The Best of Hood County — Celebrating 13 years of excellence

SAM HOUSTON

Sam Houston is the publisher of the Hood County News. He is also an actor, author, playwright, performer and entertainment producer/promoter.

Houston

Why do businesses compete? Simple. When locals, newcomers, or visitors in town are seeking a particular good or service, they know when they see a business displaying the Best of Hood County decal, they are trading with someone who provides a high quality good or service. It gives customers peace of mind knowing the business they are utilizing is not simply competent, but exemplary.

Why do people vote? Partly because it is fun, but mostly patrons have favorites and businesses they enjoy. Sometimes it is because the business

has a good price, or they provide outstanding customer service, or they simply are outstanding in everything they do. Loyal customers love to support their favorites and want their voices heard.

Our nation and our community have been through challenging times the past few years. COVID-19 has caused the closure of many small businesses, some right here in Hood County. Those that have remained open lost significant income and suffered hardships, which are real and apparent. Small business is the backbone of the American economy, and it is important to recognize those outstanding entities that serve our community so well.

It is the hope of the Hood County News that our readers support the businesses that make up this great place we call home. Go have a taco, drink a margarita, get your car washed, get your shirt cleaned, or trade with the hundreds of businesses that make up our local economy. It has been my experience that these businesses provide great value for your hard-earned dollar, and your support helps our town grow and prosper.

Thank you to all the voters for taking your time and earnestly making your selections.

We salute the winners and runners-up! Congratulations and remember the challenge — the hardest thing to do after winning is to repeat! Keep up the good work.

The Forbes ranking of America's Top 1,000 Women Wealth Advisors, developed by SHOOK Research, is based on an algorithm of qualitative and quantitative data, rating thousands of wealth advisors with a minimum of 7 years of experience and weighing factors like revenue trends, AUM, compliance records, industry experience and best practices learned through telephone and in-person interviews. Portfolio performance is not a criteria due to varying client objectives and lack of audited data. Research Summary (as of February 2021): 32,810 nominations were received based on thresholds (9,785 women) and 1,000 won. This ranking is not indicative of advisor's future performance, is not an endorsement, and may not be representative of individual clients' experience. Neither Forbes nor SHOOK receive a fee in exchange for rankings. Raymond James is not affiliated with Forbes or Shook Research, LLC. Please visit <https://www.forbes.com/top-women-advisors> for more information.

The Forbes ranking of Best-In-State Wealth Advisors, developed by SHOOK Research, is based on an algorithm of qualitative criteria, mostly gained through telephone and in-person due diligence interviews, and quantitative data. Those advisors that are considered have a minimum of seven years' experience, and the algorithm weights factors like revenue trends, assets under management, compliance records, industry experience and those that encompass best practices in their practices and approach to working with clients. Out of approximately 32,725 nominations received, based on thresholds, more than 5,000 advisors received the award. Portfolio performance is not a criteria due to varying client objectives and lack of audited data. Neither Forbes nor SHOOK receives a fee in exchange for rankings. This ranking is not indicative of advisor's future performance, is not an endorsement, and may not be representative of individual clients' experience. Neither Raymond James nor any of its Financial Advisors or RIA firms pay a fee in exchange for this award/rating. Raymond James is not affiliated with Forbes or Shook Research, LLC. For more information, visit: <https://www.forbes.com/best-in-state-wealth-advisors/>

*SHOOK™ Research considered Wealth Advisors who are mothers with children living at home and under the age of 21. Ranking algorithm is based on qualitative measures derived from telephone and in-person interviews and surveys: service models, investing process, client retention, industry experience, review of compliance records, firm nominations, etc.; and quantitative criteria, such as assets under management and revenue generated for their firms. Investment performance is not a criterion because client objectives and risk tolerances vary, and advisors rarely have audited performance reports. Rankings are based on the opinions of SHOOK Research, LLC. Neither SHOOK nor Working Mother receives compensation from the advisors or their firms in exchange for placement on a ranking. **Research Summary (as of 3/31/2020):** from a total universe of 300,000 advisors, based on our thresholds we received 32,350 nominations, of which approximately 20% (6,600) were women and less than a quarter (1,238) at the time were mothers with children under the age of 21 and living at home. A final list of the top 500 advisors was then compiled based upon the quantitative criteria. Raymond James is not affiliated with Working Mother or Shook Research, LLC. This ranking is not indicative of advisor's future performance, is not an endorsement, and may not be representative of individual clients' experience. Neither Raymond James nor any of its Financial Advisors or RIA firms pay a fee in exchange for this award/rating. For more information see www.SHOOKresearch.com.*
