Fun By The Numbers
Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ It Was All God's Plan ~

It is hard to believe that God may not just be the author of good, but also has His handywork in lives of people where bad things happen. We can see it time and time again in the Bible as God shows up in allowing bad things to happen while bringing good out of them even more so.

Everything that happens where a follower of God is involved, good or bad, also has the presence of God, regardless of whether one always feels it. I'm sure Joseph struggled with what was happening to him by trying to follow God or how Job felt after living a righteous life and losing everything.

God is God. He has his reasons and methods of getting someone's attention and helping us to grow into His likeness. God has His own set of plans and knows the best ways to implement them for His greater purpose in us.

God's ways may not be our ways of experiencing life, but God's ways are the right ways in the long run, and it will always pay off if we will walk through whatever we face keeping our eyes and our faith on God. He will work all things together for those that love and trust Him.

ASK THE MOTOR MEDICS

Automotive Advice from the Under The Hood Show

Dear Motor Medics,

I have a question about mufflers. Let me start by saying I am 72 years young and drive a 2003 GMC ¾ ton diesel truck. This thing is mint, and I have about every gadget known to man installed on it. What I have not done is modify the exhaust. I deliver RV trailers cross country with it, and I wonder if adding a different exhaust may help with mileage. I see so many muffler systems on the road and some are so loud that I can hear them as they drive by with my windows up and air and radio on. I don't want to have a muffler that overpowers me. Is there such a thing as a performance muffler system that is also quiet?

Thank you,
Dan in Fargo North Dakota

Dear Dan,

Yes there are mufflers that are quiet and add performance. With diesel engines, a free-flowing exhaust system can make a difference in both power and mileage, especially if used in conjunction with a power programmer which we will talk about often on our talk radio show. An exhaust system alone can also give you a boost and bigger and louder is not always king. Check on the diesel truck forums and see what is working for others with the same model truck. You will find many systems that provide both the added power you desire while keeping the noise level you want inside as well.

Take care,
the Motor Medics

Dear Motor Medics,

I found myself in a strange situation at my house late at night with no one to help me. I had driven to work earlier and when I tried to turn my car off, I thought I felt the key hang up a bit like it was going to stick and not turn off, but it did. I went to lunch, and it was no problem but when I got home it did stick and would not turn off past the accessory position. I did not know what to do so I left my key in the car overnight and I was uncomfortable with that. I took it to a shop where they were able to fix it for me, but it was not in my budget at this time. Is there anything I could have done to at least get the key out?

Thank you,
Susan in Denver Colorado

Dear Megan,

Yes, there is a way to get the keys out of most cars when the ignition won't turn off like yours did. It can be as simple as pressing a hidden button at the bottom of the steering column or on the console. Other cars require removing a panel to access the button and most can be accessed quickly. The internet has some great articles about how to access the hidden buttons. Look up how to do it and if you have this problem again, you'll be able to get the key out.

Take care,
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

Auction Sales

FIND THE
PERFECT PIECE
FOR THE
PERFECT PRICE

Find the stuff you want and sell the stuff you don't in the newspaper classifieds!

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s).

Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily

Recognizable.

Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers.

Multiply insertions help prospective buyers/readers

REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now",

"Available Immediately" or "Won't Last".
