## -CROSSWORD- PUZZLE

JANUARY WEEK 1

### CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to New Year's celebrations. Each number corresponds to a letter. (Hint: 17 = N)
- A. 1 9 13 23 24 13 5 17 4  
Clue: Bubbly drink
  - B. 23 26 25 17 26 5 9 16  
Clue: Twelve a.m.
  - C. 12 4 22 7 20 3 16 26 7 17  
Clue: Plan to change
  - D. 24 13 12 16 2  
Clue: Fun event

### WORD SCRAMBLE

Rearrange the letters to spell something pertaining to New Year's Eve.

**ATTOSS**

Answer: Toast

### Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

6			9	2				
3			5		8			7
								1
	9					8		
		3		1	7			
4		7		3		6		
		2			5	9		
			7	6				
		8						4

Level: Intermediate

**Here's How It Works:**  
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

### -PUZZLE- SODOKU

JANUARY WEEK 1

4	7	3	2	1	6	9	8	5
8	2	5	4	6	7	3	1	9
8	1	7	6	4	5	9	3	2
7	4	2	8	9	3	6	5	1
4	5	7	8	6	9	3	1	2
2	2	3	6	4	1	7	5	9
1	9	6	2	5	7	4	8	3
2	7	5	4	3	8	6	9	1
3	1	9	5	2	6	8	4	7
6	8	4	1	7	9	2	3	5

*~ People's Ways vs God's ~*

The ways of a person may seem right, but it is the Lord who weighs the spirit of such thinking. Everyone's proud heart is an abomination to the Lord and will not go unpunished. Leaders must not transgress in their judgments. Their dealings must be honest, for the Lord weighs their decisions. It is a grievous sin to approve of injustice.

Pride goes before destruction; a haughty spirit will fall. There is a way that seems right to the people but can only lead to death. The ungodly stir up evil. Their lips speak of it. The perverse sow strife. Their gossip separates people. They entice sin and bring about wickedness, but it is the wise that live to appease the Lord.

Commit your works to the Lord and your thoughts, and He will establish you. The Lord provides mercy and truth to atone for sin, and by the fear of the Lord one departs from evil.

How much better is wisdom and understanding from God than this world's silver and gold. The upright will depart from evil, and those that do preserve their soul. A crown of glory is found in the way of righteousness. The heart of the wise teaches their mouth.

When people's ways are pleasing to the Lord, even their enemies make peace with them. They may plan their ways, but it is the Lord that will direct the steps of the righteous.

# ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a 2001 Jeep Grand Cherokee with a 4.0 six-cylinder engine that failed. This is the first time I have ever had to replace an engine in a vehicle and with fairly low miles and a faithful maintenance history I am shocked that it failed. They told me the camshaft failed because I was not using an engine oil additive and that if I did not use one on the new engine every time that the engine warranty coverage would be void. Why have I never heard of using an additive before? I thought they were not needed for everyday use. The place that changes my oil is not where I go for bigger repairs and I have not had to see them for several years.

Thank you,  
Scott in Dell Rapids, SD

Dear Scott,

Seeing a Jeep engine with low mileage fail when oil additive has not been used is not a surprise to us. The lack of ZDDP in the engine oil was likely the cause. ZDDP was removed from engine oil around the time diesel fuel had most sulfur removed. ZDDP protects high pressure areas such as the flat tappets of the Jeep cam. All oil change facilities should be offering the additive to you as a choice. A yearly check-up at a full-service shop is also a good way to get good advice. They can often advise you of recent changes. Take care, the Motor Medics.

Take care,  
the Motor Medics

Dear Motor Medics,

I replaced the air conditioning compressor on my Dodge Caravan before the last winter and it worked great for the short time, I used it before winter and again this spring until the first really hot day. The system stopped working and started making a grinding noise just like before. The shop that fixed it installed a new drier and a new compressor and charged me for Freon and labor. Did they miss something, or did I get a bad part?

Thank you,  
Jennifer in Missouri

Dear Jennifer,

It worries me when you say the system is grinding again. According to the list of replaced parts you gave it is possible that the failure could be due to the way it was repaired. Not to doubt the installation but when a compressor grinds it is usually coming apart internally and leaving metal shavings in the system which will plug passages in the condenser and expansion devices. If there was metal found in the system, any parts contaminated must be replaced. Just flushing the parts is not an option because of the small passages that can't be accessed. Partially plugged systems may work well on cooler days but will fail when high temps raise pressures. When the system is repaired this time ask about these parts and if they need to be replaced and why or why not. With the high cost a second opinion is not a bad idea either. You don't want this to happen again.

Take care,  
the Motor Medics

Dear Motor Medics,

I have what I think to be a very simple question but when I ask others I get as many different answers as the people I ask. I want to know if it is necessary to connect the last jumper cable connection which is always my negative cable to the engine block instead of right to the battery which seems more convenient to me. I have received many different answers and I just want to know what the proper way is. Can you help me Motor Medics? .

Thank you,  
Barb in Henderson Texas

Dear Barb,

Great question for the safety of anyone who ever must jump start a car. Many people connect the cables directly to the terminals on both batteries claiming it makes it easier to start and this is extremely dangerous! If your battery cables on the vehicle and jumper cables are both in good shape connecting them properly will work just fine. When you make the last connection of the jumper cables it is normal for the connection to give off a small spark. This spark can easily ignite the hydrogen gas given off by a battery under normal operation and cause an explosion. This explosion can be powerful enough to send sulfuric acid and pieces of battery shrapnel flying towards you injuring you. To prevent this, you need to make the last connection away from the battery which would be the engine block. Always consult your owner's manual.

Take care,  
the Motor Medics

Dear Motor Medics,

I have a question about spare tires. I see many new cars not coming with a spare of any kind. When we purchased our latest car, it came this way and in the place of it was a can of tire sealant and an inflator can. The instructions say to use the sealant then if the tire is still low to use the inflator can and use as necessary to reach the nearest place to have it repaired. Why can't they just make a place for the spare? We have had spares in our vehicles as long as I have been driving and they work just fine, although I have never had to use one since our tires are kept in good shape.

Thank you,  
David in Mason City Iowa

Dear David,

Spares are going the way of the dinosaur in many vehicles to save weight and room. Cars have been on this trend for a while now. I think the first one I saw was in a Hybrid and if they had wanted one I don't know where they would have put it. Removing the spare saves weight and every pound you save means a bit more fuel mileage. This combined with other weight savings can make a big impact overall. The tire sealant and inflator can work for smaller leaks but for anything major like a large bolt or other object you will need a tire change to get you going.

Take care,  
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

# CLASSIFIED QUICK TIPS WRITING A SUCCESSFUL AD

**Prepare.** Know what is important to readers shopping in your classified category.

**Make Your Copy Complete.**

Use ad copy effectively to thoroughly communicate to potential buyer(s).

Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

**Be Creative Descriptive.**

List major selling points (price, color, size, features or options).

**Be Factual. Be Helpful.**

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

**Make Your Ad Easily Recognizable.**

Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

**Maximize The Amount Of Prospective Buyers/Readers.** Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

**Urge The Reader To Act Now!**

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

**The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.**
