2		1					7
			3		4		9
		4		5			
	5		6			2	1
9	6				8	7	

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

"HEAL YOUR VIBES"
Hi, I'm Bekah, I work with holy trinity, Arch Angels and your energy. With their divine guidance and assistance you are able to heal and clear trauma, emotional wounds, grief, limiting beliefs and a lot more. Giving you clarity, better focus, and discernment in your life. Helping you move forward on your divine path with renewal of holy trinitities white light. The feeling of fear, the unknown, doubts, being overwhelmed and anxious will be healed to self love, divine clarity of the situation and helpful calm loving solutions. Book an appointment today. 417-850-1878. P.S. God bless you and your whole family in Jesus Christ name.

ATTENTION!

\$\$\$

~ America Needs God ~

America is beginning to experience the weight of its sins because some have forgotten our founder's covenant with Almighty God. Many are no longer taught it, and so we are seeing our nation distressed on all sides due to our many differences, without the common security of God first.

Yet in it all, God is still God. He isn't the one who has changed, nor has He left us. But many have left Him, trying to fix what they have broken because of humanistic beliefs, that humankind is wiser than the God who created them.

There is but one true God and one true Savior for this world. It all depends upon our hearts toward God and our willingness to obey and turn to God. The only way for Satan to get to your heart is to get to your head, and Satan has many heads turned.

America is in a more serious imminent danger than most of its citizenry realize. The situations that are mounting of social issues, wars, rumors of wars, governmental disunity, educational struggles, inflation, the economy- and as other issues continue to build, so do the pressures.

It is Almighty God, and Him alone, that has the power and position to rescue our struggling nation. So we are to pray and call upon the master of this universe to help us.

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I'm addicted to my seat heaters. Every car I have ever purchased has had them and it has even been a deal breaker for me when shopping for a car if it did not have them. I use my heaters year-round unless it is too warm out. My driver's side seat heater just failed on my Cadillac and of course it is 2 months out of factory warranty. They would love to replace it for me at a charge of \$800.00 and that's just not going to happen. I am not ready to purchase a new car, but I want my seat heater to work. Is there anything I can do to get it going again?

Thank you,
Joe in Detroit Lakes Minnesota

Dear Joe,

I too enjoy my heated seats and when they fail, I would never think of spending \$800 just to keep my rear end warm. Good thing that there are alternatives out there. You could check with your local recycled parts place, AKA Salvage Yard, and they may have an entire working seat for you that will match your interior, or you could investigate an aftermarket heater. Seat heaters are a great accessory for anyone who has a seat to sit on. Cars, trucks, tractors, they all can be equipped with heaters usually at a much lower price than a replacement factory unit. Check your local car stereo shops or accessory installation dealer to see if they offer them.

Take care,
the Motor Medics

Dear Motor Medics,

I had the air conditioning system fail on my Land cruiser two years ago due to a large leak in the rear refrigerant lines that run under the vehicle. Where the lines run, they are susceptible to damage from road debris and those concrete stops they put at the front of parking spaces. You know, the ones with the metal stakes holding them that my teenage daughter thinks is ok to drive over instead of backing up. So, after the cloud of refrigerant smoke cleared, I took it to both the dealer and an independent shop for a repair quote. Both places were over \$1000.00 to replace the lines. They said the lines come as a set and take many hours to replace. Is there anything I can do that won't cost me so much money?

Thank you,
Rich in Attica Indiana

Dear Rich,

Ouch! You have a few choices. You can do without air conditioning, you can spend the money for new lines, you could block off the rear lines and just use the front a/c, or you can repair the lines you have. There are a/c line repair kits out in the market that not all shops have but the ones that do will be able to cut out the damaged section and splice in a new one. You can also have a rear delete kit installed. Either one will be a large savings over having the entire line set replaced.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2013 Toyota SUV I am going to drive across country and back and will accumulate about 8000 miles on the odometer by the time I return. This vehicle has 45k miles on it and has not had any problems as of yet and no repairs other than tires and oil changes. Is there anything that I should do before I make the trip to be sure I am as safe as possible?

Thank you,
Tracy in Hastings, Nebraska

Dear Tracy,

Anytime you are going on an extended trip it is good to have your vehicle at its best. Many folks have disappointing trips because they failed to have a simple check done and they experience a preventable breakdown. When a vehicle is brought in for oil changes on a regular basis to your local mechanic they usually inspect for basic things like tire wear and pressure and anything out of the ordinary that could cause a failure like worn belts and hoses but not always. When preparing for a trip make sure to ask your mechanic specifically about a general check-over and tell them how far you will be traveling so they can look for things that may affect your journey. Failed tires, belts, hoses and batteries are the most common items that leave motorists stranded so be sure these are among the list of items checked before you go. Have a safe and fun trip and enjoy the ride Tracy.

Take care,
the Motor Medics

Dear Motor Medics,

I am thinking about purchasing a new Jeep Grand Cherokee with the Diesel Engine but don't know much about it. I have heard you talk about them on your radio show Under The Hood and have not heard any negatives about them from your callers. I plan to drive about 40k miles a year and haul trailers in the 4500lb range about 30k of that as I haul a display for my company to trade shows. I want the comfort of a car and good mileage but also the load hauling capability. What are your thoughts?

Thank you,
Mike in Portland, Maine

Dear Mike,

There's a number of new smaller Diesel Engines on the market that can be found in half-ton trucks and smaller SUVs meant to give better mileage when towing smaller loads where a larger more powerful diesel was not needed; these new diesels are also very clean compared to the older larger ones which is good for the environment. You have a couple of key things in your question that are important factors on a vehicle for you. First, you say you will be towing a lot of miles which justifies more power and the added cost of the diesel option. Second for better fuel mileage the use of Diesels for towing long-haul should help with your economy. You ultimately have to decide when it comes to a purchase so always research and see what others are saying before you decide.

Take care,
the Motor Medics

Curtis & Sons Realty PUBLIC LAND AUCTION

Thurs. July 25, 2024 at 5:30 PM
614 N. Walker St. | Webb City, MO 64870

Join us for an exciting public auction offering a city lot ready for a new build! Curtis and Sons is acting as the auction facilitator on behalf of the Delmar Clinton Hill, Jr.

Builders and dreamers, this vacant lot (50x100) is your chance to turn vision into reality! Two sides are already fenced, saving you on materials and time. You can focus your energy on the fun part – designing and building your dream home! Forget the hassle and expense of installing new utilities. This lot comes with water and sewer taps conveniently located on site, eliminating the need for costly trenching and connections. Taxes in 2023 were \$33.00.
