BIG NICKEL BRAIN GAMES

-CROSSWORD- PUZZLE - MAY - WEEK 2

CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to salad. Each number corresponds to a letter. (Hint: 17 = T)
- A. 10 12 17 17 18 13 12
Clue: Salad leaves
 - B. 17 4 25 8 17 4 12 24
Clue: Full of lycopene
 - C. 13 20 16 24 5
Clue: Firm and crunchy
 - D. 10 18 23 13 15
Clue: Afternoon meal

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

6	3			9				5
				5	6			3
9		2						
		1		9	5			
		8		6		7		
5								4
	4					8	9	
				4		7		
8						2		

Level: Intermediate

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ On Belief ~
 The Scriptures tell you to believe, rely and trust God by living righteously and keeping a right standing before God. You cannot earn salvation by doing good things but by completely surrendering your life to Christ who justifies those who are in right standing before God.
 The Bible tells us this in Romans 4:7-8. "Blessed and happy and favored are those whose lawless acts have been forgiven and whose sins have been covered up and completely buried. Blessed and happy and favored is the one whose sin the Lord will not take into account nor charge against them."
 Does this sound like you? Do you truly believe in forgiveness? Have you repented from your sins? Are you putting your trust totally in Jesus Christ? Do you know the word of God? Have you found you have an inheritance with God, as promised? Have you walked the steps of faith? Are you a true follower of Christ by the way of salvation? Does your life verify or nullify this?
 Inheriting the promise of God depends entirely on your faith in God, that you confidently trust regardless of what you see. God's grace is sufficient in this. His unmerited favor and mercy are guaranteed to all those who keep His word and share in His faith. God's promises are not based on performance but on belief.

ASK THE MOTOR MEDICS®
Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

I have a 2021 Ram 1500 with a V6 engine that has a on-going coolant leak. The leak is small and coming from the thermostat housing area. I have had the truck repair several times with both the thermostat, water pump, and then thermostat housing being replaced. The leak consumes about a pint of coolant a month. Can I use one of those cooling system sealers to fix it? I don't want to clog up the system trying to stop a leak. If I use it, how long does it last?

Thank you,
Gary in Litchfield Minnesota

Dear Gary,

We have seen this leak on multiple ram trucks in the past few years. There have been upgraded thermostat housings and thermostat covers which should fix this issue but in the colder climates we have seen multiple repeat failures. If it is still under warranty take it back to the shop that serviced it. If it is out of warranty, or you performed the work yourself and are tired of trying to seal up that small remaining leak then a sealer may be the ticket. We have had great success with a permanent leak sealer called KSeal. KSeal does not clog the system and is meant to be a permanent repair that you add to the system and leave in. Don't use it with other sealers and don't flush it out. Follow directions and if you have the results that we have seen it should stop the leak.

Take care,
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.

Dear Motor Medics,

I'm rolling in my 2019 Toyota Corolla with custom aftermarket wheels and tires and custom vehicle wrap. Can you picture it? This thing is hot! Well, as hot as a Corolla can get. This is what I could afford as a new car when I purchased it right out of college, but it beats huge payments and I like it a lot. I have been having tire Pressure Monitor issues and the tire stores say its my car. The issue started a year after the new wheels and tires were installed and they have replaced all the sensors and can't get the system to work. Do you have any ideas?

Thank you,
Kenedy in Omaha Nebraska

Dear Kenedy,

Another Corolla with TPMS issues. This does not surprise us much. Usually, tire pressure monitor issues are a straight-forward repair. We scan the system to see which tire does not communicate with the receiver or which one is showing a fault then replace that sensor in the tire with a new one, program it, and its good to go. With the Toyotas and Lexus vehicles we have not been that lucky at our shop. We have tried several brands of aftermarket sensors and even used 4 new Toyota sensors and have had a very hard time programing them. For these vehicles use only Toyota OEM sensors and we suggest the dealership for programing. This has been the most successful for us.

Take care,
the Motor Medics
