LAND AUCTION

TUESDAY, MAY 20, 2025 - 1:00 PM CST

127± Acres (subject to survey)
Selling in 2 Tracts

VIRTUAL ONLINE

The Ganzer farm is located approximately 4 miles east of Cantril, Iowa, 40 miles west of Ft. Madison, IA or 75 miles northwest of Quincy, IL. and is further described as being located in Section 4, T67N - R10W, Des Moines Township, Van Buren County, IA. Approximate address: 28115 Iowa Oak Grove Ave - Cantril, IA (watch for directional signs). The tracts represent income producing CRP farmland, recreational land, attractive home sites and the potential for timber harvesting!

*This list is subject to change. All updates will be made on our website. Announcements made the day of the sale take precedence over prior advertising.

Auctioneer's note: Whistling Wings Farm Duck Club was established in 1958 in St. Charles, MO. The farm has sold and all equipment must go, as well. Farm was managed by Howard Weber with about 650 acres being farmed. This is an "Absolute" Farm Auction, every item sells to the high bidder. See you Saturday, May 10th. Thank you, Charlie and Kyle

Special Notes: Lunch stand will be provided by Orchard Farm FFA

All Equipment MUST be removed within 2 weeks. Skidloader will only be available the day of the sale.

Machinery notes: All maintenance up to date, always kept in sheds, and field ready.

For information call:

Home and yard care 10 essential springtime tasks

The days are growing longer and warmer, coaxing you to step outside and enjoy the invigorating spring air. Warmer weather also means it's time to tackle some important chores. Here's an overview:

- 1. Inspect the roof.** Check for missing shingles, popped nails, standing water, membrane damage and signs of mould. If you notice any of these signs, repairs are needed.
- 2. Clean the gutters.** Look for cracks and remove debris that could prevent water from draining. Make sure water drains away from the foundation.
- 3. Look at the attic and ceiling.** Look for signs of leakage, such as rings, mould or peeling paint. Check also for nests or droppings that indicate the presence of unwanted pests.

- 4. Inspect the foundation.** If you notice narrow cracks, seal them with an appropriate product. Consult an expert if the cracks are wider than a centimetre.
- 5. Examine the windows.** Check for damaged caulking and replace it if necessary. Ensure all your windows open and close smoothly and the screens are intact.
- 6. Deal with exterior taps.** Turn on the water and inspect the tap for leaks. Cover the mouth of the faucet with your thumb. If everything is functioning properly, you shouldn't be able to stop the flow easily.
- 7. Prepare the soil.** Fertilize and amend the soil as needed. If you haven't done this in a few years, consider getting a soil analysis to determine how to boost plant growth.

- 8. Trim vegetation.** Cut back perennials you didn't get to in the fall and trim any branches that are dangerously close to your house. Remove broken branches that didn't survive the winter.
- 9. Maintain your gardening tools.** Ensure your hedge trimmer, lawnmower, edger and other tools are ready to use. Sharpen the blades, check the oil levels and clean or replace any parts as necessary.
- 10. Test your air conditioner.** Follow the manufacturer's recommendations on changing or cleaning your air conditioner's filters and coils. Then, turn it on, test it and fix any issues before the first heat wave hits.

Call a maintenance professional or get started right away and make the most of this spring.
