HOW TO PLAY:

Fill in the grid so that every row, every column and every 3x3 box contains the numbers 1 through 9 only once.

Each 3x3 box is outlined with a darker line. You already have a few numbers to get you started. Remember: you must not repeat the numbers 1 through 9 in the same line, column or 3x3 box.

HOROSCOPE

WEEK OF
MAY 11 TO 17, 2025

ARIES

You may feel overwhelmed by the ups and downs in your love life or challenges in your career this week. You may feel like running away from your problems. To avoid confusion, resist the urge to let impulsiveness drive your decisions.

TAURUS

You may be faced with the challenge of bringing together individuals or groups of people with differing interests. However, with the right arguments, it's possible to achieve the improbable. The key is to respect each other's points of view.

GEMINI

It's time to reassess your social circle, especially if some friends act like parasites and drain your energy. Give yourself a moment to relax and indulge in therapeutic activities that rejuvenate you.

CANCER

Believing in yourself is crucial for reaching your goals. Remind yourself of your capabilities, and you'll feel a sense of pride in your accomplishments.

LEO

This week, you'll devote your time and energy to someone close to you and the improvement of your living environment. You'll be inspired to take a new approach to life and find joy in the little moments.

VIRGO

Be careful not to speak unwisely this week. Don't reveal any secrets. You may have to interact with someone with limited language skills, which could lead to misunderstandings.

LIBRA

You'll find the financial resources you need for an ambitious project. Whether you're investing in real estate or starting a new business, you'll be successful. Your words will attract attention.

SCORPIO

Now is the perfect time to book your summer vacation. Adventure is calling! You'll be guided to exciting new places and experiences. Remember to prepare essential documents like your passport.

SAGITTARIUS

If you're feeling more exhausted than usual, heed the message your body is sending and take a step back. It's also important to prioritize rest to recharge your energy and maintain your vitality.

CAPRICORN

Where romance is concerned, you may experience love at first sight. You'll devote more time to enriching your social life, even if stress-induced fatigue tries to hold you back.

AQUARIUS

At work, you'll be overwhelmed by heavy responsibilities. Embrace these challenges despite the difficulty, as they could bring promising opportunities that lead to a well-deserved promotion.

PISCES

This year, you'll take the lead in planning a summer vacation with family and close friends. Expect unforgettable moments and seize every opportunity for adventure that comes your way.

The luckiest signs this week:

~ The Original Wireless Connection ~

The best way for communication with God is still the original wireless method of prayer. Its distance has no limits. Your call is always taken. There is no place from where your signal cannot get out.

You'll always be able to make the connection. The switchboard is operated 24/7. It is never too late nor too early to make contact, and heaven's throne is always glad to hear from you.

They want to talk to you about what is going on in your life. The method of prayer is found in God's book, a great directory of life-changing information.

I truly believe that when prayer makes its advances into society that we, as Americans, still have a chance at seeing our nation come back to God, just as God did turn Israel from the error of its ways, as the Bible tells us.

We must never give up on prayer. We can't. We must believe, we must try, and have faith. For, God does hear our prayers and knows just how to answer them.

ASK THE MOTORMEDICS[®]

Automotive Advice from the Under The Hood[®] Show

Dear Motor Medics,

I have a 2007 Buick Lesabre and under the back of the vehicle there are what appear to be shock absorbers and they have air lines attached to them. They both are leaking what I assume is oil and I hear a noise that lasts for about four minutes each time I start the car. This noise used to last only about 10 seconds if it happened at all.

I have several questions. Does this mean the shocks are bad? Is the noise I hear the air compressor that fills the shocks? Can I let it go for a while because it seems to still ride well? How expensive is it to repair this problem?

Thank you,
Lamont in Okoboji Iowa

Dear Lamont,

You have load leveling shock absorbers in back which means they not only control the firmness of the ride, but they level out the vehicle when extra weight is added to it. When a shock leaks or the vehicle has an excessive bounce, it is an indication of the need for replacement. Oil is used in the dampening of the shock and when it leaks out the shock can no longer control the bounce compromising your safety. If you leave the shocks the way they are the compressor which you hear running will eventually burn out and be very expensive to fix. These shocks are usually available at most auto parts stores for a reasonable price and take about one hour to replace them.

Take care,
the Motor Medics

Dear Motor Medics,

Our 16-year-old twins have just started to drive and we're a little worried. We took your advice about finding a used car and having it inspected before we purchased it and were able to negotiate repairs for some safety issues on one of them before we took possession, so we are ok with the cars. What we are worried about is that in addition to the car we supplied our children with new cell phones. We have lectured on the dangers of texting and driving more than once but with the large number of messages sent daily from their phones the temptation is too great. We have seen them texting as they drive away and pull in, so we know it is happening. We don't want to take away the phones because we feel much safer when we can contact them, but we cannot allow them to use the phones while driving. Do you have any suggestions?

Thank you,
Gene in Henderson Texas

Dear Gene,

There is a device available that will disable the phone when their vehicles are in motion. It will shut off all functions like text, email, and calls but allow 911 to be dialed in an emergency. The device is simple to install at home and if disabled it will send you an email alerting you of the disconnection even if it is reconnected. The device is called Cell Control, internet search for it.

Take care,
the Motor Medics

Dear Motor Medics,

I have a 2008 GMC Acadia with a transmission problem. It has had 3 transmissions replaced starting with the first one in 2011 just at the end of the factory warranty. The next replacement was in 2016 then a third replacement in 2020. The Acadia only has 105k miles on it and it is starting to do the same thing it did each time the transmission failed before. When shifting from first to second gear the transmission slips then the vehicle will only move forward in second gear until I turn the key off and on again. The transmission shop says it needs to be replaced again. What can we do to make this the last one?

Thank you,
Shannon in Cleveland Ohio

Dear Shannon,

This year Acadia was known for transmission problems and there was some special warranty coverage for them in the beginning. The second gear wave plate had some issues along with some other parts. Usually once they are rebuilt the problem is taken care of but in your case if it was replaced, we have no way to know if the internal upgrades were made to fix the known issues. If you are going to replace it again, choose a good rebuilder such as Certified Transmissions who can get you a correctly modified transmission with a long term warranty. In our experience we have not had to replace one again after one of them even after many years. Make sure the transmission shop checks for other faults too possibly affecting it.

Take care,
the Motor Medics

Dear Motor Medics,

How can I find a good auto repair shop? We just moved across the country to a town that we know absolutely nothing about and no one in it. We have tried using Google reviews before but that doesn't guarantee anything, and we have had some bad luck going that way. Can you suggest anything?

Thank you,
Tasha in York Nebraska

Dear Tasha,

Finding a new shop can be a challenge. We understand that you don't know anyone in town but with the other readers in mind we will touch on all the things we suggest for finding a new shop. We usually suggest starting by asking friends and co-workers who they use, how long they have been using them and if those experiences have been good. If there is no one to ask you can usually find a counter person in an Auto Parts store to help. Auto Parts stores sell parts to shops near them on a regular basis and should be able to tell you what shops work on what types of vehicles and hopefully if they hear good things about them. Once you have a shop chosen, start with something small like an oil change. This will give you a chance to meet the employees and see how they operate. If you feel comfortable with them, use them more and try them for bigger repairs.

Take care,
the Motor Medics

CLASSIFIED QUICK TIPS

Prepare. Know what is important to readers shopping in your classified category.

Make Your Copy Complete.

Use ad copy effectively to thoroughly communicate to potential buyer(s). Organize the ad carefully. Space and punctuate, so that the reader can follow the ad and understand its content.

Be Creative Descriptive.

List major selling points (price, color, size, features or options).

Be Factual. Be Helpful.

Include hours of operation, best days and times in which to make contact as well as area code on phone numbers.

Make Your Ad Easily Recognizable. Choose a main benefit of your merchandise and feature it in a headline.

Use art, large type sizes, bolding and best of all, use white space to make your ad visually attractive and so powerful, it's jumping off the page.

Maximize The Amount Of Prospective Buyers/Readers.

Multiply insertions help prospective buyers/readers **REMEMBER** the ad because of repetition. Take advantage of discounted rates available for multiple insertions.

Urge The Reader To Act Now!

Every ad should include a strong bid for action. Stimulate prompt action by using such phrases as "Call Now", "Available Immediately" or "Won't Last".

The Big Nickel hopes these tips will help you, please call 417-624-4100 and our telephone sales representatives will be happy to assist you.

Equipment & Supplies

GREAT DEAL

2009 P7010C LS tractor, 4WD, 3500 lb. loader, both front wheel hubs replaced with the newest 4th generation hubs. 70hp engine on a frame designed to handle a 100 hp. Starter has been replaced and I have the original Bosch starter that can be rebuilt. Everything on this tractor works well, and all bucket pins are tight. A/C blows cold. This tractor is outfitted with an automatic depth guide system that makes plow passes effortless while maintaining consistent depth with each pass. 2 sets of wheel weights totaling 300 lbs. worth of wheel weights on each rear. 3 sets of remotes. 4 new Cree L.E.D. Work lights. All filters have been replaced along with the engine oil, and front axle had a complete drain and refill after rebuild. Good low hour older tractor that needs no DEF or doesn't regen! This tractor sold new for 85k in 2009, and with only 1650 hours on it, a way less than half asking price for a tractor with so few hours makes this a really good deal and worth checking out! List price or best offer. \$32,000. 918-541-6013.

JOHN DEERE A, unstyled, 1937, SN-462645, \$3150. 479-636-0206. No texts.
