Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

		4						1
	2		7	9		4		
					4		7	
	8		1			9		4
				2	6			
	3					6		
		5		7			2	
				1		7		
4		9	2					

Level: Intermediate

Here's How It Works:
 Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ God is Holy, not Casual ~

Today there has been a shift in churches that have adapted a more casual type of gospel. Not always such a bad thing, but it can sometimes be disrespectful to things of God: making them common instead of holy.

The Bible speaks about people treating the ways and ordinances of God with reverence, not letting them become some type of religious ritual that downplays the holiness of God, because God even refers to Himself as a Holy God. Yet there are people who treat the church as if it was their own living room, wearing whatever they want.

Why would someone do this? Because they really don't see God as holy as much as common. They trust God just like any other part of their life or with the same respect they might give their workplace or sporting event. God isn't interested in being played as equal with any worldly event or worldly place. God is to take top space or none at all. Either God is number one, or God is not in the picture as far as He is concerned.

God is to be honored above all other things. God is to be first, or He won't hang around where He is treated as just some other part of your life. God wants priority and to be treated in such a way that honors Him above all the other things.

ASK THE MOTOR MEDICS

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I've got a noise under my hood that despite several attempts at repair persists. The vehicle is a 2014 Chevy Tahoe with a 5.3 engine and upon startup it will chirp from the engine drive belts for about 15 minutes no matter what the conditions. We have tried to repair this by switching the belt which resolved it for about a week. The next thing we tried was to replace the tensioner in hopes that the belt tension was incorrect. After the tensioner replacement, it lasted another week then was back to chirping again. Have you had this problem before and if so what kind of things have you done to stop the noise? My mechanic suggests trying a Gatorback belt. What is a Gatorback belt, and do you think it may help?

Thank you,
Daryl in Sheldon Iowa

Dear Daryl,

When we have belt squeaks, we look very closely at all the rotating parts to make certain there is not a problem with alignment or wear that could be the root cause of the noise. We also check for proper tension and make sure the pulleys all have good bearings. With that all done we install a new belt and if it squeaks again soon after we sometimes use the Gatorback belt which is different in design in that it has grooves on both sides of the belt which can help to eliminate noise by providing a better gripping surface area.

Take care,
the Motor Medics

Dear Motor Medics,

Every time fuel prices go up, I start to see products on the market that claim to increase fuel mileage. Some are claiming to increase up to 4 mpg! These products range from a pill you drop in the tank at fill-up to devices installed into the air cleaner and other crazy things. If these products are so good, why are the car manufacturers not installing them at the factory instead of spending millions of dollars researching how to increase fuel mileage? And if there is a "pill" you can just drop in the tank to do the same then why don't the gas companies make a fuel that contains the pill contents in it already and market it as a fuel that gives you better mileage than the other guys?

Thank you,
Trent in Decorah Iowa

Dear Trent,

While there are a few products that will help your car get a very limited increase in mileage, there are many more that are just a waste of your money. Before you buy, be very diligent in your research of each product. You will find that many have not been proven to work and the ones that do may not be cost effective. You may spend more on the product than you will make up for with the limited mileage gain. As you said, if it were so good the manufacturers and fuel companies would use it to meet their goals and improve their sales.

Take care,
the Motor Medics
