Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ From Death to Eternal Life ~

No matter who you may be, no matter at what stage in life that you are, no matter the time or season, one thing is for certain: you will experience death. There is no way to get around it; unless you leave with the rapture of the church as a Christian, all will have to meet death face-to-face. And as the Bible says, "then comes the judgement," a place where you will meet Jesus Christ Himself and there will be an accounting made of your life, determining where you'll spend forever.

To go into the presence of heaven will bring eternal youth, a life of endless peace, unmatched from the experiences of this world; or eternal neverending death, worse than what you've ever experienced on earth.

Life for the eternal is real and certain, just as is death here on earth. Jesus Christ came in human form, sent from God to give us all the only way to eternal youth in heaven and hope while here on earth, a life to live above the many disappointments we now face. Jesus gave his life as the sacrifice needed once and for all to have the wonderful opportunity to start again, to be made new. Jesus made it all possible for anyone. Forgiveness is extended to all. No matter who you are, this place of eternal youth is extended to you. Look to the Bible. It has the answers.

ASK THE **MOTORMEDICS**®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a question about antifreeze. I have not owned a car for more than 7 years until now and I would like to know if I need to do something with my coolant. The shop I have gone to for the past two years has been trying to get me to flush the system, but they are not really giving me a reason other than its time due to miles and age. I did have it checked to make sure it won't freeze up in the winter and it looks clean so why would I need to change it?

Thank you,
Devon in Larchwood Iowa

Dear Devon,

We are so glad you asked this question because many people are unaware of how to take care of their cooling systems and that can lead to very expensive repairs. The anti-freeze serves several purposes. It is there to prevent freeze-up, boil-over, and to assist in the prevention of extremely damaging rust and corrosion in the cooling system. Even though coolant looks good and passes a freeze test it may fail a PH test. If the coolant does not have the proper PH rust and corrosion can damage gaskets, the radiator, and heater core, or scale can form in the passages. Test strips used during yearly checkups at a shop will verify the PH and need for changing which usually falls somewhere in the two-to-five-year range. Changing it can save you money.

Take care,
the Motor Medics

Dear Motor Medics,

I'm ready to buy a new car and I could do it at any time, I'm kind of an impulse buyer. My car is about 8 years old and needs a little work and I have the cash so I may stop by a lot and just buy something that catches my eye. I will likely look for something in the two-year-old or so range with 50k miles or a little more to keep the cost down, which probably means no warranty. Since I usually buy on impulse, I'm not likely to get a pre-purchase inspection done and I know you guys strongly suggest one. What can I do to make sure I get a good car

Thank you,
Tanner in Garretson, South Dakota

Dear Tanner,

Without the inspection you have no guaranty as to what you are buying. While no inspection can guarantee a trouble-free car, it can eliminate many commonly found money robbing issues that consumers could possibly get stuck with when buying a used car. I would suggest that if you don't get the inspection try to buy from a reputable lot that may offer at least a short-term warranty or sale contingent on a passing inspection. Also look for lots offering pre-inspected cars. Many of the credible lots do an outstanding job of pre-inspecting vehicles to keep their customer satisfaction high and will be able to tell you what they have checked over.

Take care,
the Motor Medics
