Hey Bob!! Just saw on the news that PEAK cherry blossom bloom is March 22-25! Aloha, Jocelyn

Cherry Blossom festival March 20 to April 17!

Japanese Cherry Blossoms by Tidal Basin not far behind!

3/8/22, 7:56 PM

I can't get an answer from mr hopes

Let me know if I can help! You guys are too busy!

3/12/22, 11:15 AM

Hi Bob: Oh-oh! So this unexpected storm might buy us an extra week before the REAL blossoms are in bloom! Jocelyn

3/14/22, 12:01 PM

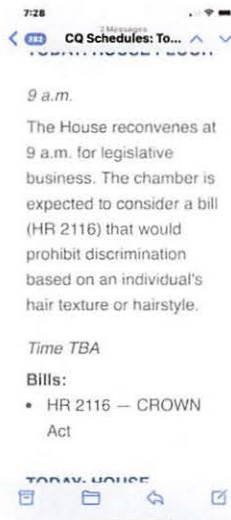

Hi! Just took a look at your draft. Can you add in the federal amount you are requesting? For Palmetto Trails I think it might be higher than \$15 million due to increased construction costs.

Not sure about Fort Hamer and Vets.

Ok

I'm free till 2 pm if you want to call.

3/18/22, 7:34 AM

Just thought this was interesting to share with you!

We sent you our monthly summaries which we are not actually required to do, but we have found it keeps us all on the same path moving forward.

Charlie found it helpful in the past.

It shows the path to success.

4/5/22, 5:06 PM

Hi Bob: Can you please check your email? I found a block of 10 rooms at the Ritz Carlton Pentagon City for \$359 May 11-14th.

Airfares have gone up in the past week

So you could book a direct flight from SRQ leaving at 11 arriving around 2:30 to Reagan National.

On May 11 Wednesday. They will have half a day Wednesday and two full days Thursday and Friday.

They can catch an early flight home Saturday or Sunday

Ok. Checking

I'm hiring a limo service for airport pick up so I hope everyone can be together. 🙏

They are quite an independent group

4/6/22, 10:32 AM

FYI - Reggie and Misty reached out to me this am to get details about the trip! And I spoke to Lauren this am too. So hopefully we can solidify plans since airfares went up another \$100 this morning.

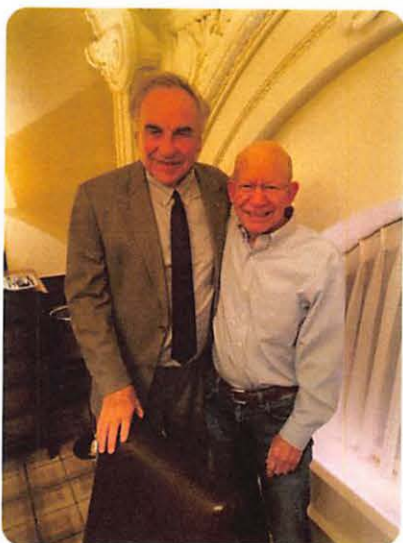

5/4/22, 11:30 AM

Hi! I sent you a few emails this am. In the meantime, we have a virtual meeting on affordable housing offered on May 16 or 24. I think Misty and George most interested. Can you help me with the protocol on how to schedule this?

5/13/22, 10:43 PM

Thanks for visiting and supporting the federal programs! Have a safe flight back. Aloha, Jocelyn

6/12/22, 4:42 PM

Thank you so much for working on our contract!

We appreciate the update.

Hey Bob. I was filming Misty for the Legislative video. I've got James at 1. What can I do for you?

Just checking in where all that stood at this point

I've got a really solid start and am editing it as I get commissioners filmed. Should have it done by Friday deadline. I've got Vanessa, James and Reggie scheduled for tomorrow. The rest have cut their respective parts.

Great!

Hey Bob we're down on floor 8 in the Staples room.

3/23/22, 9:46 AM

C. Please send videos through me first before disseminating e g development and neighborhood

We need a video for the annual report

3/31/22, 8:54 AM

Hey Bob, I'm going to go ahead and reschedule the interviews for tomorrow for early next week. Is that OK?

3/31/22, 11:24 AM

Yes

4/13/22, 8:37 AM

This is from KVO. Please do:

The video for our state legislative platform was a big hit. Helped to show the public what our priorities are. I think we should produce another one for our federal platform. Would need to be done asap.

Priority

Sounds good. Is it OK to contact KVO like I did last time?

Yes

4/13/22, 10:59 AM

*KVO - intro
*Satcher - Ft Hamer
*Kruse - Affordable housing
*Whitmore - Manatees
*Bellamy - veterans facility
*Misty....?
*Vanessa - Closing.

4/15/22, 1:02 PM

Casey. Please update me on your meeting this morning

Sure. We went over the script and made some minor revisions in a few areas. Waiting on Jorge to send me some numbers to include in the Ft Hamer bridge portion. Will hopefully have that and will re-send the revised script by the end of the day.

What is your time frame

I'm hoping to start scheduling commissioners next week after approval of the script. If I can get them all in, it shouldn't be more than a few days beyond that.

Ok

5/11/22, 1:17 PM

Hey Bob, I spoke with Julie and she is under the impression that we need two job descriptions. One to be updated for my current position for video specialist (which we will hire someone for), and one for my new position of Communications Manager. Does this sound correct? Would that be the appropriate title?

I'm not sure. I will talk to Julie

Ok.

5/12/22, 5:10 PM

I just wanted to let you know that Amanda and I "dropped a hammer" of our own at the National Association of Government Communicators awards. We both took a first in our respective divisions and beat some pretty big names in Government for bragging rights.

You two are the best!! So proud to work with you.

5/17/22, 8:27 AM

I spoke to Crystal. There will be drinks, but no food. There will be a ribbon cutting. Do you want us to drop the word "reception"?

Yes

Ceremony??

That will work.

I'll get Amanda on it.

Thanks

Yes

Hopes has seen it

Great. Sorry I missed the picture of the giant checks. I'll see if we can't track down who took them

5/26/22, 9:47 AM

Apparently there was a miscommunication. The wage for lifeguards IS \$18.40 per hour and is not changing.

How is it that when the Director is on leave or sick that they give signature authority to a subordinate? I would think the deputy over those departments would have signature authority

That is a good question and it's always been like that. For me I sign about 10 things a day from a permit to travel form to a PAF to a purchase. Thought is the person in the department would know more about what they are signing. I almost always give it to my CFO

Yes

Charlie H blames property management

Yep. We can take it

Read email from Kurt and my follow up

5/27/22, 4:41 PM

Erie Lane residents were without water from early evening last night until 10:38 this morning. Maybe unavoidable, but it seems like some of this is personality conflict and not "sorry we're working as fast and efficient as we can" by the subcontractors.

6/8/22, 10:49 AM

Page 57. Shows PNR got a funded project manager?

6/9/22, 1:46 PM

Did Brennan forget his whip today

He is looking for it. Remember we said 2 weeks. It will be done promise

Funny. Put them under parks

I think they are. Guarding Charlie's pools

6/15/22, 3:51 PM

I told you two weeks and we beat it by a couple days

Doors are up and furniture is in but not set. They should complete tomorrow
They started framing the permitting side today too

I told you we would be 2 week timeframe

6/15/22, 5:07 PM

6/17/22, 9:58 AM

Call me later so we can talk alone

Did you know Debbie S moved (GIS) David into one of the new offices???

Nope I gave her the same option I gave you move them up to eight

He needs to go next to her when the wall goes up

Robinson Preserve.

Can we string something across the opening to keep the floating material out?

Would that be worth it?

Also, what is that shit?? Can we test the water?

6/9/22, 1:45 PM

Kvo

???

Charlie Bishop

Bob this is Charlie h and or mike Elswick issue.

Kvo

We have used a boom in the past

Kvo

It keeps the floating crap out

Kvo

Bob the problem is that once it's in the lagoon there's only one small entrance and it gets stuck in there

Charlie Bishop

Yes he and me have some

6/9/22, 4:13 PM

Charlie Hunsicker

Beginning tomorrow at daylight we will determine the first slack tide and deploy at a floating turbidity barrier at that moment across the opening to the Manatee River where the video was shot. This has been our procedure in past years and found to be the best method available within permitted options .

If you'd like to swing by Bray on your way into Admin. this morning I can show you the multi million \$ problem in our main pool pump room.

I can't do it this morning Charlie but I will try later today

1/4/22, 1:58 PM

Will you be able to come to Bray later this afternoon? You may already be aware of the problems so severe at the East Bradenton Pool as to bring in Risk Management, you do need to be informed of the multi million \$ problems that will result in closures here at Bray

1/6/22, 1:29 PM

We will have to close the Olympic pool at the end of the day. A major leak in one of the pipes in the vault you saw full of water has been confirmed. If we can not secure a quick response from the company working over at the Lincoln pool today then no other company we have checked with can get there until Tuesday. The repair parts and materials, and emergency fix for a leak on one of the large diameter return pipes will take several days. The bigger long term fix involving the repair and replacement of the entire vault and pool decking is not part of this emergency.

Any word on emergency po?

Please call Tom Yarger and they found a broken seal which they are looking for somebody to repair it right now that's all I know for now

1/7/22, 4:56 PM

Please call when convenient ... one more thought about today.

Something I'd like you to share with Scott

1/13/22, 12:48 PM

Just got a report on my phone of your attempted call . Need a quick call back?

1/14/22, 3:17 PM

I just got an inquiry from Ronda Craig wondering if she will be interviewed. Can you let me know your intentions? Thanks

Yes she will be interviewed, we are checking schedules of the in house interview panel. There are four other candidates also on the schedule. She should be hearing something later today or Tuesday morning from our Department HR liaison.

1/14/22, 5:22 PM

We've connected an an appointment has been set for an in person interview here at my office. Thanks

Well I hope you take the opportunity to meet with her while your in Tallahassee as well

As you told me this was your intent. Right?

Yes my intent

1/18/22, 5:53 PM

I called you twice this afternoon on an issue in which chairman KVO needed your assistance. I found someone else to do it

1/18/22, 7:37 PM

My apologies I had my ringer on silent for some reason and didn't notice your two missed calls until Hotel check in. Left you an e mail apology too, hoping the questions pertained to two derelict vessels.

1/24/22, 11:34 AM

I understand from Diane Vollmer you still have questions about our February 8 agenda item in your approval que for certain benchmarked Parks fee increases to be enacted with our standard rate resolution. May I schedule a briefing with you with staff support to go over any clarification or questions you may have?

1/24/22, 2:14 PM

Not necessary. My questions were on the one year extension. I think they are taking it out

Yes , we will remove that extra year in the agreement.

And, would you want us to resubmit the Rate Resolution agenda for approval? It was returned to us for further processing .

Yes

10-4

1/25/22, 5:37 PM

In my absence at tomorrow's Director meeting I have asked Daniel Geyer, Sr. Fiscal Manager to attend to represent the Department. We sent our request for Administrative approval through Julie Spicer in accord with Dr Hopes request for 24 hour notice of such substitutions early this morning, but upon checking just now why we had not received confirmation we found she is no longer working for Administration but transferred to Public Works.

1/28/22, 11:20 AM

Please check e mail just sent about the ELMAC application process and our request to you to forward the information e mail on the Commissioners should you agree. Thanks.

2/2/22, 7:53 AM

Spoke with C Bishop this morning about the Kingfish boat ramp mini meet request . It's to ask Scott to make the call to the FDEP Secretary to switch the land lease we thought we had with FDOT over to FDEP so we can get started with Ramp construction.

2/2/22, 10:29 AM

Charlie I need you to get the federal agenda items together and fleshed out. This needs to be done pretty quickly as I intend to brief Commisioner's next week. Thank you

I Will attempt to work on this as well but I am just slammed lately

2/7/22, 9:26 AM

I'm hoping to get a chance to talk with you this morning?

2/15/22, 1:04 PM

Waiting for Biden to appear.

2/28/22, 2:32 PM

I just checked my emails and I have nothing from your office or department

I'm glad I checked! The earlier send went out through my g mail account for some reason. You should have them now, sent through the County e mail .

3/22/22, 12:43 PM

Oysters and clams made the state news summary. We are now surely a target...

But I'll take this good news any day!

3/24/22, 5:23 PM

3/28/22, 4:54 PM

4/1/22, 2:03 PM

4/29/22, 8:42 AM

Do you have any time this morning to meet with me prior to your and mine meeting at 10:30 with Dr Hopes on pool and Holiday scheduling?

I'm sorry. I do not Charlie

5/3/22, 6:48 AM

I texted earlier this morning to Scott to see if I could meet or call in this morning to review a request from Satcher about a BCC support letter for Rattlesnake to be put on the May 10 agenda and also to ask for a PNR secretarial support position for ELMAC functions. He okayed a quick drop in to the office between 7:30 and 8:30. I hope to be there at 8 . Of course please join if you can?

5/3/22, 8:50 PM

I can explain the invite list tomorrow morning at Directors meeting

5/4/22, 10:27 AM

Can you call me anytime this morning ?... couple of short questions following up on this morning.

5/4/22, 12:31 PM

When would be a good time to call?

Apart from other questions I had a personal one... trying to line up a golfing vacation with guys up in Wisconsin week of August 15... trying to book good flights ... I have a vacation request into you , asking for your approval .

6/8/22, 10:17 AM

If I were there I would express our appreciation in the recommended budget for the three employee gain for the Department as a whole and support for field equipment needs in Natural Resouce land management.

You're getting a million e mails probably so I'm repeating my last e mail to you by text; The last meeting called by Commissioner Servia tomorrow morning is focused on the Pelican rescue recommendations in the letter the Board requested Dr Hopes send to FDEP .

This was the letter I gave to you last Thursday at our 3:30 briefing for Dr Hopes to sign. Were you able to obtain his signature so we can go over the executed letter tomorrow morning? Thanks !

Charlie. The letter was signed

Please check with your Jennifer

Thank you! I'll bring it to the meeting .

Can I call you at this break?

6/8/22, 3:21 PM

If the question comes up for the gopher tortoise study recommended funding ; this expenditure is the last step for surveys and training fees that we need to establish a gopher tortoise mitigation bank at Duette Preserve that will return over 3-4 million in relocation fees paid to the county by those having to remove tortoise ahead of construction disturbance , an impressive ROI on investment.

Yes Celeste McDuffie may have conveyed I would like to see a written report on major activities and developments in public safety broken out by division on a weekly basis. I do not feel that currently I am getting nearly enough information through weekly meetings. Thanks

Ok thanks Bob. I understand.

As you know Dr Hopes policy on directors meetings is to not send substitutes. Unless Jimmy has another reason for being here this is not welcome. Please let me know

Yes. I asked him there since you wanted an update yesterday. Also have a work session coming up. And he was speaking with Hopes regarding the parade. I can have him leave.

No. That's fine. However it causes problems with other directors who have wanted to send a substitute and have been turned down.

Kevin, I have the public information staff ready to go on the parking on Santa Maria Island and specifically the school but as far as we can discern the agreement has not yet been signed by both parties

Shit.
Cynthia Saunders told me yesterday that she signed it.

Who are we waiting on??

Of course Saturday will be storms and cold. No one is going to the beach this weekend anyway...

Our records department pulled the agreement and we could not determine that either party signed it

Ok. Let's deal with that tomorrow. Needs to get signed.
Holmes Beach will ticket our residents if we don't have an executed agreement

I'll be on it

Thanks Bob.
Have a good night

Happy Birthday Chairman! This is still not fixed! Now i just get this! And they still have not changed out the faulty equipment! So sorry to trouble you in this water issue! Thank you in advance Means a lot to us!

That's from Mark Flanagan. I'd sent you an email about this about a month ago.

Happy Birthday!! We are one day apart

4/5/22, 12:10 PM

This is how gore responded. I do think we thought there was a resolution on this. I'll look into it myself.

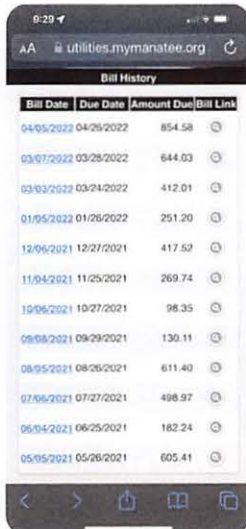

Bob, I am out of office again today with my back. I thought this was settled, I will look at it again tomorrow and see what everybody wants. I can't recall exactly the situation. I recall emailing the chair and yourselves, I will follow up with yourselves after I research it again.

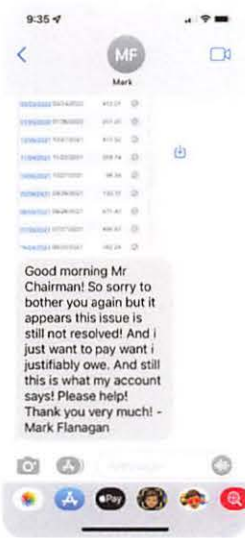

Thanks

Please see the email I just sent you

Will do

4/8/22, 9:35 AM

What should I tell him? Is that what he actually owes?

I'm not trying to do him any favors here. Just want to be sure he's charged correctly

4/8/22, 10:51 AM

Kevin. I talked to mike gore about this and he assures me he is being charged the correct amount. Flanagan suggested that the meter wasn't correct so they put in a new meter. Apparently this gentleman has been abusive to staff about this but they have been professional and have even tried to accommodate him by waiving about two hundred dollars. They don't feel there is anything more they can do. He just owes it.

Ok. Thank you.

He has a history of being a hot head.

4/18/22, 6:45 PM

I'm at public safety. I will try

Ok

6/2/22, 9:31 AM

Kevin, Utilities through a contractor is working on replacement of a Force Main on the island. In the process there is water line work being done as well. They did a dry run in which there was low pressure or no water for about five minutes in order to test the lines. They determined that they will need to do the work at night and there will be sufficient notice to everyone involved when that occurs. When it does occur the water will be off for a sizable area in the middle of the night. I will let you know when this is about to happen. Btw.. there is a fiber optic contractor drilling holes out there as well and it's causing problems with some lines as they are hitting them on a regular basis

Ok. Thank you Bob

6/3/22, 11:06 AM

On the zoom with Jocelyn

You joining?

Yes

Ok

Having trouble with other zoom. Going back up to 9th fl

Her husband is such a moron. As useful as tits on a bull

Lol

I thought that went well.

Yes. Have you done a 180 on them? I told Scott Hopes that extending them for six months is probably the way to go because we don't know what the new Congress will look like and they may not have the right contacts with republicans.

We should use the time to interview a few firms

Liked "We should use the time to interview a few firms"

Not a 180.
I'm comfortable with the 6 month extension though.

Ok

I don't want them to check out on us for 6 months.
Dangle the carrot and keep 'em working hard

Exactly

I think she's good with Dems. But she doesn't fit our board well and may not be much help in a red wave.
I like the idea of the new board choosing the replacement

Lee, I talked to a lady in Manatee County who was referred to me by Vanessa Baugh who is having trouble with the home health agency that is assisting her 94-year-old mother. Melissa Dunlop is the County's case manager on this situation and apparently she has not been particularly helpful in resolving the matter. The home health aide that has been going out to assist the 94-year-old mother has been not showing up, late, and generally rude and dismissing. Her daughter who contacted me name is Brenda Russell and her number is 202-255-2302. I think the problem is more with the home health agency that we contract with then the county employee but I would appreciate if you could look into this and let me know what you find as I need to get back to Commisioner Baugh. Thanks

Ok. Yes. This is one of the issues we're having. Agencies finding good help, affecting the quality and number served. I'll get the Aging Services-manager on it.

I need Jeff to give me a quick update on permit mod in the next hour. Thanks

3/29/22, 7:21 AM

Mike please let me know who I can contact with the haulers. My trash was not picked up yesterday even though it was out the night before. It seems that everyone else's was picked up. Thanks for

Just send me your address and I will handle. The normal course is to call Utilities 7928811 to report miss. From there we track misses. No need though, I just need your address

I'm not sure it was really a miss. I feel it was deliberate because everyone else's trash was picked up but I was curious as to what I had in the bucket that they didn't like. I can wait till Thursday which is the next pick up day

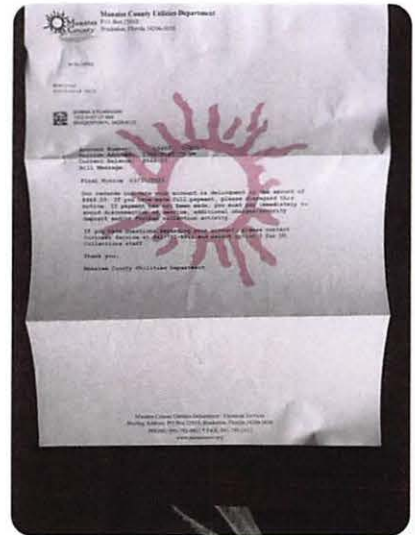

Your call, I can have my enforcement staff follow up, if you left it out they can come by and look. Can't imagine any reason other than oversight or too heavy but they are suppose to tag it why they didn't pick up so you know. They dropped the ball either way

4/4/22, 7:51 AM

Good morning Bob, I am going to have to reschedule our 9:00 meeting this morning, I done something to my lower back, I can't function very well, I am going to stay off my feet today and hopefully get back in tomorrow. Ok. Thanks Mike. Hope you get better

Is Braden river pipe fixed?

At this hour we believe the trait clamp was successful. We pressurized the pipe yesterday and inspected for leaks today as well. Divers are placing concrete supports, we are going to run with it. We will need to chlorinate and get a main clearance before we can put back on line. My guess is next week.

Manatee County Public Safety Important Message: An important message from Dr. Hopes

A contractor doing directional drilling in County right of way on the west side of 59th street west hit a City of Bradenton water line. That line drained quickly causing local flooding and destabilizing the SW corner of the intersection. Traffic signals in the area were affected by the destabilized ground. FPL is on scene working to repair. Power in the area will be affected while the repair takes place.

City of Bradenton Police department is on scene with a representative from Manatee County Traffic Operations.

Water must be pumped down to allow a proper inspection of the area before repair assessments can be made safely.

Currently, 59th street west is closed from the entrance to G T Bray Park (33rd Ave Drive West) to Cedar Hammock Dr.

I just got a call that people were crying in REO saying they were losing their jobs.. u said during meetings you had not spoken to staff yet. That was not a very professional way to handle REO.

All need to slow down.. these are peoples lives your dealing with.

U said you are with superintendent of schools now.

I think this is more important than having dinner. Those REO employees should have been called after the meeting. As for as public safety.....

I have known Ronda Craig for more than 12 years, She is one of the finest, Most intelligent and hardest working people I know. We have experienced some of life's harshest blows together ranging from losing a child to breast cancer. Coming to Bradenton has been an exciting opportunity but difficult personally because I left my family in Tallahassee... And she is my family. We have been engaged for the past two years. As you know I talk to you about the possibility of having her work with the Manatee Board of Education and your response was to have her work with the County as we are looking for qualified professionals. She would be a star anywhere in government... I guarantee it. I truly appreciate everything you've done and I try to repay that by working hard for manatee county every day and looking out for your best interests.

As I have asked Ronda to relocate to Bradenton I would really appreciate your assistance in facilitating this transition and gaining a highly skilled employee in the process. Thank you again for your trust and friendship

1/21/22, 7:58 AM

I will continue to help. We can regroup next week and I will increase my efforts. We will find something in the County or School District

I'm not surprised as the storm that went through was bad!

1/3/22, 9:11 PM

Ok

1/4/22, 2:06 PM

FYI. The following is from Charlie H. I plan to go to Bray to see what he is talking about :
Will you be able to come to Bray later this afternoon? You may already be aware of the problems so severe at the East Bradenton Pool as to bring in Risk Management, you do need to be informed of the multi million \$ problems that will result in closures here at Bray

1/4/22, 8:01 PM

Hey Scott..there is a lady named Lauren (Grubb?) Who has been an administrative assistant sitting outside of John Barnott's old office for a month or two. I think she is sharp and I think Charlie and Courtney think the same. You should talk to her if you plan to replace Julie Spicer in that spot. She is currently a temp but you may like her.

Ok

1/5/22, 3:14 PM

Kvo called me about a water line break in nw Bradenton. The line has been fixed and Kevin informed

1/6/22, 1:01 PM

Sorry, I can't talk right now.

Give me a few minutes, at an awards event

Ok

Two days ago Charlie Hunsicker indicated that he had a serious problem with one of his pools in fact it was the large Olympic pool at G.T. Bray. I went through the housing that holds all the pumps for the pool and in an area where they should not have had any water it was full. That area is now overflowing and it's an emergency situation. Charlie Bishop has had a project manager on this and they all agree that immediate action needs to be taken. They are talking about pulling people from the Lincoln Park pool to fix this but they need authorization to pay for it. It's an emergency authorization that does not require three bidders but it needs approval from you. I do not have a dollar amount and neither does Charlie Hunsicker

This is from Charlie H::
We will have to close the Olympic pool at the end of the day. A major leak in one of the pipes in the vault you saw full of water has been confirmed. If we can not secure a quick response from the company working over at the Lincoln pool today then no other company we have checked with can get there until Tuesday. The repair parts and materials, and emergency fix for a leak on one of the large diameter return pipes will take several days. The bigger long term fix involving the repair and replacement of the entire vault and pool decking is not part of this emergency.

Just a FYI. A meeting with the Senate President Simpson has been set up for next week. More information will be available tomorrow and Friday

1/19/22, 10:07 AM

Charlie and I are in the basement of the capitol will meet you outside the presidents office

1/21/22, 3:36 AM

Yesterday you told me that Kvo had contacted Saur regarding an issue. I believe your instructions to directors was to listen politely and then inform you or the deputy. I never heard from Saur have you? You just happened to overhear that conversation

Correct, I have not heard from Jake, yet. I have been thinking the same thing. We will see how Jake handles it, did KVO say anything to you?

No he did not

Just so you know, I have also questioned him about the 80 K in code enforcement dollars he contacted Jan's department about and wanted to give it away to BADS

I asked for the data and rationale

1/25/22, 7:54 PM

Scott... does he have permission?
In my absence at tomorrow's Director meeting I have asked Daniel Geyer, Sr. Fiscal Manager to attend to represent the Department. We sent our request for Administrative approval through Julie Spicer in accord with Dr Hopes request for 24 hour notice of such substitutions early this morning, but upon checking just now why we had not received confirmation we found she is no longer working for Administration but transferred to Public Works.

No

Ok

1/30/22, 4:40 PM

We need to rethink Ron sachs

1/30/22, 6:55 PM

Hey Robert,

I feeling a little better since Thursday. My results came back negative. So I believe it's a common cold. I had a fever and I am coughing up mucus really bad. I am not sure if I am contagious or anything. I think it would be best if I worked from home for a couple days. Until my cough has subsided.

3/2/22, 2:54 PM

Scott. I have gone home. I'm not feeling well.

3/2/22, 4:02 PM

Ok

3/4/22, 11:54 AM

Did you authorize Charlie Bishop to go before the board and say what he said ?

No, I was not there. But, it is ok, I left the building

I did tell him when I left to go down there if things started to go south. He has their trust.

The chief of staff issue likely stems from your statement to that effect to the aides. I have never repeated it or represented myself as such even though we have discussed it as a possibility since before I started.

I know

3/14/22, 7:41 PM

You asked about Jake Saur. He's at the NENA 2022 Conference-911 Goes to Washington.

Also. I supposed to be at the piney point meeting in the morning but I would like to go to a Dr appointment if possible. Please let me know. I think you will be at the piney point meeting too.

May 11-13

3/25/22, 4:55 PM

Scott, I spent most of the afternoon interviewing candidates for the Code Enforcement chief position. I was not impressed with most of the candidates and it seem to come down to Joel Richmond and George McCorkle who is a former sheriff deputy and current lieutenant with Florida fish and wildlife commission. All along Jake has had a preference for picking Joel Richmond but I think the alternative is a strong candidate as well. He seems a little dismayed that he is not allowed to pick who he wants but I

Indicated that this is a visable and sensitive position and that you needed to be looped in. Do you want to talk to the final two? They are both local

Also did you talk to the school super? Just wondering

Btw. If you call Andy on his cell phone Robin will answer

Yes, I do want to be included

3/30/22, 7:33 AM

Dr. Hopes it's Kevin Chapman good morning. I read this morning the county may go up to DC in May to lobby on transportation projects. As you know I spent 10 years at the highest levels of USDOT and know that place well. The deputy Secretary is a former close colleague Polly and the head person in charge of handing out the billions in transportation dollars from the Biden act is Katie Thomson another friend. You should also know between you and I former Secretary ray LaHood a close friend has a place on longboat key and is here till end of April and could be helpful. Getting through the usdot funding process is complicated and political and I would love to see manatee county get some funding so if you need me to help get some meetings for you I can help.

4/12/22, 9:55 AM

You need to be able to speak to this in the meeting this morning during public comment during future agenda items

4/20/22, 8:57 PM

Yesterday Mr Saur had Julie spicer call me to decline his weekly meeting because he didn't have anything to discuss. That's surprising since I think there are many things to discuss. It seems he has decided to go straight to you And he had made it clear that my involvement in his department is not particularly appreciated. If you approve of this just let me know and I will back off from trying to square away this department. I guess this is consistent with setting up regular meetings with you and other steps he has taken.

I do not have regular meetings with him. I do want you to have regular meetings with him and his deputies, both at the EOC and in your office. You are welcome to include me when you feel appropriate. I spoke with Steve L. Tonight at the convention Center. Additionally, I will have Lauren set up regular, twice a week meetings for you and me to work through county issues together as we initiate changes and improvements. This will be in addition to our Deputy meetings. Thank you for all you are doing.

4/22/22, 11:08 AM

Stacey Hardy, division director for 911 was not present at this exercise either

4/28/22, 6:03 PM

Scott, this afternoon I had my weekly appointment with Mr. Hunsicker in which I had an agenda to go through with him including the plan for the rollout of the Lincoln Park pool and other items. He use this time and access to wheedle into James Satcher's office and tried to talk to Kvo about speaking at an Arbor Day celebration tomorrow at 11 o'clock. He couldn't get in to see Kvo so he left a flyer with his aide Kvo came into my office at 5 o'clock hopping mad because this flyer had been dropped off for him to speak at 11 am tomorrow & he was on the brochure and it's not his district and he had not been advised of any of this. He had me get Hunsinger on the phone in which he berated him for how poorly this was handled. He said this was in Misty's district and Misty should've been invited as well. Anyway, just giving you a heads up.

Thank you

5/6/22, 12:45 PM

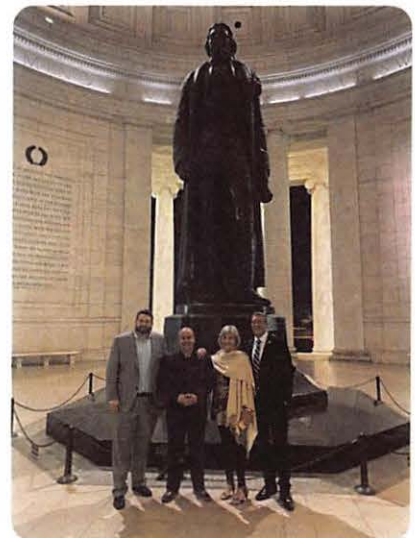

Ruth just quit. Effective today

5/9/22, 7:59 PM

Scott I realize that Jacob Saur was in today to review the PowerPoint. I have never seen this and I was not invited to this meeting. That's a problem. It is my intention to find out definitively whether he is actually on the 911 program in the Louisville meeting as a speaker. However I don't think this really matters. He is out for entire weeks at a time every other week. If you talk to people at public safety they say he is gone a great deal even when he is there. We had a conversation about cutting off of his out-of-state travel and he went around me today to talk to you and I feel undercut by the reversing of that decision. I realize he has somewhat untouchable right now because he is a witness in the Vanessa case however that doesn't allow him to undermine and undercut me.

Verify his position with the state association, if he is not a published speaker or is not the president of the state association, then cancel the trip. The state and county should be represented if he is. Then clamp down and insist he is at the EOC every work day. Asking him tasks and deliverables to ensure he is there doing his job. I did not know you were not involved in the presentation and was a bit surprised by his conversation. Allow him to make his bed if you know what I mean!

5/11/22, 11:16 PM

5/16/22, 7:28 AM

Scott, I can't come in to work today as I have the flu. I'm sorry. Thanks

5/26/22, 8:50 AM

Scott. As much as I share being pissed off for Tuesday I think it is a mistake to cut off Misty and Carol. This will come back to bite you. Thanks

5/26/22, 9:52 AM

I guess I'm on a roll today but I also think you should be very cautious talking in director meetings. I know a lot of it is frustration with events but several of these people are not in your corner even though they smile to your face. All of it goes back to commissioners. I wouldn't even be surprised if they are recording it on their phone

I agree

6/1/22, 8:47 AM

We don't need having every department have a different logo. Just my thoughts. They already think they are independent operators.

6/1/22, 9:58 AM

Scott, Galvano called me last night about an agreement on rates in conjunction with the Buffalo Creek infrastructure discussion. I talked to Mike Gore this morning and he said he knew of no agreement on rates in fact he said there would likely be a month or two overlap between the completion of Buffalo Creek infrastructure and completion of Piney point well. Do you have any thoughts on rates?

6/1/22, 11:10 AM

He is probably looking for an agreement on rates, not that one has already been made. Gore has the rates they are paying on the east coast

6/2/22, 12:00 PM

I talked to Hunsicker and told him to coordinate with servia and show up to speak with her in the morning to discuss coquina He seemed inconvenienced to speak with me on Sunday and told me he had other things going on Monday In the end I told him to do it and he said he will.

6/13/22, 12:32 PM

You need a chief of staff

6/13/22, 1:43 PM

To my knowledge there has not been a problem in records until IT took over In October. Jan brewer changed this based on lack of trust in Debbie scatanocce. I suggest we go back to the former process. I have been diving into this

We can talk tomorrow

6/13/22, 4:40 PM

We are coming up with a summer in manatee county featuring you riding the bus or trolley to the beach or gt bray, biking at Robinson, enjoying the beaches with you at the lifeguard station, sliding down the pool or fishing at Jiggs. It will give you an Everyman persona and help change impressions. May involve some county employees in it. This will be a video.

6/16/22, 9:08 AM

Is Jennifer here yet?

6/16/22, 2:17 PM

Servia is reiterating once again that you're preventing Commissioner Comments from being on the agenda

6/17/22, 2:01 AM

6/22/22, 1:17 PM

You could certainly put responsibility for minor mod on me

No, won't do that

6/22/22, 4:01 PM

This is from gore on Braden river:

At this hour we believe the trait clamp was successful. We pressurized the pipe yesterday and inspected for leaks today as well. Divers are placing concrete supports, we are going to run with it. We will need to chlorinate and get a main clearance before we can put back on line. My guess is next week.

Good news then let's prepare a statement to send an update to the commissioners

Shelia. This is bob reinshuttle. Did Jan take the onbase money out of the records department? I think we need to put it back in. Thanks

6/10/22, 10:29 AM

Dr Hopes would like it put back

I will verify. We didn't take the money out. Let me confirm

Sir, I verified and in FY21, we gave to their program 150k for onbase upgrades that did not get spent. In fy22 she did not request funding in her account. Would you like me to bring it all back.

Maggie from property management submitted the request for \$250,000. Records manager says there is no unspent money from previous years.
