Answer: Monitor

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

		2		4	9			1
				2	6			

Level: Intermediate

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ God Allows but not Approves ~

There are those who have the belief that if God allows them to be able to do certain things, then it must be OK. So they make their own assumptions that it is ok to steal, be dishonest in some way, maybe lie and deceive for gain.

Some people believe that God actually doesn't really see what they are doing or have done, so they just continue to do it. But God sees it all, and God allows people a freedom to live as they choose. But it doesn't mean that God approves of this. The Bible says in Psalms that God does not take pleasure in wickedness, and the wicked will fall by their own design.

I wish it would register with people that they are not going to get away with not even one sinful deed. They will be held accountable, and if they do not repent before God and turn their lives over to Christ, they will suffer eternal consequences. God is not playing games with people.

The choices you make: do they have God's approval or just yours? Did you seek His help or did you just do what you want? What God allows doesn't always have His approval on it. And if He doesn't approve, then it is sin, and sin can cost a life for eternity.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I recently witnessed a vehicle fire on the highway. As I passed by in the far lane, I could not even tell what kind of car it was because it was so intense. Even in the far lane I could feel the heat of the fire. When I first saw the smoke, I must have been about two miles away but saw no flames. As I got closer, I started to see the fire bellowing from the car and by the time I passed as I said I could not even tell what kind of car it was. All this occurred in the period of less than two minutes. I was amazed how fast the fire spread. Are vehicle fires common and what should I do if my vehicle ever catches fire?

Thank you,
David in Montrose Colorado

Dear David,

First and foremost don't panic. Think safety first, pull over and stop as fast as you can, as you witnessed vehicle fires spread extremely fast. Get the passengers out and move to safety. If there is smoke coming from a closed compartment do not open it. The fresh air can cause a fast flare up. The many different materials in a vehicle will emit gases when burning that can quickly overcome you so even if all you see is smoke stay away from it. If you try to recover objects from the vehicle you could be harmed. Call the authorities and stay far away.

Take care,
the Motor Medics

Dear Motor Medics,

I'm getting ready for a trip across country and would like to get the best mileage possible. I will be traveling about 6000 miles round trip so even one or two miles per gallon would make a noticeable difference in cost. Is there one thing I can do that will save me fuel that does not cost more than the fuel I will save by doing it? I have not done anything to my vehicle other than oil changes and air filter and I now have about 40,000 miles on the van. I used to get about 28mpg when new and now get about 24.

Thank you,
Melanie in Fisher West Virginia

Dear Melanie,

There are many things that could be contributing to your mpg loss but with only 40,000 miles you are probably in better shape than someone with many more. Spark plugs on newer vehicles usually will last more miles than you have before a major loss in mileage is noticed and you've had the air filter changed. Make sure the tires have proper pressure and if you have never had a professional fuel system cleaning having one done may gain a couple mpg in your case if all other tune up items are in good shape. As a vehicle builds up contaminants in the fuel system efficiency goes down and mileage suffers. A cleaner can restore the lost mpg and is affordable. Cleanings every one to two years is what's recommended.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily

Recognizable.

Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers.

Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
