Fun By The Numbers
Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ Daily Politics ~

The political system in any age at any time can become a very difficult process and sometimes a very ugly force to deal with. Politics bring with it many temptations and a great challenge to one's character, as well as opportunities for compromising and offers disappointments that can only be met with a real strength of duty to God. You must have a backbone and not fear people. You must know what you really believe and have a deep faith in what your values are and what you stand for. The power of the flesh will always wear down. Politics is of the spiritual nature, and most do not have enough deepness of understanding in spiritual warfare to take it on. The right door to politics starts with a love for people that want to do what is best, not just good. The gate to politics opens up many battlefields, but it is only by strength from God alone that will truly sustain you. America's first leaders or first politicians knew to fear God above all other things. They understood the truth of respect for one another and the options of defeat if they didn't work together. Then they would lose, and the cost would be disastrous.
