She understands that Scott and I are here not to meet with Commissioners but to identify a new federal transportation agenda for their review, and that the KV/JS dinners were the same dinner Ed Chiles invited her to with Dr. Hopes back in May. Mahaio, 🙏 Jocelyn<br>That is not so! I am not sure where she got that information. It is my understanding you are meeting with commissioners and you are working with Robert Reinshuttle and staff to assist us in developing a federal legislative agenda to propose to the Board of County Commissioners for consideration and approval!<br>Yes. Correct!! I restated that to her.<br>She said she understands. |            |                    |

I was up there at 0630 Monday morning, we need to all be on the same page. The well is at 1,200 feet. I am having to move \$5 million of my reserves to fund the beginning construction of the pretreatment facility, in order to keep up with the rapid pace of the drilling. I am pushing 24 hour drilling as the liner seems to be breaking down rapidly. But, I am not happy about "0" funds from state or receiver at this point. |

I just read Lisa Wenzel letter of resignation in a hostile work environment in building department. Also I came in this morning and saw Celeste packing up and being told she is going to be reporting to Courtney. She was told by Scott briefly and said BOB would talk to her which she never did. I talked to BOB this morning and he said it's temporary but I'm sure that's not the question. From somebody that's white it's interesting that all of our black assistants are now moved to other departments. Why would you have a 311 operator answering our phones in an office that you say some most important in the entire county? As far as Courtney you better bring her down 1000 more notches or we will lose more employees. LISA doesn't need all that stress and Scott doesn't know that she went through breast cancer and chemo for a long time. |

We are changing that! Further more, I do not get my facts from The Bradenton Times nor the press for that matter!<br>I read the article, I am not concerned nor do I know at the moment if their information is even correct. That is the problem with propaganda!<br>You don't know anything about what was done before.<br>Stop the tirant. It appears what was reported were public records.<br>Elliott one of lowest paid? Cortney 2nd highest? I want to see the letter you put in her file that u spoke to her?<br>We will talk tomorrow. You are wrong and trying to justify what your doing on other admin.<br>Not propaganda, public records. I have not<br>Spoken to one person except for you and Jan. I just read this in my county email 1/2 hr ago. All depth making same money but two out of three have to also run Dept? The other one doesn't. ? Per you, hired Cory Holmes? He called me long time ago expecting a job and we hired him?<br>Need to get it together .<br>I certainly know what people were paid before I was hired. The disparity was inherited<br>I look forward to our discussion and gaining an understanding of why Cheri did not do anything about Elliott and Jake's pay. I on the other hand have spoken to both of them regarding compensation. |

You added tons of areas to public safety and now Elliott with REO and also Lee. That's why they deserve to be compensated. We were fiscally conservative during the worst recession ever. And it took us a while to regroup. You know that. You need to make this right it's embarrassing to read at the newspaper. And Cori Holmes was a favor. He lives in Saint Pete with his boyfriend in a brand new house . why would he even wanna come here? You're the administrator now it's time to quit blaming stuff on previous administrators. If you're going to hire Courtney in on that much money, you could've at least been fair to the others making less. Talk tomorrow. Sick of hearing blaming on others. I've been talking to you for months about various departments and especially one about compensation because I read it before the newspaper. This is nothing new. Politics that's all this is about with at least one department. Make it right because I just read this in an online newspaper how the hell do I respond? You don't get blamed for it we do you're not elected official anymore, we are they call us I had an anonymous call from EMS this week saying their boys can't live here anymore. Dr. Hopes it's Kevin Chapman good morning. I read this morning the county may go up to DC in May to lobby on transportation projects. As you know I spent 10 years at the highest levels of USDOT and know that place well. The deputy Secretary is a former close colleague Polly and the head person in charge of handing out the billions in transportation dollars from the Biden act is Katie Thomson another friend. You should also know between you and I former Secretary ray LaHood a close friend has a place on longboat key and is here till end of April and could be helpful. Getting through the usdot funding process is complicated and political and I would love to see manatee county get some funding so if you need me to help get some meetings for you I can help. Good to here, let's schedule lunch or dinner and discuss the opportunities Okay sounds good

I will be speaking to this group today focusing solely on the construction on the deep well. I will appropriately refer all environmental permit questions about the well permit to FDEP sources.

Hi Scott-  
I've attorney, engineer and development partner had a meeting scheduled to talk to you on March 31st-  
Then your assistant called the day before the meeting and canceled saying we had to talk to the county attorney first.

The County Attorney hasn't returned my attorneys calls or emails or responded for three weeks now.

Can you please Talk to me for five minutes?  
Please.  
I was advised by the county attorney to not meet and that he would handle the communications. He is currently non leave until next week.

When are you having the Saturday morning Clerk days for passport applications?  
Thank you, Scott  
Hello Scott. I am currently at conference and as the statewide President of Comptrollers as you can imagine conference duties are numerous. I tried to return your call but the mailbox is full. I will be in session all afternoon.

Was literally just texting you. Walking around the corner.

They do not enforce meters after 6PM  
George, since we will be downtown all day, you can valet park at the Governors Club, just give them my member number- 2640. Scott  
The video for our state legislative platform was a big hit. Helped to show the public what our priorities are. I think we should produce another one for our federal platform. Would need to be done asap.  
Will do

My county phone is on 24/7 and I have a county landline at home, my office extension rings at home too  
 The only other place I could think of is I placed it in the file cabinet with the other personal files. Yellow key in the top desk of my drawer. Long file cabinet in the hallway against the wall. 2nd or third drawer

I will be on my computer all day and have my phone if you need me. Nothing is urgent, but if you do have time to sign the documents on your desk, let's get those taken care of. Theresa knows who to contact for both the red and the blue folder to get them where they are needed once signed.   |

I checked my spam yesterday and found an email for application and background screening from Jennifer and Lauren with expired link. I called Kate and she had no idea about it. When I let Jennifer know I just received it, she sent me an email that due to admin reasons, the position is not available. Kate sent me a LinkedIn message at 9:30 pm saying she was just informed of the email. I noticed you were not cc'd on any correspondence. I just wanted to make you aware that those departments are not communicating with each other. |

This is the swim coach that contacted me about a pool.

Good morning! I am writing you to urge your committee to install a pool with swim lanes and starting blocks. The Parrish Highschool swim team does not have a facility to practice in. Last season they swam at River Wilderness and the facility is definitely not equipped for a high school swim team. They have no lane lines, flags or starting blocks. It would be great to see the community embrace and support these athletes by building a pool they can utilize. The closest pool that offers an acceptable practice facility is the YMCA in Lakewood ranch. I can only imagine a community pool would bring in plenty of revenue for the community. Please take this into consideration. Thank you!--

 The Florida cracker thing starts at 8:30 sharp where the Bradenton elementary is with all the crayons in the front. It's directly across the street from that. They leave Sharp at 8:30 and they do their thing. I don't know when they get back. You also would've had to register and sign a release before doing it  
 Thank you

Ok

Very much so. Everywhere I went last night and I attended two functions. I needed to talk to you about Lauren not the other stuff. If you don't except constructive help then it's not gonna even help for me to tell you about the other stuff. I was driving to Sarasota.  
Thank you

It's an AirBNB that rents out often for wedding venues. We cited him for improper use. Went to court got dismissed because LDC does not speak directly to wedding venues. We have an update to the LDC to include that.  
What are we doing about the Employee Issue (Towana Johnson)??

Thanks Sir....

Manatee County Public Safety Important Message: GROUPS 1, 2, 5, 7, 9, 10 & HOSPITAL SURGE/SWO advises of Severe Thunderstorm warning for all of Manatee County until 10:15 am/ECC5

The strongest line of weather has already moved through Western And coastal Manatee county.

Soon, the significant weather line will be South of Manatee's Eastern portion as well. Note the cell line outside of Lakeland moving at 62 mph!  
Wanted to make sure that you were updated on the transfer of ownership for the Bishop Property. It has been completed of this morning. 🙏  
The facility at 5718 21st Avenue West is now owned and operated by Manatee County. 🙏

Further news release(s) and information outreach on the integration of this facility -- and how our residents will see changes in operations -- will follow as soon as details are finalized.  
Awesome! Great news!

We are excited to announce the move of Nicole Knapp and her staff of 2 from County Administration (under Deputy Reinshuttle) to Development Services (under Director De Pol and Deputy Bishop).

Currently, Nicole is the Impact Fee Administrator and manages perils of flood. She has been with Manatee county for almost seven years. Nicole graduated with her Bachelor's in urban planning from Mohawk College in Canada and completed her Public Manager certification from FSU. Nicole has over 24 years of experience within the public sector; 17 of those years for the Village of Bolingbrook, Illinois. We believe moving her under Development Services will bridge a gap as she will oversee Comprehensive Planning (which includes perils of flood) and would have better collaboration with public works as the Deputy County Administrator oversees both PW and Development. Nicole has an extensive knowledge of the comprehensive plan and the land development code. As the manager of the Comprehensive Planning Section, she would still manage impact fees and perils of flood, but would also assume responsibility in overseeing, interpreting, maintaining, and processing amendments to the Comprehensive Plan and the Land Development Code, as well as ensuring maintenance and codification of each through Municode. She would also be responsible for ensuring compliance with state mandates, and for the Evaluation and Appraisal Report (EAR) due to the state every seven (7) years.  
Commissioners there is a network problem with the online agenda, IT is working on the issue!

The network issue has been repaired

Scrap yard fire began this morning at 10am north of Sea Port Manatee. North River FD assisted by Sarasota, Hillsborough, Tampa, and multiple county departments assisting with fire suppression.

50 firefighters, 7 agencies, and 2000 gallons of foam is tasked to the scrap yard fire. The fire estimated at 25% contained and expected to go on through the evening. There is no danger to homes or businesses.  
Fire spread north to CSX rail cars and has since been contained.

Bray. I went through the housing that holds all the pumps for the pool and in an area where they should not have had any water it was full. That area is now overflowing and it's an emergency situation. Charlie Bishop has had a project manager on this and they all agree that immediate action needs to be taken. They are talking about pulling people from the Lincoln Park pool to fix this but they need authorization to pay for it. It's an emergency authorization that does not require three bidders but it needs approval from you. I do not have a dollar amount and neither does Charlie Hunsicker |

The repair parts and materials , and emergency fix for a leak on one of the large diameter return pipes will take several days. The bigger long term fix involving the repair and replacement of the entire vault and pool decking is not part of this emergency.   |

Scott... does he have permission?

In my absence at tomorrow's Director meeting I have asked Daniel Geyer, Sr. Fiscal Manager to attend to represent the Department. We sent our request for Administrative approval through Julia Spicer in accord with Dr Hopes request for 24 hour notice of such substitutions early this morning, but upon checking just now why we had not received confirmation we found she is no longer working for Administration but transferred to Public Works.

No

Ok

We need to rethink Ron sachs

👇

No worries

Cory got an offer in transit. He took it but it's at \$17 an hour I asked Jeff Goodwin for his bio or résumé and he said he would send it Monday. In the meantime I looked him up on LinkedIn and he has a BS degree from Guilford College in North Carolina in biology.

Ok, thank you

Hay Robert,

Ok

Did you authorize Charlie Bishop to go before the board and say what he said ?

No, I was not there. But, it is ok, I left the building

I did tell him when I left to go down there if things started to go south. He has their trust.

The chief of staff issue likely stems from your statement to that effect to the aides. I have never repeated it or represented myself as such even though we have discussed it as a possibility since before I started.

I know

You asked about Jake Saur. He's at the NENA 2022 Conference-911 Goes to Washington.

👇

Also, I supposed to be at the piney point meeting in the morning

👇 Please let me know. I think you will be at

the piney point meeting too.

Heads up. Channel 7 ABC just asked for Lisa wenzels resignation letter

Ok, make sure Logan knows

Are you coming down for the legislative agenda

Yes

Get you tail end down here now

I'm

May 11-13

Scott, I spent most of the afternoon interviewing candidates for the Code Enforcement chief position. I was not impressed with most of the candidates and it seem to come down to Joel Richmond and George McCorkle who is a former sheriff deputy and current lieutenant with Florida fish and wildlife commission. All along Jake has had a preference for picking Joel Richmond but I think the alternative is a strong candidate as well. He seems a little dismayed that he is not allowed to pick who he wants but I

Indicated that this is a visable and sensitive position and that you needed to be looped in. Do you want to talk to the final two? They are both local

Also did you talk to the school super? Just wondering

Btw. If you call Andy on his cell phone Robin will answer

Yes, I do want to be included

Dr. Hopes it's Kevin Chapman good morning. I read this morning the county may go up to DC in May to lobby on transportation projects. As you know I spent 10 years at the highest levels of USDOT and know that place well. The deputy Secretary is a former close colleague Polly and the head person in charge of handing out the billions in transportation dollars from the Biden act is Katie Thomson another friend. You should also know between you and I former Secretary ray LaHood a close friend has a place on longboat key and is here till end of April and could be helpful. Getting through the usdot funding process is complicated and political and I would love to see manatee county get some funding so if you need me to help get some meetings for you I can help.

Will you please provide bullet points or an overview of what we discussed yesterday. Specifically a net of \$20m+ or price per acre, rough values of the wetlands, anticipated donation, etc. I need to provide the info to my accountant so she can be prepared to discuss the deal when we all meet on 6/21. As a reminder, we are selling 160 acres east of 301. The Chins keep everything west of 301 and 10 acres on the east side of 301 and Moccasin Wallow Rd. I will consider selling the NW corner if needed. I would like this as soon as possible as I want to review the terms with my accountant when I meet with her on 6/14. This does not have to be exact, but accurate enough for us to decide the best way to proceed. Thank you. Stuart |

The hardest thing I've faced was not being allowed to share truth to power re the attack on you and why. The reality is this organization has many failures prior to your leadership. Just note you're being attacked and I know it's not easy but it's because you're are trying to fix a corrupt system. Thanks for all you are doing remain strong 🙏 |

work  
MANATEE COUNTY, FL (June 23, 2022) – In the ongoing effort to write the final chapter in the Piney Point site closure, Manatee County officials are working with the Florida Department of Environmental Protection (FDEP) to make minor modifications in its disposal permits. The county's Utility Department has an application with the FDEP to modify a current permit to allow more injection of brine (saltwater) at the Buffalo Creek municipal well. This request comes after Allied Universal Industries – a local chlorine manufacturer whose products have been an integral part of the Piney Point pre-treatment process – has ramped up production at their Palmetto facility. "This is a typical permit modification," said Manatee County Administrator Scott Hopes. "Allied has increased their chlorine production – at a plant that was built with Manatee County economic incentives – and we are fortunate that they are nearby Piney Point to help with the pre-treatment of that process water." Because of that increase in chlorine production, there has been an analogous uptick in the brine that is left over from that process, and the company is seeking an alternative to trucking the saltwater that remains from the process to disposal.

I don't know who stated they "didn't know what I do" probably carol or misty, but I been running hard all week. Ask anyone on the 9th floor. It's curious that it is the exact phase that saur was using to try to undermine me and try to nik you in the process. The old guard is trying to regain their foothold.  
I know, no worries  
If you want to replace me that's fine. I briefed the throughly on federal priorities along with two directors. I did not see your email about coming down. All discussions of DC visits was premature as I was trying to nail Down their schedules along with your schedule and the schedule of congressional members. I was not trying to coordinate with the schedule of the park Director  
No worries

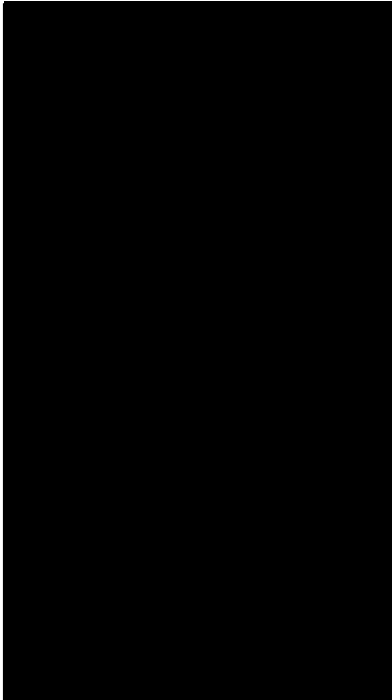

Thank you

Scott I think now is the time to hire Ron Sachs they have expertise in fighting fires and that's what you have right now. We don't need to sign them up for a year we could sign them up for three months to promote all the good things that are happening. In manatee. I think we need to flood the media with positivity and delineate all the good things that are happening. Ron has already met with the commissioners and so it won't be a surprise to them that we're getting this support. I hope you pull the trigger on this soon. Set it up

What you do not know about Bill Logan is that he has very limited writing ability and lacks extensive media contacts. Most everything you see from him is either written by someone else or heavily edited before it is approved for sending to you & others. He relies heavily on the public information team. This includes the piece that he "wrote" the other day that you cited in the leadership meeting and every press release. He is good at jumping in front of things to make himself look good including the video of you riding the bus which I conceptualized and worked with Casey on in preparing for but he had very little to do with it. This brings me back to why it's important to hire a PR firm because he does not have the capacity to do what you need. As you know I have no stake in anything except to make you and your administration look good and that's what I've been behind the scenes trying to do but it's an uphill fight. I am not trying to run down anyone just conveying my observations. I'm just telling you we're up against an organized and strategic campaign to make the county look bad. But you know that. We can talk more if you like Please call me! Scott Sorry but I could not hear |

This is the swim coach that contacted me about a pool.

Good morning! I am writing you to urge your committee to install a pool with swim lanes and starting blocks. The Parrish Highschool swim team does not have a facility to practice in. Last season they swam at River Wilderness and the faculty is definitely not equipped for a high school swim team. They have no lane lines, flags or starting blocks. It would be great to see the community embrace and support these athletes by building a pool they can utilize. The closest pool that offers an acceptable practice facility is the YMCA in Lakewood ranch. I can only image a community pool would bring in plenty of revenue for the community. Please take this into consideration. Thank you!--

We just had our first brief out with the state and FDEM. We will be monitoring the storm as it moves east from Mexico. This storm is believed to be a rain event for the southwest area of Florida with the heaviest of rains south of us. Our area should expect deteriorating conditions beginning tomorrow evening and progressing through the weekend, eventually clearing on Sunday. We do not expect any evacuations or other protective measures to be called for from the Manatee EOC (storm surge will not be an issue) other than sandbags for the low-lying areas that normally flood. Do not be surprised if the storm intensifies to a tropical depression or storm tonight or tomorrow morning, we are expecting that.

Emergency Management will continue to monitor the storm throughout the weekend and available for any actions that may be needed from the rain event. Barring any major changes to the track or intensity (not excepted) we will be in a level 3 monitoring throughout the weekend. Please see the attached NWS briefing.

MANATEE COUNTY, FL (June 23, 2022) – In the ongoing effort to write the final chapter in the Piney Point site closure, Manatee County officials are working with the Florida Department of Environmental Protection (FDEP) to make minor modifications in its disposal permits. The county's Utility Department has an application with the FDEP to modify a current permit to allow more injection of brine (saltwater) at the Buffalo Creek municipal well. This request comes after Allied Universal Industries – a local chlorine manufacturer whose products have been an integral part of the Piney Point pre-treatment process – has ramped up production at their Palmetto facility. "This is a typical permit modification," said Manatee County Administrator Scott Hopes. "Allied has increased their chlorine production – at a plant that was built with Manatee County economic incentives – and we are fortunate that they are nearby Piney Point to help with the pre-treatment of that process water." Because of that increase in chlorine production, there has been a analogous uptick in the brine that is left over from that process, and the company is seeking an alternative to trucking the saltwater that remains from the process to disposal Scott Hopes 941-302-3083

This is the swim coach that contacted me about a pool.

Good morning! I am writing you to urge your committee to install a pool with swim lanes and starting blocks. The Parrish Highschool swim team does not have a facility to practice in. Last season they swam at River Wilderness and the faculty is definitely not equipped for a high school swim team. They have no lane lines, flags or starting blocks. It would be great to see the community embrace and support these athletes by building a pool they can utilize. The closest pool that offers an acceptable practice facility is the YMCA in Lakewood ranch. I can only image a community pool would bring in plenty of revenue for the community. Please take this into consideration. Thank you!--

I've thought long and hard about our conversation from Friday. I appreciate the confidence and support that you have in my experience and talents. I know the battles ahead and how to fix some. However, after speaking with my family, I'm out. There is just too much drama and conflict to overcome for me to be truly successful on my end. As we talked, my style will only add to that drama and conflict with everything that you have going on there with the Board, department heads and culture. Maybe we'll have a chance to work together another day. Thanks for your confidence. Stay safe and strong! Arnie Wetzel |

 Without a doubt  
 Where is the 600 number coming from?  
 Employees

I am getting departure and hire numbers. We only have about 200 vacancies and we added 150 new positions this year. But we are running the numbers to get to you  
 Thank you.

I may have to go to Tallahassee tomorrow to deal with some of our funding issues as they finalize the budget this weekend. If I do not have to go, do you want to have lunch tomorrow- away from downtown?  
 Scott  
 Sure  
 Have fun tonight!!  
 Thank you  
 Let me know tomorrow if we are meeting at noon?

Got your message, thanks for updating me! I look forward to discussing your plans for the property.

You're welcome and thank you again for the opportunity. I really appreciate all your help and have enjoyed working with you on these projects. Hopefully, the first of many.

I'd like to get together next week to discuss our plans for the parcel. I'll reach out to Lauren tomorrow to get something on your calendar.

On a side note, we closed on the 246 acres next to the airport last week. We are meeting with Courtney and Nicole Knapp tomorrow morning to discuss the text amendment for workforce housing on the site. Courtney has been a pleasure to work with and seems like a great addition to the County.

Thanks again and enjoy the rest of your evening,

Steve

5/9/22, 10:16 PM

Hi Mayor, I just saw your voice mail, sorry I did not get alerted it was from you. I put this number in my contacts now. We are deploying the 2 weedo vessels we purchased last year, to Kingfish and Manatee Ave bridge tomorrow to see how they perform with on water cleanup, we will also be taking drone footage of the efforts.let's talk after about your needs. The commissioners and I will be in DC for the rest of the week working on our funding priorities so we can connect when I return. If you have the opportunity check out our new vessels tomorrow while they are at work.

5/10/22, 6:30 AM

That is great news. I will definitely do that. We have been looking at possibly purchasing one for our canals as the east wind packed the gumbo in pretty thick.  
I would like to talk to you about the product from Ecological Labortories in Cape Coral. You have a chemistry mindset and it sounds too good to be true. They have figured out how to bottle a natural bacteria and have given it a shelf life. This bacteria thrives on nitrogen and will actually reduce inches of silt on submerged land. It does not deplete the oxygen which is usually a side effect of bacteria multiplying. They will give you a tour of the facility. They are working with Mote now on restive and have a "do not object" from DEP to use in open waterways.  
This can be sprayed in canal systems that have high nitrogen levels as an alternative to silt dredging. We are contemplating a test canal and also spring lake. Spring lake had a sewage spill a few years ago.

Interesting, DEP mentioned something about it a while back. Not happy about their red tide response last year, they only reimbursed us for about 20% of our cost.

Wow, that is too bad. Have a safe trip and see you when you get back. I did have a hopefully positive discussion with Boyd and Robinson. I will fill you in on that too.

K, go take a look at the boats working today

5/16/22, 6:36 PM

Please call me at your convenience regarding Kingfish boat ramp. I believe after reading the paper you were given some bad information.

Commissioner Whitmore, I just read your text regarding Ms. Buchanan and you are clearly mistaken. I am always happy to discuss these matters with you, but please be considerate when you communicate information related to employee matters.

Carol Whitmore

I told them not  
To Respond and copied the county.

Carol Whitmore

I know the rules and sunshine. Info was given to me from outside the county. No employees told me this. Look at the rate of people leaving. I am sure you will say since past administration, they were not any good. You told me that Ruth and one other guy can run the dept., That was Friday morning.
