The Baker family farm represents a very well maintained centennial farm, that offers a little something for everyone. The farm will be divided into four tracts that will offer three smaller acreage tracts, perfect for building sites and pasture. One larger tract has been in CRP for the last ten years and has the potential to become a highly productive tillable farm or used for outstanding pasture or hay field. This larger tract also boasts a very nice morton building! Two of the other tracts offer outbuildings, one with a cattle shed and corral.

This entire farm has access from Highway K and is just minutes from two separate four-lane highways, 36 and 63. These tracts offer a lot of value to the farmer, rancher, and hobby farmer with their gently rolling terrain and good fences. The farm will also appeal to anyone looking for a smaller acreage to build! All of these tracts will make beautiful building sites and are on a quiet blacktop highway, the perfect distance from town.
