BIG NICKEL BRAIN GAMES

-CROSSWORD- PUZZLE - SEPTEMBER - WEEK 1

CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to mold awareness. Each number corresponds to a letter. (Hint: 25 = E)
- A. 4 18 7 16
Clue: Structure fungi can form
 - B. 4 6 7 16 25 1
Clue: White type of mold
 - C. 4 18 6 17 5 20 21 25
Clue: Dampness
 - D. 10 21 25 13 5 8 25
Clue: Inhale/exhale

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

8					7			
1			2					
		4						
					4	2		
5			9				7	
		6	1			8		
	1			5				
7	6	5	4		1			
2			9	3		1	6	

Level: Intermediate

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ We Might Wonder ~

In prayer we might grow weary. We might wonder if it is working. It takes faith. It is essential to prevailing prayer, because real prayer cannot succeed without faith.

I believe God hears prayer and does answer. God is our only hope now, and prayer makes all the difference in what is going on here in America.

Prayer is the last line of defense. America is in a spiritual battle that cannot be won by ordinary people. It is going to take the prayers of committed Christians.

Ask and it will be given to you, seek and you will find, knock and it will be opened to you. For everyone who asks receives, and they who seek find, and to them who knock it will be opened. The Bible tells us this in Matthew 7:7-8.

The Bible also states in Proverbs that the prayer of the upright is God's delight. It goes on to say that the Lord hears the prayers of the righteous.

God does hear the prayers of His people, even the smallest prayers when even weak and broken people move the heart of God. When people will repent honestly before God and their prayers be true, God takes notice and works with His people, and God begins to move on behalf of His own.

Dear Motor Medics,

With gas prices constantly changing but always on the slow creep upwards overall I want to save as much fuel as possible. I have been researching kits to burn hydrogen in my car and other ways to increase my mileage with additives to the tank that are supposed to increase efficiency. Do you guys know which kit is the best one out there and how well they work? Is it something I can do myself at home? What about the additives to the tank?

Thank you,
Dustin in Elmira New York

Dear Dustin,

Keep researching, and you will find many people who have tried these things only to find they don't work as promised. Everyone wants better mileage, and they all want it cheaply. When the cost of fuel gets a sudden spike, you will see more of these kits on the market and offers of pills and additives claiming to be magic fixes for fuel mileage. If there was such a thing it's likely that the manufacturers would be making a good version of it to get there overall fuel ratings up. Not to say that someone won't come up with something that does the job at a price that makes it worthwhile but for now we have not seen anything. It's completely up to you to research these products and make a final decision but we very strongly recommend that you consult with your own local mechanic before making any purchase.

Take care,
the Motor Medics

Dear Motor Medics,

I just got my first car from my dad, a 2003 Chevy Impala and I was at the gas station filling it up for the second time or so and the guy next to me said I was doing it wrong and was going to wreck my car. He said I was overfilling it and needed to stop when the pump clicks the first time. The problem is it clicks off when it's only half full and you must fill it really slowly or keep clicking it. This is the way my dad had to fill it for the past couple years. What is this guy talking about and why does it click off so soon?

Thank you,
Dave in Bennington Vermont

Dear Dave,

The guy is right. The tank is designed to shut off the pump by backing fuel up the filler tube when it's full. If you overfill the tank by forcing fuel into it after it shuts off, it will spill over into the emissions system canister damaging it. You and your dad may not have caused what is going on now. While overfilling can cause damage to the emissions system and result in the premature shut off, a failed tank vent valve can also cause this even without canister damage. Have the emissions system checked and if it is a valve, they can replace it so you can fill the tank faster but remember to stop when it clicks.

Take care,
the Motor Medics
