JULIA HORINEK

Parents' names: Travis Horinek & Brandi Rodriguez

What do you think is the most important thing you have done or been involved in while in school?

I would say the most important thing I have been involved in is FFA. FFA has taught me so much more than just agriculture. I've learned countless leadership skills from this organization.

What are your plans after graduation?

After graduation I plan to attend SBU for Radiology.

What has been the greatest challenge in your high school career?

The biggest challenge throughout high school has been time. I have been involved in several clubs throughout my high school career. At times it has been hard to keep up with all of the events, along with keeping up with multiple clubs, time also goes by so fast it was hard for me to take time to appreciate the small things.

What has been the highlight of your high school career?

There are many things that have been the highlight of high school for me, but the most memorable highlights have been everything I have accomplished in my time in FFA. Two of the most proudest accomplishments would have to be getting my State FFA degree my junior year, and placing second at state in food science my senior year.

What is your advice to underclassmen?

The advice I would give to underclassmen is advice I wish I would've taken myself. Always take time to appreciate the

small things, and take time to soak in every detail of high school because in less than four years it will all be over and all you have is memories to look back on.

What's the most valuable lesson you've learned in school?

Be more thankful for your family, because you don't realize how much they do for you throughout your years in school, especially high school.

Congratulations!

JOHN WAYNE JENKINS

Parents' names: John and Jessica Jenkins

What do you think is the most important thing you have done or been involved in while in school?

The most important thing I've done while in school was participating in extracurricular activities.

What are your plans after graduation?

To attend William Jewell College and find a career that I enjoy.

What has been the greatest challenge in your high school career?

My greatest challenge has been keeping up with school and all of my activities.

What has been the highlight of your high school career?

The highlight of my high school career was participating in band, football, NHS, and wrestling.

What is your advice to underclassmen?

My advice to underclassmen is work hard because hard work always pays off in the end.

What's the most valuable lesson you've learned in school?

The most important lesson I've learned in high school is that hard work always pays off in the end.

ALYSSA NICOLE LOVE

Parents' names: Tim and Carol Love

What do you think is the most important thing you have done or been involved in while in school?

Definitely all of the clubs I have been involved in, especially FFA. Without this organization I wouldn't have been able to take as many trips or travel to as many places as I have. National and State conventions and our Utah Leadership trip gave me so many memories.

What are your plans after graduation?

I plan to go to OTC to get my associates in arts of business, and graduate in the spring of 2023. After that I plan to open up my photography studio here in Buffalo.

What has been the greatest challenge in your high school career?

Time. Time goes by so fast and being involved in so many extracurricular activities it's sometimes hard to keep up, but the biggest challenge is not taking time to appreciate the little moments in this fast paced life.

What has been the highlight of your high school career?

I have several things to be proud of throughout my high school career, but the most important one would have to be everything I have accomplished in FFA. Placing second at state my senior year, and getting to walk across the stage was a very

memorable experience.

What is your advice to underclassmen?

Take time to reflect each year, and don't wish your time away because it goes by so fast. Spend time with your friends, make memories, and have fun.

What's the most valuable lesson you've learned in school?

The most valuable lesson I have learned in school is to value your friends and family, because they're the ones that will be there for you in your best and worst moments. Live with integrity, honesty and compassion.

CAITLYNN LEA MANKEY

Parents' names: Brandon and Jana Mankey

What do you think is the most important thing you have done or been involved in while in school?

The two most important things I have been involved in are Student Council because it gave me the opportunity to bring back the Veterans Assembly to honor our veterans, and Interact because it gave me so many chances to serve my community.

What are your plans after graduation?

I plan to attend College of the Ozarks in the fall to study Business and Design.

What has been the greatest challenge in your high school career?

I would say the hardest thing through high school has been balancing such a busy schedule. Between school, work, clubs, and church involvement, it could at times be overwhelming; however, it's also what I am most grateful for.

What has been the highlight of your high school career?

The highlight of my high school career was the many choir concerts and musicals I got to be involved in. Singing with some of my best friends, and making so many new ones, will forever be my favorite memories.

What is your advice to underclassmen?

My advice to underclassmen would be "never be afraid of failure". If you want to see a change or results, you have to work hard and fight for it. Take every opportunity you're given and make the best of it.

What's the most valuable lesson you've learned in school?

The most valuable thing I've learned in school is that doing the bare minimum only brings you mediocre outcomes. If you want to do great things, you have to be willing to learn and overcome obstacles.

ALEX DREW RICHARDSON

Parents' names: Oggie and Toni Richardson

What do you think is the most important thing you have done or been involved in while in school?

Competing in sports and joining clubs in high school has been very beneficial to me for the connections and friendships I have made.

What are your plans after graduation?

I plan to attend Evangel University to study Informational technology and continue my track career.

What has been the greatest challenge in your high school career?

My greatest challenge in high school was completing dual enrollment classes and keeping up with my classes.

What has been the highlight of your high school career?

The highlight of my high school career has been spending as much time with my friends and teachers as possible.

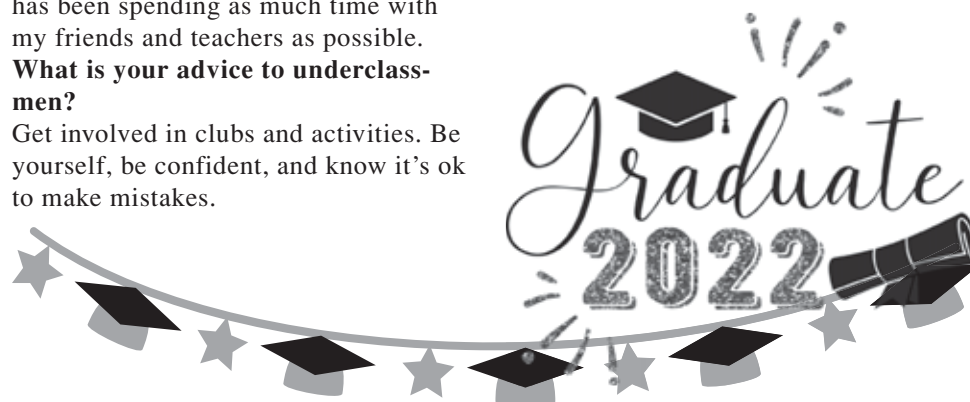

What is your advice to underclassmen?

Get involved in clubs and activities. Be yourself, be confident, and know it's ok to make mistakes.

What's the most valuable lesson you've learned in school?

Beating yourself up over mistakes only waste time. Failing is how you learn and become a better version of yourself.

Tanner Uptegrove

So proud of you & everything you have accomplished!

KAYLA MARIE COLTRIN

Parents' names: Brandon and Kami Coltrin

What do you think is the most important thing you have done or been involved in while in school?

Dance with Dance Sensations because it helped me grow creatively.

What are your plans after graduation?

I am taking classes at OTC to use my A+ scholarship over the summer. In the fall, I will be taking classes at SBU to get my associates and bachelor's degree.

What has been the greatest challenge in your high school career?

Balancing extracurricular activities with school work.

What has been the highlight of your high school career?

Performing in color guard and winter guard.

What is your advice to underclassmen?

Don't be afraid to challenge yourself. You can do more than you think!

What's the most valuable lesson you've learned in school?

Don't be afraid to do things differently than other people.

KAYLEE LYNN DECKARD

Parents' names: Jerry and Wendi Deckard

What do you think is the most important thing you have done or been involved in while in school?

I think the most important thing I have done is be involved. In order to do that, I have joined FFA, Future Business Leaders of America, Interact, Student Ambassadors, and National Honor Society, as well as being on the volleyball team and managing for the track & field team.

What are your plans after graduation?

After graduation, I plan to attend Missouri State University in the fall of 2022, majoring in the Cell and Microbiological program. Following that, I plan to attend medical school and become a pediatrician, eventually specializing in cardiology.

What has been the greatest challenge in your high school career?

I think one of the greatest challenges I have faced throughout high school is diversity. Many students are stuck in the ways they have been for years, and as a high school student it's hard to fit in. High school is all about finding out who you really are and it's not very easy to do that when it feels like those around you are judging you for what you like and/or dislike.

What has been the highlight of your high school career?

The highlight of my high school career would definitely have to be when I went to the Washington Leadership Conference for FFA, and Mrs. Boro drove the van in New

York City with all the crazy people. She did all of that so we could see the Statue of Liberty.

What is your advice to underclassmen?

My advice to the underclassmen is make the most of it. High school is the time to make memories and figure out what you want to do with your life. Join clubs and organizations because you want to, not because your friends want you to. Take advantage of the opportunities the school provides, but also know when to say no. Overall, have fun.

What's the most valuable lesson you've learned in school?

The most valuable lesson I've learned is that it's okay to be yourself and have fun; however, it's also okay to make mistakes, as long as you learn from them.

Alyssa Love

We are so proud of you! We can't wait to see where your adventures take you! Love, Mom & Dad

Class of 
2022

ISABELLA MARIA YOUNG

Parents' names: Monica and Ryan Young

What do you think is the most important thing you have done or been involved in while in school?

The most important thing that I have been involved in while in school is all of the athletic teams I have had the pleasure of being a part of. These teams have shaped my character, social skills, and work ethic.

What are your plans after graduation?

My plans are to attend Missouri State University. I will pursue the Three-Three program that they offer. The Three-Three program allows students that are seeking a law degree a faster route of six years instead of seven to eight years. Once I have completed my three years at MSU, I will transfer to Mizzou for three years to complete my law degree. I will then go back to school for a degree in accounting. My goal is to open my own law firm and be successful.

What has been the greatest challenge in your high school career?

The greatest challenge in my high school career is balancing sports, social life and my education at the same time.

What has been the highlight of your high school career?

The highlight of my high school career

is hitting my 1,000 point mark in my basketball career.

What is your advice to underclassmen?

My advice to the underclassmen is to participate in many clubs and organizations. Be respectful to the teachers. Try to go to all events, because it goes by in a blink of an eye.

What's the most valuable lesson you've learned in school?

The most valuable lesson I learned in school is to never push anything off and always give your best effort you can.

ANTHEA ANNIS MADDUX

Parents: Brigitte and John Maddux

What do you think is the most important thing you have done or been involved in while in school?

I think the most important thing I have been involved in in school is Interact, because we do a lot of projects that give back to our community.

What has been the greatest challenge in your high school career?

The greatest challenge has probably been maintaining the motivation to keep my grades up all the time.

What has been the highlight of your high school career?

The highlight of my high school career is getting to play softball.

What is your advice to underclassmen?

Enjoy your high school years before they're gone.

What's the most valuable lesson you've learned in school?

In high school, I became more independent and discovered who I am as an individual.

Tucker Savage

I am so very proud of you! May the Good Lord guide you in whatever path you choose! I love you Tucker!
Love, NENE

Class
of

2022

DIXIE LAUREN GRUBER

Parents' names: Ricky and Amy Gruber

What do you think is the most important thing you have done or been involved in while in school?

The most important thing I have done while in school is being involved. I have been involved in my community and within my school. I have been a part of the National Honors Society, softball, and Future Farmers of America. While involved in these activities I have helped to better my school and community. I have actively participated in many volunteer events within my community. I believe being involved is one of the most important things you can do.

What are your plans after graduation?

After graduation I plan to attend Crowder College. I will play softball at Crowder and study animal science. I plan to continue my education after Crowder and work towards being a veterinarian.

What has been the greatest challenge in your high school career?

One of my biggest challenges during high school was making sure I had good grades while still being as involved as possible.

What has been the highlight of your high school career?

The highlight of my high school career was hitting multiple home runs during softball districts my junior year.

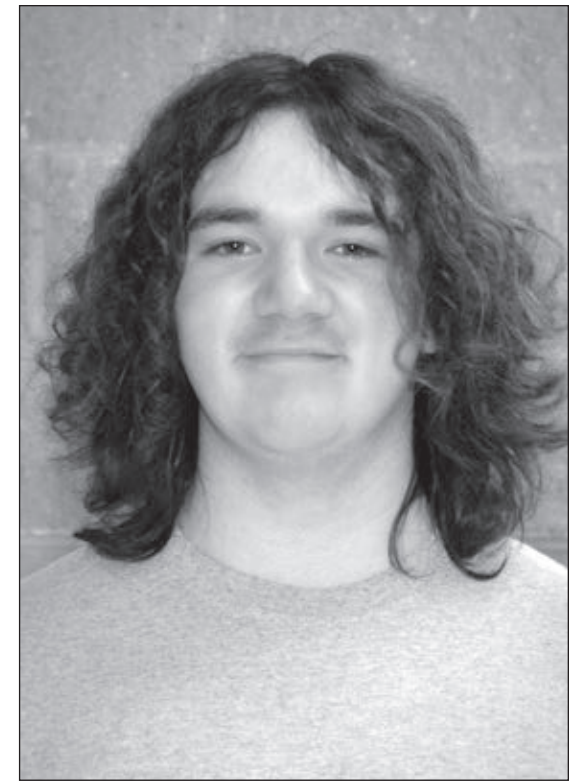

What is your advice to underclassmen?

My advice to underclassmen is to always work hard. Don't give up on yourself.

What's the most valuable lesson you've learned in school?

The most valuable lesson I learned in high school is that I can do anything I set my mind to.

CORBIN DANE JASPER

Parents' names: Darren and Shelly Jasper

What do you think is the most important thing you have done or been involved in while in school?

I'd say being involved in the FFA program.

What are your plans after graduation?

I plan on obtaining a position as a Rural Mail Carrier.

What has been the greatest challenge in your high school career?

My greatest challenge was probably completing all my honors classes Freshman and Sophomore year.

What has been the highlight of your high school career?

Probably qualifying to go to the National Rangeland Contest with the rest of my Grasslands team.

What is your advice to underclassmen?

To get involved in organizations or sports to make high school more enjoy-

able.

What's the most valuable lesson you've learned in school?

The most valuable lesson I learned was to enjoy your time in high school because it will fly by before you know it.

JOURNEY RAI EDGINGTON

Parents' names: Sherry Edgington

What do you think is the most important thing you have done or been involved in while in school?

The most important thing I have been involved in is the Criminal Justice program at DCTC.

What are your plans after graduation?

I plan on going to college at Missouri State University to study Criminal Justice. During college when I'm old enough I plan on joining the Police academy in Springfield.

What has been the greatest challenge in your high school career?

The greatest challenge for me in high school was during my senior year, trying to meet deadlines for scholarships and getting anxious for graduation can be stressful. I'm just excited I made it to where I am.

What has been the highlight of your high school career?

The highlight of my high school career was definitely being involved in sports and clubs. Winning or losing games and competitions, it was always fun to be a part of something that you enjoy and looked forward to everyday.

What is your advice to underclassmen?

My advice to underclassmen is don't slack off in High School. If you have goals don't give up on them and work your hardest to achieve them. You'll be happy once you achieve those goals. It'll be worth all the hard work.

What's the most valuable lesson you've learned in school?

The most valuable thing I learned in school is that hard work pays off. It might take awhile to achieve your goals but in the end it's always worth it.

I see more than just a car.

While other insurers just see a set of wheels, I take the time to see what your car really means to you and give it the protection it deserves.
LET'S TALK TODAY.

Julia Horinek

Class
of

2022

Julia Kay- You are incredibly resilient, smart, strong, and beautiful! You amaze me every day with your kind and compassionate heart.

We couldn't be more proud of you and the life you've lived and built so far. We are excited to stand alongside you in this next chapter of your life. We know you will achieve great things!

Be strong and of good courage.
- Deuteronomy 31:6

Love you forever,
Mom and Grandma & Grandpa Gronniger
