Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ What Will Satisfy? ~

So many people always want God's blessings to be upon the lives of their family, their marriage, their work and their health. Yet they still want to also enjoy many of the pleasures of worldliness, to go ahead day-by-day and live life mainly as they feel is right.

They want to do the things that make them feel good until their world again becomes unraveled by the troubles they have to experience that become beyond their control because of their own choices.

And now again, they need God's help because the world has failed them and cannot produce the relief they need. And so they cry out to God for help, and many times, God steps up to help them in their time of need if they will truly look to Him.

God will try to direct us when we've lost our way because the flesh has failed and deceived our lives or those around us. God will work to restore a damaged or broken relationship. But much of the time, the same pattern in people comes up again.

So what does it take for a man or woman to turn from the lures of the world and spend time investing in the guidance of His word and seeing their lifestyles changed? It takes a genuine commitment to repent and turn away from your ways to God's ways. Nothing else will ever satisfy.
