**IX. Thou shalt not covet thy neighbour's wife**

**X. Thou shalt not covet thy neighbour's goods**

# BIG NICKEL BRAIN GAMES

## -CROSSWORD- PUZZLE - AUGUST - WEEK 3

### CRYPTO FUN

Determine the code to reveal the answer!

- Solve the code to discover words related to traffic. Each number corresponds to a letter. (Hint: 10 = A)
- A. 11 10 22 21**  
Clue: Automobiles
  - B. 13 19 8 19 21 15 22 9 10 5 21**  
Clue: Persons walking
  - C. 21 10 7 19 15 12**  
Clue: Condition of being protected
  - D. 22 3 10 8 17 10 12 21**  
Clue: Places to drive

### Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

9		8		3	5	2		
	6		8					
2			6			9		4
	5	3						7
6			7		8			3
	7				8	5		
4		3	2					
	6			4	3	2		
		2	9	7		6	4	

Level: Beginner

**Here's How It Works:**  
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

### -PUZZLE- SODOKU - AUGUST - WEEK 3

5	9	6	7	1	6	4	5	
8	2	3	8	2	8	8	3	8
1	7	6	5	8	4	3	2	1
5	4	9	3	2	6	7	1	8
4	9	7	1	6	3	8	5	2
6	2	1	7	5	8	8	4	9
8	5	3	2	4	9	1	6	7
2	3	5	6	1	7	9	8	4
7	6	4	8	9	2	5	3	1
9	1	8	4	3	5	2	7	6

Tree Trimming & Removal. Brush Cleanup. All jobs big and small. We can handle them all!

~ When a Nation ~

A nation that does not acknowledge the one and true living God and He alone is supreme over it- when a nation forgets to believe that they can operate without the blessings of God- then that nation will begin to inherit evil leadership: rulers who will bring calamity and misery into that nation. This is why the church of Jesus Christ must pray.

The church that is founded upon God's Biblical principles must pray and ask God to overrule the evil that unprincipled leaders have allowed, that we as a nation do not get what we deserve, that God would extend mercy and help us recover.

But if the church strays from the gospel of the Holy Scriptures and God's will for His people, then the church can lose its rightful place, becoming like the Bible says in 2 Timothy 3:5, "having a form of Godliness and denying its power."

If this happens, then God has the right to remove their light and its anointing because it has become apostate and powerless. And it is God who rules the world that makes this judgment. The church of Jesus Christ is to be a visible vehicle for expressing His Kingdom upon this earth.

So to overcome what we as a nation are facing can only be turned around by God and Him alone.

# ASK THE MOTORMEDICS®

*Automotive Advice from the Under The Hood® Show*

**Dear Motor Medics,**

My car runs pretty well, and I am not one to bring it in just to have it checked over once in a while. I am more of the kind of person who visits the shop once the car has broken down. After listening to your show, I am thinking I may be able to save some money by doing some preventative maintenance instead of waiting for major breakdowns. Recently my brakes started making some noise, but they don't do it every day. How can I tell the difference between needing brake repairs or if it's just a little noise; and if I wanted to be proactive on brake maintenance how often should they be checked? I have been in before for a squeak and they said they were fine, just a little rusty.

Thank you,  
Joanne in Madison Wisconsin

**Dear Joanne,**

Routine maintenance will save you money on repairs. Regular inspections should be performed on safety items at each oil change and addressed as needed. These inspections are done for free at most shops so check around to see if yours does not offer this service. Inspect brakes annually and completely check them right away if there is a change in pedal travel or if noise is heard when applying them accompanied by grinding. Damp mornings can cause rust on the braking surfaces resulting in noise. This should go away after a couple of pedal applications and should not be felt in the pedal

**Dear Motor Medics,**

I am a longtime fan of yours and you have saved me countless dollars on repairs by teaching me how to do them myself, and when they are larger than I can handle you have taught me how to look for the best mechanic. I drive a 2012 Ford Explorer and I am getting ready to pull a trailer with it. I have owned it for several years and it has a hitch but no trailer light connector. This will be my first time pulling a trailer with this vehicle. Can I just tap into the taillights to connect my trailer light connector, or do I need something special? I don't want to cause a problem with the vehicle. I have also serviced the transmission and rear end prior to towing as well.

Thank you,  
Darren in Port Saint Lucy Florida

**Dear Darren,**

Great idea you had on the proactive transmission and rear differential service. Depending on the size of the trailer and load you may think about a transmission cooler if the Explorer is not equipped with one. For the trailer wiring you need to make sure you do not overload the electrical system. On this vehicle and many others, a tow wiring kit is advised. Available at most auto parts stores this kit takes its power from the battery directly and uses relays activated by the vehicles lights to power the trailer lights preventing damage to the vehicles system.

Take care,  
the Motor Medics

**Dear Motor Medics,**

I have several vehicles and only one driver in the house, me. 13 vehicles in all plus another five ATVs, 2 Jet Skies and 3 boats. I'm a collector, lover of vehicles, and maybe a number of other things but they all run well, and I enjoy having them around. My question is about batteries. It seems like I am always replacing batteries. I charge each one up using several chargers I have every couple months, but they seem to go dead every year or two. I use the small chargers at one amp and let them charge overnight. A few of the older cars seem to stay fully charged but the newer ones with computers are dead anywhere from three weeks to two months. What can I do to keep them charged longer.

Thank you,  
David in Tyler Texas

**Dear David,**

Dead batteries and keeping them from going dead have been a lifelong pursuit of vehicle owners since the beginning of vehicles. Vehicles with computers will draw more power even if they are shut down than a vehicle without a computer but they all will gradually go dead. Make sure that any charger you use is a battery maintainer, not a trickle charger. Trickle chargers will break down a battery if used too long causing overcharging and damage. Use a maintainer and leave it connected when the vehicle is not being used. They are usually less than \$40 each and keep batteries conditioned for many years.

Take care,  
the Motor Medics

**Dear Motor Medics,**

My questions are about oil changes. I recently had to replace the timing chains on my 2009 GMC Acadia, and I have a 2016 Chrysler Town And Country that has noisy lifters. My mechanic is telling me that my engines both have heavy sludge in them and that I should have changed the engine oil much more often which may have saved them. I only put five thousand miles or so on each one of the vehicles, so I change them both once a year. I don't think that changing the oil every three months is a smart idea with that low mileage.

Thank you,  
Reggie in Greenwood Indiana

**Dear Reggie,**

Your mechanic is correct. The problem is the low miles and short trips on the engines, not that you are not changing the oil sooner. When you drive short trips, the oil does not reach a high enough temperature for a long enough period to burn off all the moisture in the oil which will turn to sludge and leave damaging deposits. Also, using a regular filter instead of an extended drain long life filter leaves a possibility of the cardboard in the filter breaking down and clogging the engine causing major damage. If you used a better filter and made sure that the engine was running until fully warm each time it is driven your changes may be ok. But as it stands, more frequent changes are what is needed.

Take care,  
the Motor Medics

FOR ENTERTAINMENT ONLY • Always consult your local shop and follow all safety procedures before repairs.
