~ For America to Prevail ~

To see our nation begin again and take on the character of godliness, we must begin at the cross of Christ. We must become, again, people of the word, and we have to pray.

Our first president, George Washington, gives the testimony of his belief in God and the providence of God in the founding of our nation more than any other president in American history. Throughout his life, Washington prayed; from his time as a young man until the end of his life, he rose at 4:00 am each morning to pray and again at 9:00 pm at night, plus numerous times throughout the day.

If the gospel in America is to prevail, today's Christian must not retreat except only to a place of prayer. The Christian's life must mirror the life of Christ as we are His representatives to our culture that needs to see true Biblical Christianity. Patrick Henry, a founding father of our nation who gave the ultimate sacrifice of his life for America, said this: "It cannot be emphasized too clearly and too often that this nation was founded not by religion but by Christians; not on religion but on the Gospel of Jesus Christ."

Never forget that no matter what we see going on all around us, God is still in charge, and God has a plan if we will follow Him.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a general question about air bag safety. I heard you talking on a recent episode of Under The Hood about the testing of air bags and how they were tested differently in America and Overseas markets. The difference was in America they are tested with the use of a seat belt and Overseas sometimes without. I have never had an airbag deployed in my vehicle and I don't look forward to ever having it occur, but I want to know what to expect if it does and what I can do to prevent injury. Personally, I would rather not have airbags in my cars, but it doesn't look like they are going away. What is your take on people who ride with their feet on the dash or a pet in their laps?

Thank you,
Janet in Pittsfield Illinois

Dear Janet,

Air bags are great inventions that have saved many lives but if misused can cause severe injury. Every car made has a guide for proper air bag use printed in the owner's manual and it needs to be followed. The proper distance between you and the airbag is crucial as well as seat belt use. Follow the guidelines in the manual and never place anything between you and the airbag. Anything placed in this zone will become a projectile, including a pet, and is extremely dangerous. As for feet on the dash, an inflating air bag can cause irreparable damage to them.

Take care,
the Motor Medics

Dear Motor Medics,

My car has been overheating and the shop I have been going to can't seem to find the cause. It only seems to overheat when I drive it and I can't seem to find a pattern with it that I can use to have the shop duplicate the problem. On occasion I will find the heater stops blowing hot air and at the same time the temp gauge increases into the red zone. If I pull over and let the engine idle for a while it will cool down and the heat will come back. It has also done this at idle before. They want to replace head gaskets, but they aren't sure if they are bad. Is there anything I can do to find out for sure before we tear it apart and possibly don't find anything wrong with it?

Thank you,
Mark in Springfield Missouri

Dear Mark,

You never want to guess with head gaskets as they are very expensive to replace but what you are describing is a failure symptom. When coolant flow is disrupted by a head gasket leak, it is the presence of exhaust gases in the coolant that is the cause. A simple test can be done to check for these gases and if any traces are found you know there is an issue with a gasket or something more severe. Once gases are detected a tear down is necessary to determine the exact cause, gasket, block, head, etc.

Take care,
the Motor Medics

Dear Motor Medics,

I have a newer Mazda Miata and I'm having a problem with detonation in my engine. During cruising and under acceleration the engine will ping under load and on hills. The car calls for premium gasoline and I use it every tankful but even if I use the highest-octane premium fuel the car still pings. Do you have any ideas on what it could be?

Thank you,
Mark in Sioux Falls South Dakota

Dear Mark,

You have asked a great question and we want to address the fuel question first as it's very important. If a car specifies premium, it is important to use it. Not only does it ensure the best performance from the fuel that the car can deliver, but it also allows the car to burn cleaner than using less than premium lower octane fuel. When the lower octane fuel is used it is possible to build up carbon deposits which can cause detonation. You may be using premium, but you could still have some carbon buildup in the engine which is contributing to the detonation. Carbon deposits can often be removed by getting a professional fuel system cleaning done. The kind we use cleans both the injection system and the combustion chambers, which is what we suggest. A professional cleaning combined with regular use of premium fuel can make a difference in the amount of detonation you get from your engine. Good luck and enjoy that car.

Take care,
the Motor Medics

Dear Motor Medics,

I drive a 2009 Dodge caravan with the sport package. I use it for daily driving and on weekends I tow a boat in the summer and two snowmobiles in the winter. Last month my trailer light wiring harness that plugs in under the vehicle corroded so badly that I removed it from the main harness and carefully closed and protected the bare wires. After the plug removal I removed the tail lamps and carefully connected the trailer harness directly to the tail and brake lamp wires so they would not come off or short. I have hauled the trailer about three times now and on the most recent trip both turn signals failed. I don't see any burnt fuses, but I get to power to the lights.

Thank you,
Daryl in Newport Beach Rhode Island

Dear Daryl,

The caravans now contain a front control module that controls lighting functions including the taillights and trailer lighting. When built, the trailer lights were on a separate circuit than the taillights. The tail lamp circuit is made to only carry the amp load of the two tail lamps and nothing else. If any extra load is added by way of a trailer the module can overload which can destroy it. The first step is to remove the added wiring and check fuses. If there is still no power you will need to have the module checked and possibly replaced.

Take care,
the Motor Medics

PLEASE PLACE your classi-
 fied ads on The Big NICKEL
 website. Our web address is
www.bignickel.com

**HAVE A pet or puppies to
 sell?** Call us. You can even
 pay over the phone.
 417-624-4100.

**There's a
 better way to
 get noticed.**

Keep life simple.
 Take out an ad.

**CLASSIFIED
 QUICK TIPS**

Prepare. Know what is impor-
 tant to readers shopping in
 your classified category.
Make Your Copy Complete.
 Use ad copy effectively to
 thoroughly communicate to
 potential buyer(s). Organize
 the ad carefully. Space and
 punctuate, so that the reader
 can follow the ad and under-
 stand its content.

Be Creative Descriptive.
 List major selling points
 (price, color, size, features
 or options).

Be Factual. Be Helpful.
 Include hours of operation,
 best days and times in which
 to make contact as well as
 area code on phone numbers.

**Make Your Ad Easily
 Recognizable.** Choose a main
 benefit of your merchandise
 and feature it in a headline.
 Use art, large type sizes, bold-
 ing and best of all, use white
 space to make your ad visually
 attractive and so powerful, it's
 jumping off the page.

**Maximize The Amount Of
 Prospective Buyers/Readers.**

Multiply insertions help
 prospective buyers/readers
REMEMBER the ad because of
 repetition. Take advantage of
 discounted rates available for
 multiple insertions.

**Urge The Reader
 To Act Now!**

Every ad should include a
 strong bid for action.
 Stimulate prompt action by
 using such phrases as "Call
 Now", "Available Immediately"
 or "Won't Last".

**The Big Nickel hopes
 these tips will help
 you, please call
 417-624-4100 and
 our telephone sales
 representatives will be
 happy to assist you.**

**If You Want To Sell.
 We're The Ones To Tell!!**
