Senior Bios

The Hood County News is excited to celebrate the accomplishments of graduates from all around Hood County. The student-submitted, short biographical segments that follow are a mere snapshot of what many of our local young people have accomplished in their educational career. From all-star athletes to academicians, future farmers to ROTC, musicians and artists, these graduates have pursued their interests, excelled on the field, court, and classrooms, and left impressions on the history of their schools and the hearts and minds of our community members.

Rather than separate these bios by school, they are included in alphabetical order to celebrate each student's place in our local community. Many of these students will go off to college in faraway places. Many of them will go to college nearby. Some will pursue other interests. Whatever their next steps, we hope that these students remember Hood County as their home, and we welcome them with open arms when they return.
