Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ A Doer of the Word ~

If ever we needed Christians to be doers of God's Word, it is today. Many of the troubles and problems we see in society today are because of the lack of Christians being doers of the Word of God. The Word of God is powerful because it is God's word.

The Bible says in Hebrews 4:12, "For the word of God is alive and active, sharper than any double-edged sword. It penetrates even to dividing of soul and spirit, joints and marrow. It judges the thoughts and attitudes of the heart."

If we have God's Word, His promise on whatever He asks us to do, then we can do it. Whatever He asks of us can come to pass if we will choose to do it. Do you not think that today God's calling again, trying to open the eyes of His people to the seriousness of our times? The lack of Christian influence has brought about much of what ails our culture.

But God is still God. He is still as mighty and great today as He has ever been. And God's people, the Christian population of America, hold the key to unlock God's will to be brought down here on earth as it is in heaven. The Bible says in James 5:16, "The prayer of a righteous person is powerful and effective." The prayers of the righteous can change any situation. It is the child of God who can stand in the gap and make the difference.

ASK THE MOTOR MEDICS[®]

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I have a 2013 Toyota SUV I am going to drive across country and back and will accumulate about 8000 miles on the odometer by the time I return. This vehicle has 45k miles on it and has not had any problems as of yet and no repairs other than tires and oil changes. Is there anything that I should do before I make the trip to be sure I am as safe as possible?

Thank you,
Tracy in Hastings Nebraska

Dear Tracy,

Anytime you are going on an extended trip it is good to have your vehicle at its best. Many folks have disappointing trips because they failed to have a simple check done and they experience a preventable breakdown. When a vehicle is brought in for oil changes on a regular basis to your local mechanic they usually inspect for basic things like tire wear and pressure and anything out of the ordinary that could cause a failure like worn belts and hoses but not always. When preparing for a trip make sure to ask your mechanic specifically about a general check-over and tell them how far you will be traveling so they can look for things that may affect your journey. Failed tires, belts, hoses and batteries are the most common items that leave motorists stranded so be sure these are among the list of items checked before you go. Have a safe and fun trip and enjoy the ride Tracy.

Take care,
the Motor Medics

Dear Motor Medics,

I am thinking about purchasing a new Jeep Grand Cherokee with the Diesel Engine but don't know much about it. I have heard you talk about them on your radio show Under The Hood and have not heard any negatives about them from your callers. I plan to drive about 40k miles a year and haul trailers in the 4500lb range about 30k of that as I haul a display for my company to trade shows. I want the comfort of a car and good mileage but also the load hauling capability. What are your thoughts?

Thank you,
Mike in Portland Maine

Dear Mike,

There's a number of new smaller Diesel Engines on the market that can be found in half-ton trucks and smaller SUVs meant to give better mileage when towing smaller loads where a larger more powerful diesel was not needed; these new diesels are also very clean compared to the older larger ones which is good for the environment. You have a couple of key things in your question that are important factors on a vehicle for you. First, you say you will be towing a lot of miles which justifies more power and the added cost of the diesel option. Second for better fuel mileage the use of Diesels for towing long-haul should help with your economy. You ultimately have to decide when it comes to a purchase so always research and see what others are saying before you decide.
