## Firefighters' Ranch Rodeo and Barrel Race held at NEMO Fairgrounds

**Staff Reports** 

The Kirksville Professional Firefighters Local 2952 3rd Annual Ranch Rodeo & Barrel Race was held on Saturday. Sept. 16 at the NEMO Fairgrounds. The rodeo is a fundraiser for the Kirksville Firefighters Community Outreach Fund, which is used to provide fire prevention materials to the public as well as other purchases such as battery exchanges for AED defibrillators used in local businesses and other public venues.

Money was also donated to the Adam Bruner Memorial Scholarship, which was founded by the Adair County Ambulance District and honors the former paramedic who passed away in 2021. The scholarship is to support students that want to go into EMT and paramedic programs. The Adair County Ambulance District provided labor and other assistance at the food stand during the rodeo.

The days events included barrel racing mutton busting, and four-man teams competing in team doctoring, team sorting, team mugging and team penning.

A custom buckle was given to the overall winning team and the top barrel racer. The fastest time in each event also got a payo

### **Gaber Founder's Award**

Founder's Award for Excellence in Hospice Services created at Hospice of Northeast Missouri

By Hospice of Northeast Missouri

Ron and Elsie Gaber of Kirksville recently offered a generous donation to Hannibal Regional Foundation to support hospice services in northeast Missouri. This donation will help to create the Gaber Founder's Award for Excellence in Hospice Services Endowment for Hospice of Northeast Missouri. The purpose of the endowment is to establish, in perpetuity, a means to express appreciation, recognition, and encouragement to those Hospice of Northeast Missouri team members and volunteers who dedicate their life assisting patients and families with experiencing dignity in the dying process.

Hospice care offered through Hospice of Northeast Missouri is a service families throughout northeast Missouri are very appreciative of. Without the visionary leadership and dedication of Ron Gaber and others, Hospice of Northeast Missouri would not exist today. Ron saw a need to address end-of-life care for those living in Adair County, and with the help of other dedicated volunteers they created Hospice 2000 in 1993. Ron served as the founding president of Hospice 2000 from 1993-97, as well as the volunteer and bereavement coordinator in the early years. Ron was certified and taught thanatology courses at A.T. Still, Truman State and Ball State Universities. He also provided numerous training seminars and workshops. He is the author of "The Death of Adult Children Through the Eyes of Grieving Parents" and is retired Dean Emeritus of Students and Vice President Emeritus of Student Affairs at A.T. Still University.

Truman State University presents 'Twelve Angry Jurors' on Sept. 28, 29, and 30 at 7:30 p.m. and Oct. 1 at 2 p.m. at the James G. Severns Theatre, Ophelia Parrish Building. When a person's life is at stake, what constitutes reasonable doubt becomes the most important question. In Twelve Angry Jurors, adapted by Sherman L. Sergel, personalities clash, tempers flare, and the clock ticks as twelve people try to come to a unanimous verdict in a murder trial. This tense and enlightening story pits reason against passion, bigotry against fact, and callousness against caring until the very end. Is a young man guilty of murder and deserving of death, or is there a reasonable doubt?

#### Missouri 'Shakeout' earthquake drill coming Oct. 19 an earthquake occurs

Jack Eugene Patterson

Jul 29, 1947 — Sep 17, 2023

Jack Eugene Patterson, 76, of rural Rocheport, February 1979. A son was born, John Patterson of

By State Emergency Management Agency

JEFFERSON CITY Recent disasters in Morocco and Turkey serve as reminders of the destructive power of earthquakes. It's also an important reminder that one of the country's most active earthquake zones is located right here in Missouri. In 1811-12, the New Madrid Seismic Zone (NMSZ), centered in southeast Missouri, produced some of the most powerful earthquakes in U.S. history. Similar earthquakes today would lead to major damage and destruction.

To prepare for any future earthquakes, registration is now open for the 2023 Great Central U. S. ShakeOut earthquake drill on Thursday, Oct. 19. Missouri is one of 14 participating central U.S. states that could be impacted by a NMSZ earthquake.

"Missouri is home to a very large and active seismic zone," State

**Emergency Management** Agency Director Jim Remillard said. "Earthquakes occur without warning, so it's important to prepare now. The ShakeOut drill is a great opportunity to practice so you know what to do when the shaking starts."

At 10:19 a.m. on Oct. 19, hundreds of thousands of Missourians will practice the "Drop, Cover, Hold On" technique:

DROP to your hands and knees;

COVER your head and neck with your hands and arms under a table or desk if you can; and HOLD ON until the shaking stops.

Studies show that in developed countries with modern structures, falling debris is the most common source of injury in an earthquake. Experts advise that when in the U.S., the "Drop, Cover and Hold On" technique is the best protection from falling debris. To sign up for the Shake-

Out, register online at www.shakeout.org/centralus. Schools, businesses, community organizations or any other group can register as well as families and individuals. Once registered, participants will receive regular updates on the drill and information on earthquake preparedness and safety.

The NMSZ is one of the most active earthquake zones in the country, averaging more than 200 small quakes per year. Another major earthquake in this zone would be felt not only in Missouri but throughout the Midwest, damaging much of the southern and eastern parts of the state, including the St. Louis metropolitan area. ## **Truman State University extends** No. 1 ranking streak to 27 years

By Truman State University

Truman State University's spot at the top of the U.S. News & World Report college rankings now stands at 27 years and counting.

The University earned multiple recognitions in the 2024 U.S. News & World Report Best Colleges rankings, including another year as the No. 1 public school in the Midwest region. Among both public and private institutions, Truman was No. 5 overall for the Midwest region. Notably, Truman was the only Missouri school in the top 10 of this particular list and the only public school from the Show-Me State to be included in the top 65 spots.

"We put students first at Truman, and everyone on campus is focused on helping them succeed academically, professionally and personally," said University President Susan L. Thomas. "While we are always honored to be recognized for our efforts, that is never our goal. We earn national recognitions because we are always working to provide the best educational experience for our students."

As usual, Truman fared well on a number of supplemental tabs included in this year's Best Colleges rankings. Truman tied at No. 3 on the list of Most Innovative Schools in the Midwest region. College presidents, provosts and admissions deans were asked to nominate up to 15 colleges or universities in their ranking category that are making the most innovative improvements in terms of curriculum, faculty, students, campus life, technology or fa-

cilities. Of the 14 schools in this subcategory, Truman was the highest rated of the two public institutions included, and it was the only college from Missouri.

Affordability was another factor leading to success for the University. Truman was cited at No. 5 on the list of Best Value Schools in the Midwest region. Editors used four key indicators to determine this ranking, including: academic quality; percentage of full-time undergraduates receiving needbased scholarships or grants; as well as the percentage of those students who received a scholarship or grant that does not have to be paid back; and the average discount from the school's total cost.

Faculty played a crucial role in securing another noteworthy accolade, helping Truman come in tied at No. 10 in Best Undergraduate Teaching Programs in the Midwest region. This subcategory, also compiled from peer assessment, highlights schools that emphasize providing high-quality instruction to undergraduates. On this list of 18 institutions, Truman was the only public school and was the lone representative for Missouri.

"The feedback we get from employers always mentions how well prepared our students are, and credit for that starts with our faculty," Thomas said. "It is about so much more than a low student-to-faculty ratio, it is about having instructors who truly care for their students and are invested in their success."

U.S. News & World Report also recognized Truman on its list of Top Performers on Social Mobility, and four of the University's academic programs - business, computer science, nursing and psychology earned inclusion on rankings of their respective disciplines. The entire Best Colleges rankings can be found online at usnews. com/best-colleges.

#### **SUDOKU**

#### Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

## Truman off to 3-0 start after 21-7 win over Saginaw Valley State

By Adam Tumino

The Truman State football made another statement with a tough non-conference win on Saturday at home against Saginaw Valley State. The Bulldogs shut down the Cardinals running game throughout and pulled ahead with a pair of second-half scores to win 21-7 and improve to 3-0 on the season. Saginaw Valley dropped to 2-1 with the loss.

Truman entered the game having received the 36th most votes in the AFCA Coaches Poll for week two, while Saginaw Valley was slightly ahead with the 31st most votes. After the win, Truman came up just short of the top 25, receiving the 28th most votes for week three.

A lengthy lightning delay with 2:32 to go in the second quarter, and Truman up 7-0 and coming off a touchdown and defensive stop, threatened to derail the Bulldogs' momentum. Saginaw Valley did manage to score its lone touchdown after the delay and before an abbreviated halftime, but that was all the momentum the Cardinals could manage.

Truman head coach Gregg Nesbitt said he was pleased with the performance of the team in all phases of the game and that they did not lose focus after the delay and the Cardinals' touchdown.

"It was a complete effort," he said. "We played together. There were some down moments, certainly coming out of the long break and letting them score. A lot of teams would have gotten deflated, but I think our guys just kept playing. It's a 60-minute ballgame."

Truman's scores came first on a 46-yard catch and run from quarterback Nolan Hair to tight end Chris Kerr with 4:53 left in the second quarter. The next score came on a one-yard run from Mason Huskey. These touchdowns capped off drives of 82 and 90 yards respectively.

The scoring was capped off with one second remaining while Hair, who was scram-

bling around on fourth down to run out the final seconds on the clock, instead found a wide open Tate Crane for a 14-yard score.

Hair finished the day 14-of-22 passing for 263 yards, two touchdowns and an interception. He also ran for 29 yards, some on designed runs and some on scrambles. His 262 passing yards are the third-most in Hair's career and the most since he threw for a career-high 325 yards against Quincy on Oct. 30, 2021.

"It might have been Nolan Hair's finest game," Nesbitt said. "He made one mistake on the interception down here in the high red zone that he'd like to have back. But he's got 'it."

Hair's top target on the day was Crane, who had five catches for a career-high 96 yards. He already has 197 receiving yards in three games this season. Kerr finished with two catches for 49 yards while Jack Butchko had just one reception but for 59 yards, the longest play for the Bulldogs in the game.

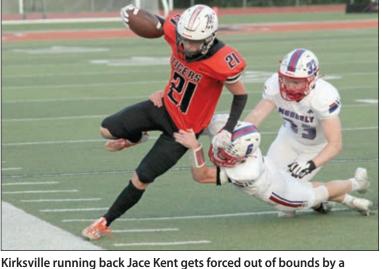

It was the Bulldogs' defense, particularly on the ground, that really stood out on Saturday. Saginaw Valley State entered the game with the third-best rushing offense in the nation. The Cardinals ran for 406 yards in the season opener against Winona State and 230 the following week against Northwood.

Despite missing All-GLVC defensive tackle Ben Miller, and having other lineman get banged up throughout the game, the Bulldogs held the Cardinals to just 81 yards on the ground They also held Saginaw Valley to just 1-of-11 on third down conversions. The Cardinals converted 13-of-27 third downs in their first two games combined.

Nesbitt said that the entire defense played well throughout the day. He also singled out sophomore Mason Crim, redshirt-freshman Jacob Carmack and true freshman Tyler Shanks, all defensive linemen who helped fill in the gaps and anchor the run defense on Saturday.

Those guys, along with the rest of the defense, I thought where they really shined was on third down," Nesbitt said. "I thought we really did a good job of getting off the field pretty consistently, getting the ball back to our offense."

The Bulldogs will be on the road in Detroit this weekend for their final con-conference game of the season against Wayne State. The Warriors are 1-2 on the season, but their losses came to Slippery Rock and Truman's GLVC rival Indianapolis, teams that are currently ranked 12th and 16th in the nation respectively.

## Kirksville falls 35-6 to Moberly for 3rd-straight loss

By Adam Tumino

After a strong first drive on Friday night, the Kirksville football team struggled to get things going again in a 35-6 loss against Moberly. The Spartans would score the game's final 35 points, handing Kirksville its third-straight loss and first loss at home this season. Kirksville is now 1-3 on the year while Moberly improved to 4-0.

Things started off well for Kirksville. They received the opening kickoff and quickly drove down the field. Quarterback Ryder Lyons threw for three first downs on the drive before hitting Malik Rodriguez for a 32-yard touchdown, ending the 80-yard drive that took nearly four minutes.

Moberly took a 7-6 lead on a 41-yard touchdown pass of their own with 2:55 left in the first quarter and scored again on a 94-yard drive following an interception, cashing in on a 9-yard touchdown pass.

The game was well within reach for Kirksville at the half with the score 14-6, but a costly Tiger turnover early in the third quarter led to another Moberly touchdown. The Spartans added two more rushing touchdowns in the fourth quarter.

Kirksville head coach Kevin Krietemeyer said the offense struggled on the ground all night, which was the main issue that kept the Tigers out of the game.

"I just don't think we could run the football," he said. "They did a good job of pinching and sliding into our gap scheme stuff and we weren't very successful running the football, and that's what it boiled down to. Offensively we were throwing the football here and there, got predictable and they beat us up."

Defensively, the Tigers were able to get several big stops,

including one right before halftime that kept it a one-score game. Krietemeyer said he liked the defensive effort, but when the offense is not maintaining possession of the ball, it keeps the defense at a disadvantage.

"I was really proud of our guys," he said. "They kept battling, kept battling, kept battling. There are some things that we have to make sure we're disciplined about. I don't think we were very disciplined on a few things. We weren't blitzing off the edge over there, and that was disappointing. But what it boils down to is the offense not getting the job done, and that was my fault for not doing a better job play calling."

The Tigers will look to get back on track against Marshall at home in week five. Krietemeyer said that he expects another tough game, and that the team needs to come out more prepared than they did against Moberly.

"[I expect] a hard-nosed, tough game just like this," he said. "They can run the football and they're physical up front, and we're going to have to be ready to play football."

Marshall is 1-3 on the season, but their last two losses were by four and seven points respectively. Kirksville beat Marshall 41-17 last season in Marshall.

of the Tigers' first district title since 2011. They are currently averaging 7.6

Brashear will be in pursuit runs per game, which would be their highest average in three years, while allowing 4.8 runs per game. These numbers are affected by the 11-0 loss Friday and a 13-0 loss in the season opener. In the other six games this season, the Tigers are averaging 10.2 runs per game and allowing 2.3 runs per game.

La Plata's lineup has been explosive so far, averaging 12.4 runs per game. They have scored in double figures in every game this season except for their 19-6 loss to Marceline on Sept. 7. Even with that game inflating the number, the Bulldogs are allowing just 3.4 runs per game so far. They have shut out their opponents six times in nine games.
