Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

COW AND BULL SALE

Friday, April 19, 2024

4:30 PM - bulls sell first, then stock cows

Expecting 1000 Cows and Several Breeding Age Bulls!

Chain Ranch is proud to offer this set of high percentage Red Angus/Beefmaster bulls and females. We are 6th generation, family-owned, commercial cow-calf producers headquartered in Canton, Oklahoma. We have a 300 head Registered Red Angus cow herd we use to raise our own bulls through Natural Service, AI and embryo transfer.

Beefmaster genetics was introduced on a select group of Registered Red Angus cows with the goal of adding growth, pounds, and hybrid vigor to our calf crop and commercial replacement heifers, while trying to maintain the high-quality carcass hanging on the rail. We focused on high marbling, red, Beefmaster bulls to try and maintain the current 95% high choice and prime percentage that our calves are currently grading as well as maintaining a solid red color. We were very impressed with the cross. The crossbreed calves weaned 80-100lbs heavier than our straight Red Angus Calves and the 1/4 blood calves didn't have as much ear and leather.

While these bulls did not fit our program, that does not discount them in all commercial breeding programs. We are very focused on quality grade because that is where we receive added value. If your program is focused on selling pounds at weaning or as yearlings these bulls will no doubt add pounds to a calf crop.

We have sorted the bulls and only brought what we feel are the very best. All bulls have been semen checked and trich tested. They have been developed on natural forage and should not melt when you turn them out. We have identified the 1/2 blood and 1/4 blood bulls and will sell them accordingly. We are also selling one of the full blood bulls we started with, JK Gallager.

We have also brought a select group of high-quality open heifers ready to breed. The heifers are 1/2 sisters to the bulls we are offering. Heifers have all been CHV vaccinated, wormed, are current on all vaccinations and have had a pre-breeding soundness evaluation. **FMI Newley Hutchison, 580-886-5085, Chain Ranch.
