BIG NICKEL BRAIN GAMES

-CROSSWORD- PUZZLE - AUGUST - WEEK 4

CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to fishing. Each number corresponds to a letter. (Hint: 16 = A)
- A. 7 24 24 3 17
Clue: Winds fishing line
 - B. 11 2 16 1
Clue: Water vessel
 - C. 11 16 4 1
Clue: Lures prey
 - D. 1 16 25 6 3 24
Clue: Fishing supplies

WORD SCRAMBLE

Rearrange the letters to spell something pertaining to fishing.

T C C A H

Answer: Catch

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

6	4		2					1
3				5		4		
9			1			6		8
4				7				3
	2					7	4	
	8	5						9
				3	8			
6	2		5					

Level: Intermediate

-PUZZLE- SODOKU - AUGUST - WEEK 4

Here's How It Works: Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

7	8	4	6	9	5	2	1	6
6	9	7	2	3	8	5	1	4
4	8	5	7	6	1	4	9	2
1	5	2	3	8	6	9	7	4
8	4	6	9	5	7	1	2	3
9	7	3	1	4	2	2	6	5
2	1	9	4	7	3	8	6	5
7	3	8	6	1	5	2	4	9
5	6	4	8	2	9	7	3	1

ANNOUNCEMENTS

Notices

2024 MISSOURI CANDIDATE Darrell McClanahan for Governor of this great state. Find me on X @MBattleflag fija.org

BE AN EARLY BIRD! Place your ads before Monday and beat the rush!

~ The Earth Groans ~

All across America today, there is much to be concerned about. The Bible tells us in Proverbs 29 these words: "When the righteous are in authority, the people rejoice; but when the wicked are ruling, the people mourn."

This can be said in many of our states and cities where lawlessness is rampant, where all kinds of evil and vile abominations against God are celebrated, where wickedness is allowed to go unchecked because corruption is so deep. Our own nation's capital is a cesspool of deception and continual lies where trusts are broken. Justice has been thrown out the window. Anarchy seems to rule the day.

The earth has been corrupted by sin on every level. The Bible says in Job 1 that Satan goes to and fro upon the earth seeking whom he may devour and deceive. And he has many followers who have enlisted in his service to do all these evils we see happening.

The Bible says that the earth groans for its redemption, for we live in troubling times that put a great weight of depression and hopelessness upon the people. Yet the Bible encourages us that they who put their trust in the Lord will be safe. For every word of God is pure. He is a shield to those who put their trust in Him.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a general question about air bag safety. I heard you talking on a recent episode of Under The Hood about the testing of air bags and how they were tested differently in America and Overseas markets. The difference was in America they are tested with the use of a seat belt and Overseas sometimes without. I have never had an airbag deployed in my vehicle and I don't look forward to ever having it occur, but I want to know what to expect if it does and what I can do to prevent injury. Personally, I would rather not have airbags in my cars, but it doesn't look like they are going away. What is your take on people who ride with their feet on the dash or a pet in their laps?

Thank you,
Janet in Pittsfield Illinois

Dear Janet,

Air bags are great inventions that have saved many lives but if misused can cause severe injury. Every car made has a guide for proper air bag use printed in the owner's manual and it needs to be followed. The proper distance between you and the airbag is crucial as well as seat belt use. Follow the guidelines in the manual and never place anything between you and the airbag. Anything placed in this zone will become a projectile, including a pet, and is extremely dangerous. As for feet on the dash, an inflating air bag can cause irreparable damage to them.

Take care,
the Motor Medics

Dear Motor Medics,

My car has been overheating and the shop I have been going to can't seem to find the cause. It only seems to overheat when I drive it and I can't seem to find a pattern with it that I can use to have the shop duplicate the problem. On occasion I will find the heater stops blowing hot air and at the same time the temp gauge increases into the red zone. If I pull over and let the engine idle for a while it will cool down and the heat will come back. It has also done this at idle before. They want to replace head gaskets, but they aren't sure if they are bad. Is there anything I can do to find out for sure before we tear it apart and possibly don't find anything wrong with it?

Thank you,
Mark in Springfield Missouri

Dear Mark,

You never want to guess with head gaskets as they are very expensive to replace but what you are describing is a failure symptom. When coolant flow is disrupted by a head gasket leak, it is the presence of exhaust gases in the coolant that is the cause. A simple test can be done to check for these gases and if any traces are found you know there is an issue with a gasket or something more severe. Once gases are detected a tear down is necessary to determine the exact cause, gasket, block, head, etc.

Take care,
the Motor Medics

Dear Motor Medics,

I have a newer Mazda Miata and I'm having a problem with detonation in my engine. During cruising and under acceleration the engine will ping under load and on hills. The car calls for premium gasoline and I use it every tankful but even if I use the highest-octane premium fuel the car still pings. Do you have any ideas on what it could be?

Thank you,
Mark in Sioux Falls South Dakota

Dear Mark,

You have asked a great question and we want to address the fuel question first as it's very important. If a car specifies premium, it is important to use it. Not only does it ensure the best performance from the fuel that the car can deliver, but it also allows the car to burn cleaner than using less than premium lower octane fuel. When the lower octane fuel is used it is possible to build up carbon deposits which can cause detonation. You may be using premium, but you could still have some carbon buildup in the engine which is contributing to the detonation. Carbon deposits can often be removed by getting a professional fuel system cleaning done. The kind we use cleans both the injection system and the combustion chambers, which is what we suggest. A professional cleaning combined with regular use of premium fuel can make a difference in the amount of detonation you get from your engine. Good luck and enjoy that car.

Take care,
the Motor Medics

Dear Motor Medics,

I drive a 2009 Dodge caravan with the sport package. I use it for daily driving and on weekends I tow a boat in the summer and two snowmobiles in the winter. Last month my trailer light wiring harness that plugs in under the vehicle corroded so badly that I removed it from the main harness and carefully closed and protected the bare wires. After the plug removal I removed the tail lamps and carefully connected the trailer harness directly to the tail and brake lamp wires so they would not come off or short. I have hauled the trailer about three times now and on the most recent trip both turn signals failed. I don't see any burnt fuses, but I get to power to the lights.

Thank you,
Daryl in Newport Beach Rhode Island

Dear Daryl,

The caravans now contain a front control module that controls lighting functions including the taillights and trailer lighting. When built, the trailer lights were on a separate circuit than the taillights. The tail lamp circuit is made to only carry the amp load of the two tail lamps and nothing else. If any extra load is added by way of a trailer the module can overload which can destroy it. The first step is to remove the added wiring and check fuses. If there is still no power you will need to have the module checked and possibly replaced.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily

Recognizable. Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers.

Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
