Travel Story App Simplifies Touring Kirksville's Historic Sites

City of Kirksville

The city of Kirksville received a grant through the National Park Service Historic Preservation Fund, and partnered with app company TravelStories to create a tour that showcases historically significant buildings in Kirksville. In total, 100 locations are highlighted as points of interest on the app and Mayor Zac Burden narrates the history for 36 of them. The TravelStories app uses GPS to trigger the narration once you get close to the location. People can walk, bike or drive the tour in any order they want, at any time they want.

The hope is that the app will engage a broader population in historic preservation, and make the rich history of Kirksville more tangible and visible to both residents and visitors to the city.
