HAY STORAGE SOLUTIONS AND MUCH MORE!

"Today, I checked with Joseph to see when he was planning to deliver and construct my second hoop building. Two years ago I purchased a 55'x98' hoop building from Skylight buildings. It was erected on my site on time and the building went up in two days.

I was concerned about the durability of a vinyl building compared to a metal sided structure. That was until I noticed that a rock from my Brush Hog 2715 had impelled itself into the metal building. The Skylight building would not have been damaged. Also, the name says a lot. I thought that I would wire in lights like my other buildings but to date I have not found the need.

The reason I thought I needed to build a large building was to store my hay inside. I knew I was losing hay quality due to weather damage but baling with 568 John Deere and net wrapping my hay I thought I was keeping my hay loss at a minimum. I found the first year that I had underestimated my losses. I was very pleased with the results of storing hay inside. It is most gratifying to put a bale into the high ring and seeing that the previous bale was almost completely consumed by the cows or the feeder calves. I had a record amount of carry over from last year and it is safely stored inside ready to be used this winter! This will allow for hay sales this winter.

The construction of the building's frame is strong, the foundation supports are 24" and very deep. I am very satisfied and have ordered another $55' \times 140'$ to be installed in a few weeks. This one will be used to store our small square bales and equipment.

Thank you Joseph for your service and this chance to recommend your buildings."

Special Calf & Yearling Sale

Saturday, December 18th

Special Cow, Bred Heifer & Breeding Bull Sale

Green City Livestock held their Annual Thanksgiving Special over the course of the

holiday week, featuring yearlings on Tuesday and calves on Friday, with 6,649 head

sold. No recent test to compare Tuesday's yearling market to but the undertone was sharply higher. Several large strings of reputation cattle were featured, both homeraised and backgrounded, with over 30 load lots offered. Steer cattle made up the bulk of Tuesday's offering and the majority of all the cattle weighed over 700

lbs. Trade was active from the start for Friday's calf sale but heated up by mid-day,

creating some wide price spreads, especially for 400-600 lb steer cattle. Several of the strings on offer Friday came to town right off the cow but discounts were rarely

evident, and many weights and classes reached prices we haven't seen in quite

some time. It's surely seemed to be a tough year as a whole for the cattle sector but in a look back at 2020's Special Thanksgiving Sale, this year's offering traded a full

Due to relocating out of state for work the following real estate will be sold at public auction located NE of Milan, MO.

Auction signs posted!!!!

Auctioneers Note: WOW!!! If you are looking for the most beautiful place to build a home, go hunting for large whitefail deer, fishing, to have livestock end, then this is your opportunity!! This property is 1 mile from the south end of the future 2300 plus acre East Locust Creek Water Reservoir Lake and half mile from the Sears Community Conservation 83 acre take. The potential is endless if you want a small acreage or the whole farm.

TRACT 1: 25 acres M/L with 13 acres M/L of pasture and remaining 12 acres M/L of excellent oak timber. This acreage has a solid gravel driveway with a leveled building site that was being used as RV parking/camping. There is electric service on the acreage supplied by North Central Missouri Electric Cooperative.

TRACT 2: 24 acres M/L with 12 acres M/L of pasture and 12 acres M/L acres of excellent oak timber. This acreage has rural water supplied by Sullivan County Public Water Supply Dist. #1. No entrance or electric service to this tract but can easily be done. This tract has the highest elevation point & most beautiful views of any tract.

TRACT 3: 53 acres M/L with 44 acres M/L of pasture and 8 acres M/L of oak timber and 1 acre pond. This acreage has a solid gravel driveway with a leveled building site that the owners were going to build their home on before relocating.

There is electric service on the acreage supplied by North Central Missouri Electric Cooperative.

Brokers Representing Buyers: Licensed real estate brokers may earn a commission of the selling price if their properly registered client purchases one parcel, multi parcels or the whole farm from Bob Peniston Auction. Property sells AS-IS with neither warranty nor guarantee implied or expressed.

This property will be divided into 3 tracts and offered individually and in combinations using the multi-parcel method, giving you an opportunity to own it in its entirety or only the individual tracts you choose. This is a live on-site auction.

BOB PENISTON AUCTION SERVICE Chillicothe, MO • 660-973-6620
