The Ten Commandments

*I. Thou shalt not have
strange Gods before me*

*II. Thou shalt not take
the name of the Lord thy God
in vain*

*III. Remember to keep holy
the Lord's day*

*IV. Honour thy father and
thy mother*

V. Thou shalt not kill

*VI. Thou shalt not commit
adultery*

VII. Thou shalt not steal

*VIII. Thou shalt not bear
false witness against thy
neighbour*

*IX. Thou shalt not covet thy
neighbour's wife*

*X. Thou shalt not covet thy
neighbour's goods*

BIG NICKEL BRAIN GAMES

-CROSSWORD- PUZZLE

- DECEMBER - WEEK 2

CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to holiday decorating. Each number corresponds to a letter. (Hint: 18 = I)
- A. 16 18 25 23 26 4**
Clue: Metallic strips

~ Truth that is Hard to Take ~

Death is not easy to accept, but it happens. Life in general is difficult enough, but when someone passes from life, there are always many questions and lots of emotions. Yet it is the answers that matter.

It is hard to speak truth at times, and in reality, the truth of someone's life speaks the truth of their eternal future. How a person lived out their daily life, their actions, and their words all explain who they were, what was important to them and the real interest they served.

There must be a personal relationship made and lived as unto God by coming to a real experience with Jesus Christ. There may be many routes a person takes to come to Jesus as their personal savior, but there is only one way to know God and live in heaven, and that is with a true relationship with Jesus.

My heart sinks so many times when at funerals people so easily speak of those that have died and lived their own way of life and yet are spoken of as though God didn't care about how they lived. God does care, and it goes right along with Titus 1:16 that says in the Bible, "They profess to know God, but they deny him by their works. They are...disobedient, unfit for any good work."

This should cause us all to think of how we live.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I will be ready to purchase a new car soon and will need to sell the one I have. I'd like to know how I can get the best resale value for my car and how to go about finding out how much that number should be.

Thank you,
Darlene in McCook Nebraska

Dear Darlene,

When you want to get the best resale value at the time of sale you should start at the time of purchase. Along the way keep all records of anything done to the car to show the care you have given it. A well cared for vehicle will bring more than a neglected one. Follow the severe service maintenance recommendations in the owner's manual and when things break, have them fixed. If you have done none of these things or just a few you can still get good value for your car. A clean car will usually bring more money faster than a dirty one and often people buy on impulse because of looks alone. A complete professional detail is usually in the \$200 range. Once it's clean and ready to sell, set your price. Selling it privately will usually bring in the most money. To get a good estimate of what you should ask, check the local papers and car lots for similar mileage and condition vehicles. This will give you a real world estimate for the location you are in as prices can vary between markets.

Take care,
the Motor Medics

Dear Motor Medics,

How often should I replace the shocks and struts on my vehicles? Is there a time or mileage limit to follow and is that a rule or can they be checked? My current 5-year-old minivan has never had them replaced, has 110,000 miles, and I plan on keeping it another 3 years or so.

Thank you,
Scott in Fort Morgan Colorado

Dear Scott,

Shocks and struts play a vital role in the ride comfort and safety of your vehicle keeping your tires in contact with the road and smoothing the ride. When they start to fail you may feel more bounce in the suspension or even feel the chassis bottom out over hard bumps. Usually before you feel the bounce braking distance and handling will be decreased. As they age the compressed gas/oil mixture that is used internally will begin to leak, first the gas which goes unseen and next the oil which can usually be detected leaking down the body of the units. Any sign of leakage or excessive bounce indicates that it is time for replacement. Mileage wise at about 50,000 miles or so they will start to lose performance. If you were to drive a vehicle with new units then drive yours, you would probably see a noticeable difference. This difference can mean shorter stopping times, better handling, and a smoother ride. For your vehicle with 110,000 miles and five years it is time for replacement.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2005 Chevrolet 2500 truck with a 6.0 engine and automatic transmission. Lately I have been experiencing a noise behind the dashboard upon starting. At first, I thought it was under the hood and searched for something that could make the kind of sound I was experiencing. After much searching I discovered it was coming from behind the passenger side of the dashboard. It is located just to the right of the glove box door and back by the firewall. There is a box there that I assume is part of the heating system and when I touch it, I can feel the clicking in sync to the noise. This noise occurs each time I start the vehicle and lasts for about one minute. Have you ever heard a noise like this before?

Thank you,
Scott in Denver Colorado

Dear Scott,

Yes, we have heard this noise before and can help you. Most vehicles went to fully electrically operated heater door systems in the late nineties. The door motors have position sensors in them and when they fail the computer does not know where the door position is. Because of this failure the door motor keeps moving when at the end of its travel and begins to strip the gear teeth causing the noise until the module shuts it down at a pre-determined time limit. To fix the noise you will likely need a new door motor. Thanks for the email Scott.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2002 Volkswagen Beetle with the 4 cylinder 1.8L Turbo. The engine runs great, but I have a check engine light on with a code P0411 stored in memory. This code is for the secondary air injection system. The air injection pump runs, and the hoses look good. I have been told it might be the check valve, but I can't seem to locate this. Have you heard of this problem on Beetles, and can you help me locate the elusive "check valve" and am I going in the right direction? I listen via your web site; you guys do a great job.

Thank you,
Rodger in Florida

Dear Rodger,

I am familiar with the problem you are having, and it is common to many vehicles with a secondary air injection pump. Cars in the southern climates don't seem to be bothered by it as much as cold weather states but none the less it happens. The vehicle could have a bad air diverter check valve, but it could be as simple as condensation in the air hose between the pump and the valve. The air valve is located on the engine at the passenger side rear just under the top cover. Remove the hose and check it for water, then clean it out if it is present' reinstall it and see how it works. You will need to have the codes cleared before the system will operate and run a self-test.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category. **Make Your Copy Complete.** Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive. List major selling points (price, color, size, features or options).

Be Factual. Be Helpful. Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now! Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.

COW AND BULL SALE
December 20, 2023

4:30 PM following regular cow sale

Expecting 1500 Cows and Several Breeding Age Bulls!

Russell Hamill Trust of Adair, OK

77 - good quality home raised commercial Angus spring calving bred heifers. Heifers will be 30 months old at time of calving, bred to registered Angus low birth weight bulls with a 45-day calving window starting 02/15/24. All heifers were vaccinated at 9 months of age for Brucellosis (bangs) at weaning by Pryor Vet Clinic and have been on an excellent vaccination and mineral program. No heifers on our farm ever receive any growth implants. Our cattle have excellent herd health and the only cattle purchased for our beef cattle operation for the past 30 years are virgin registered Angus bulls. Ready to turn out to pasture, received 2nd round of Vira-Shied 6 w/Lepto Vibrio, pinkeye/blackleg, 2 rounds of Anaplasmosis vaccine, and Ivermectin injectable wormer during Pryor Vet pregnancy test on 08/09/23 (had over 94% conception rate). Very docile, easy to handle and in excellent condition. **FMI Glenn Hamill 918-915-0818.**

60 - Home raised black and Red Angus heifers, bred to Angus bulls, start calving March and April 2024, all have been worked with the vaccinations. **FMI Jason Pendleton 417-437-4552.**

105 - Black cows, Angus base, with 40 fall pairs, more calves by sale day, 4-year-olds to short & solid, bred to Gelbvieh bulls. **FMI Chester Palmer 918-540-4929.**

120 - Fancy Angus heifers weighing 1100 pounds, out of Angus cows and percentage Simmental bulls, AI bred to Bismark LBW Angus bulls, cleaned up with Kiser Angus bulls, will start calving February 10 for 45 days. **FMI Skyler Moore 417-737-2615.**

21 - Black cows Angus base, with a few pairs, 5-year-olds to short & solid, mostly 2nd and 3rd period, bred Gelbvieh. **FMI Chester Palmer 918-540-4929.**

45 - Black cows, 3 to 7-year-olds, bred to black Angus bulls, second and third trimesters. **FMI Jr Smith 870-373-1150.**

1 - Registered Limousin bull, 18 months old, LBW and high marbling, KBPS 222K (Tattoo), extremely docile, double black and double polled. **FMI Joe Smith 479-640-6441.**

25 - Black Angus cows, 4 to 5-year-olds, all in the 3rd trimester, bred to black Angus bulls. **FMI Cotton Reed 417-342-5373.**

65 - Black Angus pairs, 4 to 6-year-olds, bulls be in with them for 35 days. **FMI Jason Pendleton 417-437-4552.**

15 - Black first calf heifers, bred to black Angus bull, home-raised, start calving January 1, 2024 **FMI Jason Pendleton 417-437-4552.**

15 - Black second calf heifers, bred Simmental, home-raised, start calving January 1, 2024. **FMI Jason Pendleton 417-437-4552.**

55 - Black Angus cows, 4 to SS ages, bred Simmental, home-raised, will start calving January 1, 2024. **FMI Jason Pendleton 417-437-4552.**

40 - Red Angus heifers bred to low birth weight Worthington Angus bull, start calving February first. 95 - Spring calving black cows 3 to 6-year-olds, bred to Angus and Charolais bulls. **FMI Jim Hacker 417-328-8905.**

3 - Two-year-old bulls, one is a registered Red Angus Pharo Cattle Company bull, one is a registered Simmental red bull and one is a red Sim-Angus registered bull. **FMI Jim Schiltz 417-850-7850.**

4 - AI pairs are 7-9, AI bull: Tehama Tahoe. 5 - Pairs 7-9, RA Brown calves. 2 - Pairs 2-5 yrs <30 days old, RA Brown calves. 3 - Bred cows 5-9 yrs. All registered Angus bulls. **FMI Mark Harmon 417-316-0101.**

84 - Angus cows, 3 to SS, sired by Angus bull, start calving February, complete dispersal. **FMI Tim Durman 417-438-3541.**

69 - AI black baldie heifers and 25 - Natural service black baldie heifers that are all half-sisters from one ranch. These heifers represent the best of northern genetics that have been developed on fescue in Southwest Missouri. The heifers have had Dr. Ted Dahlstrom's vaccination program. They were artificially inseminated on May 6 to Worthington Discipline. Then cleaned up with Worthington Discipline's sons. They will start calving the second week of February to the artificial insemination date then start three weeks later to the clean-up bulls. It will be hard to find a set of heifers to compare to these. From the Alumbaugh Ranch in Carthage, Missouri. **FMI Bailey Moore 417-540-4343.**

95 - Angus and a few Red Angus cows, 3 to 5-year-olds with a few pairs, calves 2 months old, balance springers, bred to Angus bulls, cows weigh 1150 to 1250 pounds. **FMI Jackie Moore 417-825-0948.**

60 - Black and black baldy 1st calf heifers, bred to Worthington calving ease bulls, start calving late February, all pelvic measured, all heifers on current vaccination program, heifers are 3 generations of AI breeding and out of performance tested bulls, heifers weigh 1100 to 1200 pounds. **FMI Cherry Warren 417-235-9843.**

25 - Young, black 3 to 5-year-olds, bred Angus, spring calves. **FMI Larry Mallory 417-461-2275.**

90 - First calf heifers from Wilmoth Ranch, some AI'ed and will start calving end February - bred to Brickyard, clean up bulls from Wilmoth out of Capitalist 316 and Fireball 672. **FMI Jeremy McBride 417-389-1950.**
