Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Intermediate

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ Good is not Good Enough ~

Being a fan of the truth is not good enough. Only by being a defender of the truth will give truth the credit it is due. Those that will not stand for the righteousness of God's Word will speak a cowardly message that will embrace woke-ism, which has become an epidemic of its own in today's cultural beliefs.

Those that preach only a message of love and tolerance without God's Holiness, righteousness and repentance are leading thousands astray from the truth and principles of Scripture. When a person moves away from a Biblical worldview, they move away from a Biblical lifestyle.

When Christians, or just good people, start to embrace a worldly view of living, they begin to lose any Biblical authority within society, and so the culture moves away from the influence of Christianity's beliefs and move toward Biblical ignorance of the truths of God's teachings.

There will be wedges driven between a worldly church and a Biblical church. A good church will have to rely more on God than on mankind. There is more division about how the gospel should be presented in the modern culture than ever before.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,
 We have a 2008 Chevrolet Tahoe and when it was just a year old, we got a new puppy. The first time we left it alone while we went inside a restaurant to eat, she decided to eat the Tahoe. She chewed the back of the rear seat and the corner off the plastic trim too. The vehicle is in great shape with 70,000 miles and we want to sell it, but with a large hole in the seat and the damage to the plastic side trim it's making the sale very difficult. We checked with the dealer, and they are telling us they can repair it at a cost of over \$3500.00 parts and labor and our insurance will not cover repairs. Can you suggest anything that we can do in the way of a repair to save some money?

Thank you,
 David in Watertown, SD

Dear David,
 New interior parts can be very expensive so many people leave their vehicles unrepaired. What's wrong with a seat and trim from another Tahoe of the same year that has no damage? Look into certified used parts. Ask your dealer if they can find these parts so you can get a repair that makes more financial sense. With the hundreds of reliable used parts sources in the country they should be able to find a match for a late model vehicle like yours and make the repair affordable. There is always a way.

Take care,
 the Motor Medic

Dear Motor Medics,
 We have a 2002 Hyundai Santa Fe that has been having the check/brake light come on periodically. The fluid tank slowly drains so we fill the brake fluid, and it works fine for a while then comes on again. We had a mechanic look at it and told us we would have to replace the HCU in the brake system and that the part alone is about \$1600.00. Is this a common problem and does this sound reasonable? Is there anything else we can do? I'm a little hesitant to spend so much on a repair on a 10-year-old vehicle, when the value is maybe a little more than twice the cost to repair the problem.

Thank you,
 Kay in Nebraska

Dear Kay,
 The HCU is the Hydraulic Control Unit and it's the main component of the antilock brake system. The units don't tend to leak fluid but rather fail electrically so I would take a very close look at the lines going to the unit which are more common to fail. Shop around for brakes. A second opinion never hurts if you have any questions and by asking us, we assume that you do. When you have an older vehicle or any vehicle for that matter it is important to keep repairs economical but it's also important to be safe. Brakes are not an area to cut corners in but there are always ways to save money when repairing them.

Take care,
 the Motor Medics
