running just fine, and I have not experienced any of the issues in the recall that they want to fix because they're crash related, and I've never had a wreck. I did Google one of the recalls and only 2 people have had a problem out of thousands of vehicles so do I really need to get them done or can I just wait and do them if I ever get the time to go to the dealership?

Thank you,  
Mark in Iowa City

Dear Mark,

Go make that appointment right now and get the recalls done! The manufacturer would not take the time and spend the money (sometimes millions) to get the vehicle back in to perform a safety recall unless they felt strongly that something could cause you harm. Many recalls for safety are for things that can happen in a crash situation such as air bag recalls and seat belts but even if you are a great driver the other person not always is, and we don't want to see you injured by something you don't have repaired. All safety recalls we have ever seen are done at no cost to you and must be done at the dealership. They do a pretty good job at making the public aware of the recall but getting it in is your part.

Take care,  
the Motor Medics

Dear Motor Medics,

I have a question about antifreeze. I have not owned a car more than 7 years until now and I would like to know if I need to do something with my coolant. The shop I have gone to for the past two years has been trying to get me to flush the system, but they are not really giving me a reason other than it's time due to miles and age. I did have it checked to make sure it won't freeze up in the winter and it looks clean so why would I need to change it?

Thank you,  
Devon in Larchwood Iowa

Dear Devon,

We are so glad you asked this question because many people are unaware of how to take care of their cooling systems and that can lead to very expensive repairs. The antifreeze serves several purposes. It is there to prevent freeze-up, boil-over, and to assist in the prevention of extremely damaging rust and corrosion in the cooling system. Even though coolant looks good and passes a freeze test it may fail a PH test. If the coolant does not have the proper PH rust and corrosion can damage gaskets, the radiator, and heater core, or scale can form in the passages. Test strips used during yearly checkups at a shop will verify the PH and need for changing which usually falls somewhere in the two-to-five-year range. Changing it can save you money.

Take care,  
the Motor Medics

Dear Motor Medics,

I'm ready to buy a new car and I could do it at any time, I'm kind of an impulse buyer. My car is about 8 years old and needs a little work and I have the cash so I may stop by a lot and just buy something that catches my eye. I will likely look for something in the two-year-old or so range with 50k miles or a little more to keep the cost down which probably means no warranty. Since I usually buy on impulse, I'm not likely to get a pre-purchase inspection done and I know you guys strongly suggest one. What can I do to make sure I get a good car?

Thank you,  
Tanner in Garretson, South Dakota

Dear Tanner,

Without the inspection you have no guaranty as to what you are buying. While no inspection can guaranty a trouble-free car, it can eliminate many commonly found money robbing issues that consumers could possibly get stuck with when buying a used car. I would suggest that if you don't get the inspection try to buy from a reputable lot that may offer at least a short-term warranty or sale contingent on a passing inspection. Also look for lots offering pre inspected cars. Many of the credible lots do an outstanding job of pre-inspecting vehicles to keep their customer satisfaction high and will be able to tell you what they have checked over.

Take care,  
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

**Come pick up your free copy today!**  
**Phone numbers and emails will remain the same. 417-624-4100.**

**There's a better way to get attention.**  
*Keep life simple.  
Take out an ad.*

**CLASSIFIED QUICK TIPS**

**Prepare.** Know what is important to readers shopping in your classified category.

**Make Your Copy Complete.** Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

**Be Creative Descriptive.** List major selling points (price, color, size, features or options).

**Be Factual. Be Helpful.** Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

**Make Your Ad Easily Recognizable.** Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

**Maximize The Amount Of Prospective Buyers/Readers.** Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

**Urge The Reader To Act Now!** Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

**HUGE BUILDING MATERIAL AUCTION**

### MAHINDRA SUPERIOR PERFORMANCE:

• Heavy-duty components: Tough & rugged... Keep right on performing day after day.

• Sturdier chassis: Greater stability... Keeps you safe while handling rigorous work.
