When it comes to Twin Rotor® harvesting,
we've got a 45-year head start.

It was bound to happen. Dual-rotor technology—the harvesting innovation New Holland pioneered in 1975 as the Twin Rotor® combine—has caught the attention of the competition and now they're trying to catch up. All we can say is, *what took you so long?* And while they continue to experiment, our experience is setting world-record harvests. It's helping producers harvest faster with less grain loss and save thousands in fuel and labor. It's why we're the number one selling twin rotor combine worldwide. Talk about harvest supremacy.

Get a head start on a more productive harvesting season. See a CR Revelation combine with unmatched Twin Rotor® threshing and grain quality at your local New Holland dealer today, or visit newholland.com.
