WACKER NEUSON
all it takes!

WACKER NEUSON EZ50

- 44 HP Perkins Diesel / Cab with Heat & Air
- Hydraulic Thumb
- Joystick & Backhoe Controls
- 2 YR / 2000 HR Warranty

The EZ50 mini-excavator offers excellent lifting and digging power as well as quick work cycles. Using the newest technologies, the emissions of the mini-excavator were reduced and, at the same time, the efficiency increased. For example, the powerful engine in the EZ50 meets the stage 5 exhaust emission standards. In terms of operator-friendliness, the excavator is impressive. The intuitive operating concept and excellent view of the work area contribute to the easy and comfortable operation of the machine. The EZ50 is also a zero-tail excavator and is well suited for working in narrow spaces.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

				1				
9				3	4			
	6	5						
4				2	5			
			9	7		2		3
					3	6		
		9	6		1	8		
7						3		
				8				

Level: Intermediate

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

-PUZZLE- SODOKU

- APRIL - WEEK 1

2	9	5	7	8	3	4	1	6
7	5	8	2	9	4	3	6	1

ANSWER:

CRYPTO FUN

Determine the code to reveal the answer!

Solve the code to discover words related to letter writing. Each number corresponds to a letter. (Hint: 1 = E)

A. 2 1 15
Clue: Writing device

B. 2 19 2 1 16
Clue: Thin sheet material

C. 20 1 24 21 26 19 16 6
Clue: Part of a computer

D. 10 5 26 8 17 5 10 14
Clue: Cognitive processes

WORD SCRAMBLE

Rearrange the letters to spell something pertaining to letter writing.

T S D F R A

ANSWER: Drafts

~ The Change ~

When a person truly repents of their sinful ways and asks God to change them, Jesus will enter in and be there for them by the Holy Spirit. He will help them to complete life as it was intended. It is true for each one of us. By surrendering your life to God's Son, who is His representative to all humanity, He will help you every day to live a changed life.

God's love for you is more than enough to see you all the way through life until the end. Let God keep things right between you and Him. Your greatest opportunities are ahead of you. Make the most of them for God's kingdom.

God has a great understanding and knowledge of your life if you will focus your efforts on what matters to God more than yourself. You will have lived a successful life because only those things done for Jesus Christ here on earth will be everlasting.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a 2005 Ford f150 truck with the 5.4 engine and I've been watching my fuel mileage drop slowly but steadily over the past five years. It's been about 60k miles and I've lost about 5mpg over that time frame. The truck runs perfectly so I haven't taken it in to have anything checked. Where should I start if I wanted to try and get the mileage back up where it had been?

Thank you,
Dan in Sioux City Iowa

Dear Dan,

Fuel economy degrades for many reasons, some of which can be avoided with daily habits while others need to be addressed on a more professional level. Daily you can keep the air in your tires at the level recommended by your vehicles manufacturer and you can keep your engine oil maintained and your air filter clean. Driving at excessive speeds also is a prime waster of fuel and with many places raising the speed limits we have seen mileage fall accordingly. Some of the more in-depth end tune up items such as spark plugs and wearing oxygen sensors can degrade economy. These things can be checked by your mechanic. Finally, but not all is the fuel system and induction system. As the valves and injectors become carbon coated and sludge builds up on them, the engine efficiency will drop and as it does the fuel economy will as well. These are a few things you and your mechanic can talk about.

Take care,
the Motor Medics

Dear Motor Medics,

I keep developing a shake in my cars brake system. It's a 2006 Chevy Impala and I made it the first 80k miles before it first happened and at that time they replaced all of my cars brake pads and rotors and it was good for about 6 months then the front rotors warped again and I replaced them a second time. Now it's been just three months and they are shaking again and I can only assume it's the front rotors. What could be causing them to fail so often when the first ones lasted so long? I'm using original equipment parts.

Thank you,
Peter in Sachse Texas

Dear Peter,

We suspect there may be more to the brake failure than just worn out brake pads and rotors. When brakes are replaced it is easy to replace just the parts you visually see worn and overlook underlying items such as calipers that are sticking and brake hardware and hoses that are causing the brakes to drag. An important part of any brake job is to thoroughly inspect these items or you can end up with repeat failure. If a brake is not releasing completely it may not feel like there's a problem but it can build up heat from dragging and that heat can lead to premature wear and also brake rotors that are warped again in a short amount of time. When you find out what is wrong inspect everything else thoroughly.

Take care,
the Motor Medics

Dear Motor Medics,

My car is giving me problems but they don't always occur. I have a starting problem that sometimes won't let the car crank and also an ABS lamp that comes and goes. My shop can't seem to find the cause and even though they have not charged me for looking at the car I'm very frustrated by the situation and my shop seems to be as well. I have been going there for a number of years and they have always taken care of me but I wonder if I should try somewhere else to get this fixed.

Thank you,
Mark in Oklahoma City

Dear Mark,

You have what many folks have and it's called an intermittent problem. These are the ones that give the customer frustrations and also the mechanics. It is nearly impossible to find a problem if it is not occurring while it is trying to be found. They do what they can to scan for codes and observe data to see if anything is out of specs but in the end, if it's not broke... you know the saying. The shop can get frustrated because their time is worth money. Every minute they spend looking at your vehicle they lose money if they can't fix your car but they are looking at it and not charging you because they value your past and continued business. It may be time to wait until it is worse so they can find it.

Take care,
the Motor Medics

Dear Motor Medics,

I have a problem with my tires. They leak air on a regular basis and I have taken the car in several times to have them repaired but they can't seem to get them fixed. The tires and valve stems have been replaced with new ones and they just can't seem to get them to stop leaking. they lose about 2 pounds a week. The car is a 2011 Chrysler 300.

Thank you,
Peter in Rice Lake Wisconsin

Dear Peter,

We experience many vehicles that leak air in this fashion. It's no fun having to add air every week to keep your tires from going flat. You have done the things that you should to try and fix the issue but there may be more to it than the tires or valve stems. The actual metal of the wheels themselves can leak air right through them like a screen door. The metal becomes so porous over the years from the element breaking them down that the air escapes right through the wheels. Once this occurs the only fix that we have found is to replace the wheels. There are a couple of options for repair. You could look for a good set of used wheels at your local auto recycler or you could look into a set of aftermarket wheels available at wheel and tire shops. Going the aftermarket route will let you choose an option that will give your vehicle a unique look.

Take care,
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.
