HAY STORAGE SOLUTIONS AND MUCH MORE!

"Today, I checked with Joseph to see when he was planning to deliver and construct my second hoop building. Two years ago I purchased a 55'x98' hoop building from Skylight buildings. It was erected on my site on time and the building went up in two days.

I was concerned about the durability of a vinyl building compared to a metal sided structure. That was until I noticed that a rock from my Brush Hog 2715 had impelled itself into the metal building. The Skylight building would not have been damaged. Also, the name says a lot. I thought that I would wire in lights like my other buildings but to date I have not found the need.

The reason I thought I needed to build a large building was to store my hay inside. I knew I was losing hay quality due to weather damage but baling with 568 John Deere and net wrapping my hay I thought I was keeping my hay loss at a minimum. I found the first year that I had underestimated my losses. I was very pleased with the results of storing hay inside. It is most gratifying to put a bale into the hay ring and seeing that the previous bale was almost completely consumed by the cows or the feeder calves. I had a record amount of carry over from last year and it is safely stored inside ready to be used this winter! This will allow for hay sales this winter.

The construction of the building's frame is strong, the foundation supports are 24" and very deep. I am very satisfied and have ordered another 55' x 140' to be installed in a few weeks. This one will be used to store our small square bales and equipment.

Thank you Joseph for your service and this chance to recommend your buildings."

Special Cow, Bred Heifer & Breeding Bull Sale

Wednesday, January 19th
Special Calf & Yearling Sale

3,691 head were sold at the January 5th Annual New Year's Calf & Yearling Sale. Compared to the last sale three weeks ago, steers sold with a sharply higher undertone, particularly those under 600 lbs. Heifers 2.00 to 5.00 higher. Slaughter cows steady. The local cash feeder market opened the new year with a bang offering overall outstanding quality cattle, with early steer sales easily trending 5.00 to 10.00 higher, a spread that grew to 15.00 to 20.00 higher on steers under 600 lbs. The only exception to the big upswing were some 600-700 lb steers which traded steady to 2.00 higher. Heifer cattle lagged behind their brothers quite a bit and couldn't match their sharp uptick but still tacked on some money. The real story on the heifer end was the demand for replacement quality heifers from a handful of reputation consignors; most of those bought for development rang up an impressive 1100.00-1300.00 per head. Optimism abounds.
