Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

~ Seek First ~

When God gives a mission to one of His children, and if they respond according to His purpose, then God provides everything needed for the work to be accomplished. The key to success is obedience to duty.

Jesus tells us all in Matthew 6, "I say to you, don't worry about your life, what you drink or eat, nor about your body. Is life not more than food or clothing? Look at the birds, for they neither sow or gather, yet your heavenly Father feeds them.

"Are you not more valuable? Which of you can add one minute to their life? Why do you worry about clothing? Consider the flowers of the fields, how they grow. They are here today and gone tomorrow. How much more will God help you. Do not have such little faith.

"Don't be worrying about your clothes, food, drink or what you'll wear. For this is what most of the people care about, and God in heaven knows what you have need of. But rather, seek first God's kingdom and His way of living our life.

"So do not worry about tomorrow. For God knows all these things. For tomorrow will have its own problems, and God already is sufficient to take care of this as well for you."

ASK THE MOTORMEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,
 I have a 2022 Mercedes with a backup camera problem. The camera is not very clear when compared to my BMW or any of my other family cars. The last 2022 model car also had a poor-quality camera. Is there something that can be done about the image quality? My dealership says that is just the way it is. I just can't believe that a car of this quality would consistently have a poor camera for several years.
 Thank you,
 Raymond in Clearwater Florida

Dear Raymond,
 You would think that a high-end car would have some high-end things. The radio, the heat and air, and generally all the electronics on the car but it's not always the case. We have seen some very poor headlights and cameras on even the highest dollar vehicles. As for your specific situation, we would contact a local car audio/entertainment shop and see what they have to offer. If the problem is in the camera itself and not within the dash unit then it may be able to be fixed. Some car models can have the camera replaced with an aftermarket unit that will look the same and interface directly and work as it should with a clear picture. If they say that it can't be done, then you can check with another shop and if there is no option then you may have to live with the poor-quality image and hope the next model has a better unit.

Take care,
 the Motor Medics

Dear Motor Medics,
 I just bought a 2014 GMC Sierra 1500 truck for my son to drive to college which is a 4 hour drive each way. We had the used car inspection done like you promote and during that inspection we did find significant repairs needed and the seller was willing to help us with those repairs instead of lowering the price and we were ok with that. After one trip in the dark though, we found that the headlights on the low beam were horrible. Not just weak but dangerous to see. Is there anything that can be done to improve them? Online reviews also list them as terrible.
 Thank you,
 Perry in Lake Andes South Dakota

Dear Perry,
 We have had the same experience in our own trucks with this model of headlight. The beam is what is called a projector beam like an old projector we had back in school days and is supposed to give a non-blinding light beam that illuminates the road better. With this model of light, it didn't work so well. For us and many others, since it is a projector housing, we upgraded to an LED lamp and our light output greatly increased without being blinded to other traffic. Never put that kind of bulb in a regular light housing as that makes it one of those offensive headlights that you meet on the road which blind you. Ask your local shop what they recommend for the situation too.

Take care,
 the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers

REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.

If You Want To Sell.
