When it comes to Twin Rotor® harvesting, we've got a 45-year head start.

It was bound to happen. Dual-rotor technology—the harvesting innovation New Holland pioneered in 1975 as the Twin Rotor® combine—has caught the attention of the competition and now they're trying to catch up. All we can say is, *what took you so long?* And while they continue to experiment, our experience is setting world-record harvests. It's helping producers harvest faster with less grain loss and save thousands in fuel and labor. It's why we're the number one selling twin rotor combine worldwide. Talk about harvest supremacy.

Get a head start on a more productive harvesting season. See a CR Revelation combine with unmatched Twin Rotor® threshing and grain quality at your local New Holland dealer today, or visit newholland.com.

Notices

Attention: WireCo Hourly Employees

The law office of Donelon, P.C. and the Tourigny Law Firm filed an overtime class action on behalf of hourly employees working at Wireco's manufacturing plants from 2019 to the present (Wampler v. Wireco Worldwide Group, Inc., D.Kan. case no.: 22-cv-2242). It alleges that Wireco required employees to be present before (and sometime after) shift times to perform work with its timekeeping system rounded this time away. In turn, this denied overtime pay.
