Bob Says %*^&@!!

That Means:

Our PAIN, Your GAIN!

We had a GREAT End-of-Year Sale

GoBob reps were able to help alot of customers figure out their net cost with EOY discounts and IRS Tax savings.

MOST OF IT SOLD FOR UNDER HALF PRICE!

In moving all that equipment around and checking serial #'s, we found some 2022 & 2023 equipment we had apparently lost track of. Squeeze chutes, hay trailers, gooseneck flatbed, a portable cattle working system and some misc pieces of cattle equipment. We even found some gates and continuous fence panels that are now weathered.

Bob is unhappy (actually VERY unhappy) but he says: "Get rid of it before it gets older!"

EVERYTHING will be discounted depending on how it looks and how old it is.

If there is something you're interested in and you like the price, we will go and take pictures of it and text or email them to you.

HOROSCOPE

WEEK OF JANUARY 5 TO 11, 2025

- ARIES**
If you're on holiday, take the opportunity to explore outdoor activities with family or friends. You may feel an intense urge to get active. Even alone, you'll want to go on outings to feed your adventurous spirit.
- TAURUS**
You may feel confused and easily distracted this week. Fatigue will catch up with you. Make sure you take advantage of your days off, if you have any left, to recuperate. You may also take on a heavy workload this week.
- GEMINI**
The party goes on! You still have plenty of opportunities to celebrate, and you'll be invited to many events. At work, you'll have to deal with demanding clients, and you'll find time is a precious commodity.
- CANCER**
Make every moment count, and don't neglect your responsibilities. Your boss may ask you to come back to work during your vacation. Your family may also put a lot of pressure on you this week.
- LEO**
You may plan a spontaneous trip or getaway. You'll be thrilled about the prospect of starting a new apprenticeship. If you're going back to school, you'll take it very seriously.
- VIRGO**
You'll start the year off with a powerful surge of emotions. You'll dive into a whirlwind of thrilling challenges, both in your professional and personal life. Brace yourself for a fresh beginning. You may be congratulated for an achievement.
- LIBRA**
Stay on your toes this week. A misunderstanding with someone close to you could disrupt your daily routine. You may have to tread carefully around certain individuals, feeling as if you're walking on eggshells.
- SCORPIO**
It's time to put aside distractions and focus on housework. The holidays are over, and you need to get down to business. At work, an amazing opportunity will open up after a colleague's unexpected departure.
- SAGITTARIUS**
Now is the perfect time to prioritize self-care and self-respect. You'll discover what you're passionate about and start taking the first steps toward an incredibly rewarding challenge.
- CAPRICORN**
Whether you're on vacation or not, you'll spend a lot of time with your family or in the home. Take advantage of the next few days to refresh your decor and reorganize your furniture to declutter your home and mind.
- AQUARIUS**
You feel under pressure and are concerned about your finances. It can be tough to find balance in times like this. You might find yourself surrounded by people when you crave solitude, yet feeling lonely when you're on your own.
- PISCES**
Take advantage of this quieter time to handle your returns and exchanges either online or in store. You'll stumble upon some exciting deals and promotions and won't hesitate to treat yourself to some well-deserved rewards.

The luckiest signs this week:
GEMINI, CANCER AND LEO

~ All Who Accept ~

The payment for sin was paid for everyone by Jesus publicly before the eyes of the world as a life-giving sacrifice, the final and only atonement for sin. By the shedding of the blood of Christ as remission for all sins, the world is saved from sin. But most have never experienced it because they know not Christ.

Sin demands punishment, and so God demonstrates His grace to mankind by giving His Son, Jesus, as the forever sacrifice to cleanse anyone from sin who would come to Christ and confess and repent of their sin. By Christ's own crucifixion upon a cross there, God gave His only begotten Son who was innocent of any sin. There God extended you His grace to be forgiven.

All who accepts this receive this new life offered to them by being reborn as a new creature, the Bible tells us. For those that put their faith in Jesus and confidently rely on Him as their Savior, they will have eternal life in heaven, and it will be seen in how they live in such a way that overcomes the sinful attractions and actions of this world.

ASK THE MOTOR MEDICS®

Automotive Advice from the Under The Hood® Show

Dear Motor Medics,

Hey guys, I have a 2021 GMC Yukon with a tow package. I use the vehicle as an everyday driver and a lot of that time is spent towing a trailer. I have a small construction company, and I am always on job sites and picking up nails in my tires. I have become used to the flat tires and all the tire repairs that come with them. I have a bigger concern though. It's my trailer. I have plenty of flat tires on it as well and a few times those have been on the road causing an unsafe condition with the trailer. The truck has a low tire monitor, but the trailer does not. What is the best way to monitor the trailer tires?

Thank you,
Moe in Bowling Green Kentucky

Dear Moe,

When the tire monitors are working correctly, they are a great safety option but so many get neglected, and people end up driving around with a low tire light on. On the new Yukons such as yours and the Silverado trucks equipped with a tow package most have an option to purchase extra tire monitors to be installed in the trailer tires which can be monitored right from the dash screen like the vehicle tires. This makes it very convenient, and you can also program in different trailer profiles. Check with your GMC dealer for information on the sensors and to purchase them. This should greatly help you when trying to make sure that your tires are inflated to a safe pressure.

Take care,
the Motor Medics

Dear Motor Medics,

I have six vehicles in our family ranging from two months old to six years that my wife and I drive and our three kids. Two are trucks and four are cars. None of them are showing visible rust yet but they get driven in the Minnesota winters where the roads are heavily salted, which has been the cause of the replacement of all our cars since they were rusted too heavily and deemed unsafe. Is there anything that can be done that actually works to rustproof a vehicle? There are so many coatings around here and electronic devices to prevent rust and we just don't know what would be best. We have never rust-proofed our vehicles before.

Thank you,
Robert in St James Minnesota

Dear Robert,

In our shop we have seen all those products come through with some that appear to be more snake oil than rust preventive. If we had to list them in order of how well they worked by the amount of rust we see on the vehicle we would definitely rate the electronic units in the last place and the oil-based products first. The oil-based products are sprayed on to a clean vehicle covering the entire bottom of the car and frames on trucks. They are typically used on newer vehicles. Find a local applicator for more information.

Take care,
the Motor Medics

Dear Motor Medics,

I heard you guys on a recent show discussing vehicle warm-up times and heard you say it was not necessary to warm up a fuel injected vehicle. I thought that all vehicles should be warmed up to get the oil flowing at least a little bit. If this is so, how long is a good warm-up time?

Thank you,
Brandon in Dayton Ohio

Dear Brandon,

There was more to what we were talking about that you must have missed. While we said that the fuel injected vehicles manufactured in the past few years could be driven right away due to better parts and efficient injection systems we still recommend some warm up time. We have heard some people even say just start them up and drive them to warm them up faster although we don't agree with that. There has to be a proper medium between running a vehicle too long to warm it up which wastes fuel and taking off so soon that the defroster won't even keep a windshield clear posing a safety hazard. The owner's manual will provide a good reference for warm ups. For us personally we tend to err on the longer side of warm up times. We like to make sure everything is lubricated and working as it should. It also gives us a chance to do some important things like adjust those mirrors, fasten our seat belts, and most importantly, turn off our cell phones for safety.

Take care,
the Motor Medics

Dear Motor Medics,

My question is about accessories plugged into a lighter socket. Recently I have been experiencing dead batteries on my 2009 Cadillac Escalade and they tell me it's caused by the accessories that I leave plugged into the lighter at all times. If the vehicle is not driven every day it will not start and is completely dead. I question how something as small as a cell phone or GPS unit can drain a battery so quickly, is this possible? I have stopped leaving things plugged in and have had no further issues but wonder if it's not just a weak battery. What are your thoughts?

Thank you,
Darla in Elmira New York

Dear Darla,

It may sound strange but when anything is left plugged into the accessory outlet it can run the battery dead. Yes the power drain is very small and would take many days to drain a battery but there is something much larger at work here. Newer vehicles have many modules that when awake (turned on) will draw several amps of power and would drain a battery very quickly. To prevent this drain the modules go into a sleep state just like a home computer in sleep mode. They know when to sleep by monitoring the systems for non-use just like a home computer. If something is being charged by the lighter socket they think the system is still in use and keep the modules powered thus draining the battery quickly.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS WRITING A SUCCESSFUL AD

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s).

Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable.

Choose a main benefit of your merchandise and feature it in a headline. Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers. Multiply insertions help prospective buyers/readers REMEMBER the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.
