ANSWER:

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

CRYPTO FUN

Determine the code to reveal the answer!

Solve the code to discover words related to hot breakfast. Each number corresponds to a letter. (Hint: 26 = E)

A. 1 7 26 6 26 22
Clue: Egg dish

B. 21 5 22 3 24 26 12
Clue: Cooking room

C. 2 14 26 13 21 15 13 8 22
Clue: Morning meal

D. 16 20 26 8 22 8
Clue: Visitors

WORD SCRAMBLE

Rearrange the letters to spell something pertaining to breakfast.

~ It Is Very Important ~

The gospel of Christ is not a message of flesh or manmade inventions patterned after any human concept. The gospel is the message of the redemptive work of Jesus to overcome sin, evil and death. He gives new life and the power to live a victorious life.

The Christian that wants to fully walk with God should make their life available to God in such a way that people see God's presence around them.

God's word is upheld over any matter. God's wisdom reigns over human knowledge. God's truth will prevail. God's will is to be accomplished because God stands alone as the great God over time, over circumstances and certainly over humanity.

The Bible says in Galatians 2:16, "Know that a man or woman is not justified and placed in right standing with God by works but only through faith in God's beloved Son, Jesus Christ, that we may be justified by faith in Christ."

The devil does not fight against religion. He joins it many times. He knows that it is Christianity that gives him his troubles, so he then produces a counterfeit that is much like real Christianity so that the average Christian can barely tell the difference.

ASK THE MOTORMEDICS
Automotive Advice from the Under The Hood® Show

Dear Motor Medics,
I'm about ready to start hauling my trailer for the season and will be using more than one vehicle. What kind of things should I be thinking about before heading out with a trailer?
Thank you,
Mike in Decorah Iowa

Dear Mike,,
I'm glad that you're thinking ahead. Too many people just assume the vehicle they have is ready just because it has a hitch on the back. The first place to start is to make sure what you are pulling can safely be towed without overloading your vehicle, once that it done a safety inspection is in order. All of the items that the vehicle needs to operate such as steering, brakes, cooling, etc. will now be done for two so if it can't handle itself how will it handle towing? Have the vehicle raised on a hoist to check the suspension and brakes, replace worn parts for safety. Check the tires and make sure they are properly inflated and not cracked. Also check their load rating. Check the condition of the hitch and light wiring and inspect your engine and transmission cooling systems. Dirt and debris should be rinsed away from the cores with low pressure water. If you do not have a transmission cooler ask your mechanic about one, it may save you from having a transmission replaced prematurely. Don't forget to check the trailer for safety as well. Be sure to ask your mechanic about further towing preparations.

Take care,
the Motor Medics

Dear Motor Medics,
Last year I spent almost \$2500.00 on air conditioning repairs to my 2018 Dodge Caravan. They just said it had a complete failure and that's the way it is. They did not offer any maintenance advice. We usually keep our vehicles just until the warranty is about to expire then trade, but with a budget minded focus lately we have decided to keep our vehicles longer. That money covers several payments but we still feel it's cheaper in the long run to keep the vehicles a few more years. Is there anything we could have done to have possibly avoided this?

Thank you,
Darrin in Nashville Tennessee

Dear Darrin,
Many people have decided to keep their vehicles longer and we think this is a good idea to save money. To make sure you avoid unexpected repairs as much as possible, find a good mechanic you can trust and get on a regular maintenance schedule. In our own shop we see many vehicles fail that would not have if the driver would have done some simple low cost upkeep. In the case of air conditioning it is important to inspect the system for visible oil leaks and repair them before further use of the system. It is also important to service cabin air filters and have the condenser cleaned as needed. Any leaks in the system or overheating due to dirt can be catastrophic. These simple checks can help you avoid costly repairs.

Take care,
the Motor Medics
