Scientific Hay Conserver

This is considered a 'drought year' and wildfires are everywhere. This is going to be a TOUGH feeding season.

On average, the GoBob Scientific Hay Feeder saves \$150.82 per head LESS hay than other hay feeders.

The Okla State University Dept of Animal & Food Science helped us revamp our feeders to maximize feeding efficiency.

WE DELIVER!

Check out this awesome video on our website which breaks down the cost of hay waste and how you can save money!

HOROSCOPE

WEEK OF NOVEMBER 17 TO 23, 2024

THE LUCKIEST SIGNS THIS WEEK: LEO, VIRGO AND LIBRA

- ARIES**
Communication may be difficult this week. You won't be able to reach certain people. However, suddenly they'll be the first to contact you, and your phone will be ringing off the hook.
- TAURUS**
You'll be quite popular this week, and you'll have a lot to share. Your social life will be very active, whether in person or online. Expect your partner to spoil you with acts of kindness.
- GEMINI**
Shopping will take up some of your time this week, and you'll be inspired to redesign your home. You might even be tempted to buy some early Christmas decorations.
- CANCER**
Your imagination will know no bounds this week! However, you might get into a bit of a slump. You'll immerse yourself in creating a work of art or indulge in binge-watching a TV series. Creativity is key.
- LEO**
You may not always thrive in crowds, but you'll come across inspiring individuals who'll motivate you to take on new challenges. Expect to develop meaningful new friendships.
- VIRGO**
You may procrastinate this week, but your loved ones will help you get your priorities straight while keeping things light. You may have a new lease on life after this experience.
- LIBRA**
A spontaneous trip is on the horizon, even if you think it's unrealistic. On the job, you'll work with a diverse clientele that will bring you abundance. Keep an open mind when opportunities arise.
- SCORPIO**
You'll need to take on many responsibilities at work and home. Your hard work will be acknowledged, and you'll be rewarded for your efforts. Recognition and gratitude are coming your way.
- SAGITTARIUS**
Change is coming! Go with the flow, and your worries will fade away. Sentimental projects will happen faster than expected. Be open to opportunities.
- CAPRICORN**
You must address financial, professional or personal matters; negotiations may become tense. You must strike the right balance in all aspects of your life to find peace.
- AQUARIUS**
Love will take up a big part of your week. Prepare to be romanced! Expect an awkward, perhaps unexpected and unreciprocated confession of love from a colleague.
- PISCES**
Take some time off to recover from a cold. Spend a few days at home and bring some work home with you over the weekend to catch up. The moon will boost your imagination, inspiration and intuition.

~ God Can ~

God can use those men and women who are not distracted by this world, whose main interest is in eternal things of the heavenly realm and future for the souls of mankind and not so much the cares and concerns of this world's enticements. God is less concerned about a person's talents and much more interested in a man or woman's character.

God is always able to use a person whose life is not influenced by others or worldliness, whose main interest is the Kingdom of God and the advancement of the gospel, who's always available to be called upon by God and who seeks to make themselves valuable to His business.

God can always use that man or woman who wants to be more than just a nominal Christian, who truly does want to do the will of God, who solely wants to focus themselves on God's purposes for their lives and make the attempt to accomplish something greater than themselves, but to do it for God and see what He can do through them. How available is your life in service to God?

ASK THE MOTOR MEDICS[®]

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I own a 2005 Chevrolet Impala that I bought used in March of 2006 with 8,000 miles. The vehicle now has 182,000 miles so it does not sit still very often. I have been having problems with the speedometer and other instrument cluster gauges not working correctly. Sometimes the speedometer will stick on 60 and not drop down until I shut off and restart the car. Is this a common problem with this type of vehicle and if so, how do I fix it?

Thank you,
Doug in Minneapolis

Dear Doug,

We have repaired several of these, but many are still ticking with well over 200,000 miles on them. A general repair shop should be able to diagnose the issue and if they find that it is within the speedometer, they can replace the unit with a rebuilt unit that is available from most auto parts stores. The units come pre-programmed for easy installation. When they order the unit, it can take a couple of weeks or so as they need to send your vehicle information like mileage and identification number to the manufacturer of the unit so that they can enter it into the replacement. Once it arrives your shop can install the unit and they will have you sign a mileage affidavit stating that the mileage you gave them to enter the replacement was correct. They will then box up the old unit and send it back as a core.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2005 Dodge Caravan SE that we bought used, and it was not equipped with power windows, door locks, or power sliding doors. We would really like to add these features and keyless entry. Can this be done for a reasonable price and where do we go to get it done?

Thank you,
Dan in Colorado

Dear Janet,

Power features have become standard on vehicles or at least it seems that way. More and more vehicles, especially ones that are used for hauling the family like a van seem to almost always have full power in them. It is a rarity for one to come into our shop that does not have at least power windows and locks, but they are out there. The cost of the accessories will be dependent on the shop and the quality. As for adding them to the front doors, that should not be that big of an issue. Many companies offer aftermarket power windows and lock kits, and remotes can be added easily as well. The power sliding doors are another story, and I have not seen anyone who makes an aftermarket unit for those, but they may be out there. Power slides can be very difficult to work on and I have fought with my share. Check around with local vehicle accessory shops that install cruise controls, air conditioning, remote starts, etc. These types of shops often install power accessories like this as well.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2022 Mercedes with a backup camera problem. The camera is not very clear when compared to my BMW or any of my other family cars. The last 2022 model car also had a poor-quality camera. Is there something that can be done about the image quality? My dealership says that is just the way it is. I just can't believe that a car of this quality would consistently have a poor camera for several years.

Thank you,
Raymond in Clearwater Florida

Dear Raymond,

You would think that a high-end car would have some high-end things. The radio, the heat and air, and generally all the electronics on the car but it's not always the case. We have seen some very poor headlights and cameras on even the highest dollar vehicles. As for your specific situation, we would contact a local car audio/entertainment shop and see what they have to offer. If the problem is in the camera itself and not within the dash unit then it may be able to be fixed. Some car models can have the camera replaced with an aftermarket unit that will look the same and interface directly and work as it should with a clear picture. If they say that it can't be done, then you can check with another shop and if there is no option then you may have to live with the poor-quality image and hope the next model has a better unit.

Take care,
the Motor Medics

Dear Motor Medics,

I just bought a 2014 GMC Sierra 1500 truck for my son to drive to college which is a 4 hour drive each way. We had the used car inspection done like you promote and during that inspection we did find significant repairs needed and the seller was willing to help us with those repairs instead of lowering the price and we were ok with that. After one trip in the dark though, we found that the headlights on the low beam were horrible. Not just weak but dangerous to see. Is there anything that can be done to improve them? Online reviews also list them as terrible.

Thank you,
Perry in Lake Andes South Dakota

Dear Perry,

We have had the same experience in our own trucks with this model of headlight. The beam is what is called a projector beam like an old projector we had back in school days and is supposed to give a non-blinding light beam that illuminates the road better. With this model of light, it didn't work so well. For us and many others, since it is a projector housing, we upgraded to an LED lamp and our light output greatly increased without being blinded to other traffic. Never put that kind of bulb in a regular light housing as that makes it one of those offensive headlights that you meet on the road which blind you. Ask your local shop what they recommend for the situation too.

Take care,
the Motor Medics
