**Final Notice and Public Explanation of a Proposed Activity in a 100-Year Floodplain:** To: All interested Agencies, Groups and Individuals on 4/13/2024: This is to give notice that the City of Oglesby has conducted an evaluation as required by Executive Order 11988, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Wetlands Protection. The activity is funded under the CDBG Program and administered by the TDA ERR #(CDV23-0345). The City proposes a Water Infrastructure Improvements project, including Administrative and Engineering fees and services, for improvements at three water wells and two water connection sites. The improvements to the water wells will consist of replacing aged pumps, improving the site and electricals, and complete all associated appurtenances. The improvements at the water connection sites will be installing a new vault, pipe, pressure-reducing valve, bypass valves, and complete all associated appurtenances. The project is occurring across the City of Oglesby, Coryell County, Texas. The only portion of the project within the 100-year floodplain is the Water Connection #2 site located approximately 270 feet north of the Jordan Road and E Walker Ave intersection (31.421267°, -97.504698°). For additional information on project locations, please reference the contact information below and request the project's ERR. According to FEMA Panel No. 48099C0325F effective date 2/17/2010, the project shall include activities within approximately 0.16 acres of the 100-year floodplain (Zone A). The natural and beneficial functions and values of the floodplain potentially affected by the proposed activity include floodwater storage and conveyance, groundwater recharge, erosion control, surface water quality maintenance, biological productivity, fish and wildlife habitats, harvest for wild & cultivated products, recreational, educational, scientific, historic, and cultural opportunities. The City has considered the following alternatives and mitigation measures to be taken to minimize adverse impacts and to restore and preserve natural and beneficial values: a reduction in scope, alternate locations, and no action. The scope and location of project activities were chosen based on minimum improvements necessary to correct the health and safety risks existing facilities pose to the natural and human environment. Because the proposed project location contains the area most in need of improvements, the alternatives considered would preclude the correction of these risks. The best action is to proceed with the project as planned utilizing best management practices to protect the natural landscapes that serve to maintain or restore natural hydrology through infiltration and protect the proposed improvements from flood damage. All state and local floodplain protection procedures will be followed. Additionally, there shall be no significant increase in impervious surface and the project area will be restored to pre-project conditions upon completion. The City of Oglesby has reevaluated the alternatives to building in the floodplain and has determined that it has no practicable alternative. Environmental files that document compliance with steps 3 through 6 of Executive Order 11988 are available for public inspection, review, and copying upon request during regular business hours at the City Hall. There are three primary purposes for this notice: (1) People who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas; (2) An adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas; and (3) As a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk. Written comments must be received on or before 4/22/2024 by the City of Oglesby at P.O. Box 185, Oglesby, TX 76561-0185 or 120 Main Street, Oglesby, Texas 76561-0185, (254) 470-2944. Attention: Dan Markum, Mayor. A full description of the project may also be reviewed during regular business hours at the same address.

**Texas Commission on Environmental Quality**

**NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR TPDES PERMIT FOR MUNICIPAL WASTEWATER**

**RENEWAL**

**PERMIT NO. WQ0010176002**

**APPLICATION AND PRELIMINARY DECISION.** City of Gatesville, 803 East Main Street, Gatesville, Texas 76528, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0010176002, which authorizes the discharge of treated domestic wastewater at an annual average flow not to exceed 2,700,000 gallons per day. TCEQ received this application on August 28, 2023.

The facility is located at 402 Stillhouse Road, in Coryell County, Texas 76528. The treated effluent is discharged to Stillhouse Branch, thence to Brazos River Above Belton Lake in Segment No. 1259 of the Brazos River Basin. The unclassified receiving water use is minimal aquatic life use for Stillhouse Branch. The designated uses for Segment No. 1259 are primary contact recreation, public water supply, and high aquatic life use. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.  
<https://gisweb.tceq.texas.gov/LocationMapper/?marker=-97.751666,31.445&level=18>

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Gatesville City Hall, 803 Main Street, Gatesville, Texas.

**ALTERNATIVE LANGUAGE NOTICE.** Alternative language notice in Spanish is available at <https://www.tceq.texas.gov/permitting/wastewater/plain-language-summaries-and-public-notices>. El aviso de idioma alternativo en español está disponible en <https://www.tceq.texas.gov/permitting/wastewater/plain-language-summaries-and-public-notices>.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

**EXECUTIVE DIRECTOR ACTION.** The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

**MAILING LIST.** If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

**All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, TX 78711-3087 or electronically at [www.tceq.texas.gov/goto/comment](http://www.tceq.texas.gov/goto/comment) within 30 days from the date of newspaper publication of this notice.**

**INFORMATION AVAILABLE ONLINE.** For details about the status of the application, visit the Commissioners' Integrated Database at [www.tceq.texas.gov/goto/cid](http://www.tceq.texas.gov/goto/cid). Search the database using the permit number for this application, which is provided at the top of this notice.

**AGENCY CONTACTS AND INFORMATION.** Public comments and requests must be submitted either electronically at [www.tceq.texas.gov/goto/comment](http://www.tceq.texas.gov/goto/comment), or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC 105, P.O. Box 13087, Austin, Texas 78711-3087. Any personal information you submit to the TCEQ will become part of the agency's record; this includes email addresses. For more information about this permit application or the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at [www.tceq.texas.gov/goto/pep](http://www.tceq.texas.gov/goto/pep). Si desea información en Español, puede llamar al 1-800-687-4040.

## MEXICAN CRESCENTS

BY KATHIE BROWN

- 1 lb. ground turkey or hamburger
- 2 cans refrigerator crescents
- 1 lb. Jimmy Dean sausage (regular)
- 2 c. grated cheese

Combine meat and brown. Flatten the crescent in a triangle. Spoon on 1 tbs. of meat and 2 tsp. of cheese in the middle of the crescent. (Amount of meat and cheese will vary depending on the size of the flattened crescent). Fold sides of the crescent over the top of the meat and cheese and seal crescent closed. Repeat until all crescents have been used. Bake at 375 for 10-12 minutes or until golden brown. Makes 16 Mexican crescents. To half recipe, use only one can of crescents and ½ the meat mixture. Freeze remaining meat for next meal.
