ANNIVERSARY
1975-2025 **HOT SPOT Classifieds**

Bob Says

"%*^&@!!!"

**"Our Pain
Your Gain"**

We had a GREAT End-of-Year sale.

GoBob reps were able to help alot of customers figure their net cost of equipment after our EOY discounts, Section 179 tax savings and the Bonus Depreciation left over from Trump Tax cuts & Jobs act.

Bob is Unhappy!! (actually VERY UNhappy) In moving all that equipment around and checking serial #'s, we found some 2022 & 2023 equipment we had apparently lost track of. He said "Well, we got to sell it, so sell it before it gets any older!" (not exactly what he said, but that's what he meant).

We found a couple squeeze chutes, three hay trailers, a gooseneck flatbed, a portable cattle working system and some misc pieces of cattle equipment. There are some corner sets and H-braces too. We found some gates and continuous fence panels that are now weathered.

EVERYTHING will be discounted depending on how it looks and how old it is.

FIRST CALLS, FIRST SERVED!

If there is something you're interested in, and you like the price, we will go take pictures of it and text or email them to you.

HOW TO PLAY:

Fill in the grid so that every row, every column and every 3x3 box contains the numbers 1 through 9 only once.

Each 3x3 box is outlined with a darker line. You already have a few numbers to get you started. Remember: you must not repeat the numbers 1 through 9 in the same line, column or 3x3 box.

HOROSCOPE

WEEK OF JANUARY 12 TO 18, 2025

- ARIES**
You'll spend a lot of time looking for a new home. You may also consider changing your decor or making home improvements. Be prepared for unexpected family needs that might demand your energy.
- TAURUS**
Your words won't go unheard, especially by those who want to silence you. Speaking your truth could be the secret to overcoming challenges and forging a path to success.
- GEMINI**
Get ready for some fun events this week! At work, you'll be assigned new responsibilities. To top it all off, you'll be given a raise in recognition of your hard work.
- CANCER**
Staying active is a great way to shake off any feelings of sadness. Whether you're following a training program or participating in a sport, moving your body is crucial for burning off pent-up energy.
- LEO**
You'll soon receive the guidance needed to take your career to the next level. You'll finally find the perfect solution to a long-standing health issue that's been bothering you.
- VIRGO**
At work, you'll be swamped with customers; at home, there'll be non-stop family activities to organize. Everyone is counting on you to plan everything.
- LIBRA**
You're back at work and impressing others with your efficiency. This hard work will lead to a well-deserved promotion. You're on track to be offered the boss's chair or an opportunity to start your own business.
- SCORPIO**
After a disagreement, you'd rather seek out new adventures than get caught up in conflict. With your wisdom, you'll enjoy life to the fullest and steer clear of negative influences.
- SAGITTARIUS**
You'll feel quite sensitive this week. It will be easy to feel like the world is working against you. This could be life's way of telling you it's time to start making the changes you need to feel more at peace with yourself.
- CAPRICORN**
Before you make any decisions, take a moment to weigh the pros and cons. An opportunity will present itself, whether it's a chance to dress up for a fancy business dinner or a romantic evening out.
- AQUARIUS**
You'll have a lot of work to do this week and lots of important details to keep track of. Carefully listen to conversations and speeches, as crucial information will be revealed.
- PISCES**
You'll accomplish something that will put you in the limelight. Even if you're not used to all the attention, you'll find the confidence to bask in your well-deserved success and embrace the spotlight.

The luckiest signs this week:
VIRGO, LIBRA AND SCORPIO

~ The Danger Zone ~

What I'm writing should be deeply considered as the days continue to unfold. The Bible is a road map, an informational guide with lessons from the past with insight into future events to come. The book of Judges, the Chronicles, and First and Second Kings lays out the ways that leaders lead the people, how they respond to God's instructions, and the results of their actions.

In the Bible we can read how leaders acted and read the results of their actions. The more wicked the leadership, the nastier the results as they intentionally walked themselves into a dangerous place.

We see the most ungodly leaders this nation has ever experienced, whether in our cities, states or Washington D.C. People who are fully engaged in every type of wicked behavior, causing our people to be involved in all types of evil activity. This is bringing judgment on America, just like it did Israel when unprincipled leaders led the nation astray. Read the book yourself and see what God does to a nation that rejects Him and turns to their own reasoning.

ASK THE MOTOR MEDICS[®]

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I drive a 2019 Ford Escape with a 1.6 engine. It's a turbo 4x4 automatic. I only put 90k miles on the vehicle before the timing belt broke and caused severe damage to the engine causing it to need to be replaced. We were hesitant to replace it with a used engine, but we did so due to the very high cost of a new engine. The replacement engine was installed with a new timing belt, spark plugs, thermostat and water pump. When we picked up the vehicle, we were told that the timing belt should be replaced at 5 years or 60k miles whichever comes first and also that the spark plugs be replaced much sooner than expected. We were under the impression that the timing belt should be done at 100k. What should we do to protect this investment?

Thank you,
Dalton in Missouri

Dear Dalton,

We see a large number of these engines come in for replacement in our own shop and most of them have failed due to a broken timing belt. Most of these engines also have between 70 and 95k miles on them. That is a perfect indication that the belts should be replaced much sooner than you think. On belts of this type, we suggest 5 years or 60k miles and using that time frame we have not seen a failure. The spark plugs also need to be replaced much sooner than 100k because of the high stresses caused by a high-horsepower 4-cylinder turbo engine. Follow your mechanics advice.

Take care,
the Motor Medics

Dear Motor Medics,

I'm trying to win an argument with my friend about four-wheel drive vs all-wheel drive. He has a jeep with a lever on the floor that says 4x4 high and 4x4 low and neutral and I have a Jeep that has a lever on the floor that says 4x4 high 2wd high and 4x4 low. He says that his vehicle is a 4-wheel drive, and I tell him mine is a 4-wheel drive and his is an all-wheel drive. Who is correct?

Thank you,
Greg, in Kansas City Missouri

Dear Greg,

Well, this is an age-old discussion. While all all-wheel drives are 4-wheel drives. Not all 4-wheel drives are all-wheel drives. An all-wheel drive turns all 4 wheels, so they are technically 4-wheel drives. An all-wheel drive only turns the wheels with less traction through use of a differential and can't be placed in a 2-wheel drive position. All-wheel drive vehicles don't lock the front and rear together which gives you better traction but also prevents heavy driveline wear. As for who wins this battle over who is right, we are going to let you battle that out between yourselves. Either way you look at it, you both have very capable winter vehicles that have proven themselves to be very reliable. Make sure you properly maintain both styles of transfer case systems to keep them going longer.

Take care,
the Motor Medics

Dear Motor Medics,

I'm about ready to start hauling my trailer for the season and will be using more than one vehicle. What kind of things should I be thinking about before heading out with a trailer?

Thank you,
Mike in Decorah Iowa

Dear Mike,

I'm glad that you're thinking ahead. Too many people just assume the vehicle they have is ready just because it has a hitch on the back. The first place to start is to make sure what you are pulling can safely be towed without overloading your vehicle, once that it done a safety inspection is in order. All of the items that the vehicle needs to operate such as steering, brakes, cooling, etc. will now be done for two so if it can't handle itself how will it handle towing? Have the vehicle raised on a hoist to check the suspension and brakes, replace worn parts for safety. Check the tires and make sure they are properly inflated and not cracked. Also check their load rating. Check the condition of the hitch and light wiring and inspect your engine and transmission cooling systems. Dirt and debris should be rinsed away from the cores with low pressure water. If you do not have a transmission cooler ask your mechanic about one, it may save you from having a transmission replaced prematurely. Don't forget to check the trailer for safety as well. Be sure to ask your mechanic about further towing preparations.

Take care,
the Motor Medics

Dear Motor Medics,

Last year I spent almost \$2500.00 on air conditioning repairs to my 2018 Dodge Caravan. They just said it had a complete failure and that's the way it is. They did not offer any maintenance advice. We usually keep our vehicles just until the warranty is about to expire then trade, but with a budget minded focus lately we have decided to keep our vehicles longer. That money covers several payments but we still feel it's cheaper in the long run to keep the vehicles a few more years. Is there anything we could have done to have possibly avoided this?

Thank you,
Darrin in Nashville Tennessee

Dear Darrin,

Many people have decided to keep their vehicles longer and we think this is a good idea to save money. To make sure you avoid unexpected repairs as much as possible, find a good mechanic you can trust and get on a regular maintenance schedule. In our own shop we see many vehicles fail that would not have if the driver would have done some simple low cost upkeep. In the case of air conditioning it is important to inspect the system for visible oil leaks and repair them before further use of the system. It is also important to service cabin air filters and have the condenser cleaned as needed. Any leaks in the system or overheating due to dirt can be catastrophic. These simple checks can help you avoid costly repairs.

Take care,
the Motor Medics
