The Ten Commandments

I. Thou shalt not have strange Gods before me

II. Thou shalt not take the name of the Lord thy God in vain

III. Rest on Holy Sabbath Day & Keep it Holy

IV. Honour thy father and thy mother

V. Thou shalt not kill

VI. Thou shalt not commit adultery

VII. Thou shalt not steal

VIII. Thou shalt not bear false witness against thy neighbour

IX. Thou shalt not covet thy neighbour's wife

X. Thou shalt not covet thy neighbour's goods

BIG NICKEL BRAIN GAMES

-PUZZLE- SODOKU

PUZZLE NO. 1006

-NOVEMBER- WEEK 4

HOW TO PLAY:

Fill in the grid so that every row, every column and every 3x3 box contains the numbers 1 through 9 only once.

Each 3x3 box is outlined with a darker line. You already have a few numbers to get you started. Remember: you must not repeat the numbers 1 through 9 in the same line, column or 3x3 box.

HOROSCOPE

WEEK OF
NOVEMBER 24 TO 30, 2024

THE LUCKIEST SIGNS THIS WEEK:
SCORPIO, SAGITTARIUS AND CAPRICORN

ARIES

Finding the balance with different aspects of your life can be challenging. However, making a few small adjustments will change everything. When it comes to your health, make sure you get enough sleep to strengthen your immune system.

TAURUS

You may toy with the idea of starting your own business. You'll start to pursue new professional goals and meet new people, which could lead to valuable collaborations in the future.

GEMINI

You'll be in the spotlight this week, whether in front of an audience or on social media. Success is on the horizon! Expect to be recognized and applauded for something.

CANCER

Cleaning your home will help free your mind and eliminate confusion. You may need to assert yourself in a specific situation to maintain control.

LEO

You may receive criticism this week or deal with people who beat around the bush. Be patient and diplomatic to clarify any confusion that arises. Your perseverance will pay off.

VIRGO

You may come into a large sum of money, whether through an insurance claim or inheritance. Be tactful in situations where patience may be running thin.

LIBRA

Positively channel your extra energy by engaging in physical activity. This will keep your spirits up. Having an outlet is essential for your overall well-being.

SCORPIO

Your head will be full of ideas and worries. You may start thinking about a new career path, and opportunities will present themselves. Be open to opportunities for change.

SAGITTARIUS

At work, you may have to serve a crowd or participate in a large event. It can benefit your career and finances, but you must be prepared to handle challenging requests.

CAPRICORN

This time of year sees some businesses facing a period of change. Despite your worries, this situation could work out well for you. You'll move forward while others may leave.

AQUARIUS

You'll be inspired to go on a spontaneous adventure. Pressing matters at home may require your attention. Get ready to spend money on a trip or home improvements.

PISCES

Opposing points of view and unexpected changes may come up. It's important to be patient and determine the best course of action once the situation settles down.

~ Big Gamble ~

We stand between this today: two mighty eternities, the past that either controls us or we're moved forward from, and the future that has no end. For those that follow Jesus, their future will be brighter.

How we live leads to our eternal destination. Some people say they don't believe in God, or they never consider anything about who God is or what God does. Yet one day there will be a day in which they will have wished they had believed.

People gamble each day with their lives. The people of America need to get their heads out of their carnal flesh and discern the signs of the times that say something is changing and the events of the day are pointing to something in the future.

Many people are headed toward some kind of eternity, heaven or hell. To neglect this is to take the big gamble. Who is right and who is wrong? Time will prove it out.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

With all the choices of electric cars on the market today I have started to take a closer look at them. I've looked at the different models and the available incentives that have recently come into the market and have decided that an EV may be the right choice for me. I have narrowed my choices down to two different models based on their range and their price point. The first one is a Ford Mach E and the second is the Hyundai Ionic. What have you seen in terms of the reliability of these two cars and being that I only have a twenty minute commute each day, do you think that an EV is the way to go for me?

Thank you,
Mark in Branson Missouri

Dear Janell,

A new car is a big step for anyone let alone changing from a internal combustion vehicle to an electric. There are many things to consider when making the first step to EV ownership. You have looked at the range of cars, which is very important but driving only 30 miles a day for a commute can be done by most any EV. Have you considered where you are going to charge it? The other thing is, do you own another vehicle? If this will be your only car then map out a long road trip and the places to charge along the way taking into consideration the time to charge. These are important starting points.

Take care,
the Motor Medics

Dear Motor Medics,

Hello guys! I have a 2016 Cadillac Escalade with lots of LED lights on it. Lately I have been having many failures with them and the electrical system in general. The first thing to go was the radio and then the dash decided it was time for the right half to lose about half of its brightness. On occasion if I hit the top of the dash or a hard bump it will come back on. The dealer said it needs an entire dash but that is over 1k dollars. I also have a right rear taillight that has gone out and its over 1k dollars. Can the bulbs just be changed?

Thank you,
Dan in Colorado

Dear Joshua,

Welcome to the modern electric age. Cars have become more electrified as they have become newer with more systems becoming unified with no serviceable parts. They are basically throw away units or, as we like to say, properly recyclable. The dash does have to be replaced as a unit but there are some companies who rebuild them on the internet. Look around before spending the big dollars on a new one. As for the taillights, they also are non-serviceable units. All the led lights contained in the unit are as one piece and the unit must be replaced. To save some cash on both parts try a certified auto recycler near you. They can save you a lot.

Take care,
the Motor Medics

Dear Motor Medics,

I heard you guys on a recent show discussing vehicle warm-up times and heard you say it was not necessary to warm up a fuel injected vehicle. I thought that all vehicles should be warmed up to get the oil flowing at least a little bit. If this is so, how long is a good warm-up time?

Thank you,
Brandon in Dayton Ohio

Dear Brandon,

There was more to what we were talking about that you must have missed. While we said that the fuel injected vehicles manufactured in the past few years could be driven right away due to better parts and efficient injection systems we still recommend some warm up time. We have heard some people even say just start them up and drive them to warm them up faster although we don't agree with that. There has to be a proper medium between running a vehicle too long to warm it up which wastes fuel and taking off so soon that the defroster won't even keep a windshield clear posing a safety hazard. The owner's manual will provide a good reference for warm ups. For us personally we tend to err on the longer side of warm up times. We like to make sure everything is lubricated and working as it should. It also gives us a chance to do some important things like adjust those mirrors, fasten our seat belts, and most importantly, turn off our cell phones for safety.

Take care,
the Motor Medics

Dear Motor Medics,

My question is about accessories plugged into a lighter socket. Recently I have been experiencing dead batteries on my 2009 Cadillac Escalade and they tell me it's caused by the accessories that I leave plugged into the lighter at all times. If the vehicle is not driven every day it will not start and is completely dead. I question how something as small as a cell phone or GPS unit can drain a battery so quickly, is this possible? I have stopped leaving things plugged in and have had no further issues but wonder if it's not just a weak battery. What are your thoughts?

Thank you,
Darla in Elmira New Yor

Dear Darla,

It may sound strange but when anything is left plugged into the accessory outlet it can run the battery dead. Yes the power drain is very small and would take many days to drain a battery but there is something much larger at work here. Newer vehicles have many modules that when awake (turned on) will draw several amps of power and would drain a battery very quickly. To prevent this drain the modules go into a sleep state just like a home computer in sleep mode. They know when to sleep by monitoring the systems for non-use just like a home computer. If something is being charged by the lighter socket they think the system is still in use and keep the modules powered thus draining the battery quickly.

Take care,
the Motor Medics
